

FIXING MEDICARE

CANCELED

US SENATE

DEPARTED

**With access to health care for seniors and military families hanging in the balance, what did the U.S. Senate do?**

**They took a vacation.**

That's right. The Senate left town without fixing a scheduled 21% cut to Medicare and TRICARE payments. A cut that threatens to deprive millions of seniors and military families access to the doctors they depend on.

**Call (888) 434-6200. Tell your Senators to get back to work and fix Medicare now.**

Our seniors and military families deserve better.
