

Work Group A

Sarah Corley, MD, FACP

Karen Kmetik, PhD

Work Group A Recommendations

- Overarching Recommendations
- Recommendations to Measure Developers
- Recommendations to EHR Vendors
- Recommendations to Physicians

Overarching Recommendations

- One set of performance measures
- One set of measure specifications
- Select preferred code sets
- Measure attribution
- Increase incentives

Recommendations to Measure Developers

- Consider feasibility of data capture
- Unambiguous specifications for extraction and reporting
- Exclusions
- Vendor lead time considerations
- Export in original code set

Recommendations to EHR Vendors

- Link measure to provider
- Provide a consolidated view
- Minimize need to customize
- Reduce need for dual documentation
- Incorporate data capture into workflow
- Collaborate with measure developers
- Supply pre-programmed reports
- Need “one click required” solutions

Recommendations to Physicians

- Become expert in your EHR's capabilities
- Proactively develop policies and procedures
- Reflect teamwork in workflow
- Be an active contributor in forums where your EHR vendor takes solicitations for feedback

Recommendations
