

## 2008 HCPCS Level II Code Books

The following corrections have been identified and should be incorporated into the 2008 Ingenix HCPCS Level II code books:

1. Appendix 5 is missing several of the new codes that were distributed by CMS, however all new codes do appear in the body of the book.
2. The description for code J2791 should be Injection, Rho (d) immune globulin (human), (Rhophylac), intramuscular or intravenous, **100 IU**.
3. The following deleted code cross-references should be corrected:  
C9351 See **J7347-J7349**  
J7319 See **J7321-J7324**  
Q4083 See **J7321**  
Q4084 See **J7322**  
Q4085 See **J7323**
4. The following modifiers are deleted:  
QA  
QR  
QV

We apologize for any inconvenience that this may have caused.
