

2007 Recipients

Fund for Better Health

The **Fund for Better Health** provides seed grants for grassroots public health programs. Grants awarded in 2007 support programs that address three public health issues:

- Caring for the Uninsured/Underinsured
- Healthy Lifestyles
- Public and Patient Safety

The Foundation also awarded **Dolores Chandra Fund for Better Health Grants** to medical student and resident groups. Dolores Chandra passed away in 2005 and donations were accepted in her memory for this specific fund. She was recognized as a steadfast supporter of the medical community and held many leadership positions in the AMA Alliance and the AMA Foundation, including service on the national Boards of both organizations.
