The Honorable Tom Harkin  
Chairman  
Health, Education, Labor, and Pensions Committee  
428 Dirksen Senate Office Building  
Washington, DC 20510

The Honorable Michael Enzi  
Ranking Member  
Health, Education, Labor and Pensions Committee  
835 Hart Senate Office Building  
Washington, DC 20510

Dear Chairman Harkin and Senator Enzi:

On behalf of the physician and medical student members of the American Medical Association (AMA), I am writing in support of S. 958, the "Children's Hospital GME Support Reauthorization Act of 2011," which would reauthorize federal funding to support graduate medical education (GME) for freestanding children's hospitals.

Leading authorities agree that by 2025 the United States will face a shortage of physicians to meet the needs of our U.S. population. While demand for access to physician services will be increasing, physician shortfalls up to 130,000 across all specialties are predicted. Pediatric subspecialists who train at children's hospitals are among the more than 20 specialty groups already experiencing severe shortages.

Furthermore, the Balanced Budget Act of 1997 capped the number of resident physicians each teaching hospital could claim for reimbursement under Medicare. While new U.S. allopathic and osteopathic medical schools are opening and many medical schools are expanding enrollments, core GME training programs are experiencing minimal growth due to limited funding.

Several important workforce programs, including Title VII and the Children's Hospitals GME program, rely on appropriations to fund the training of physicians. This important legislation would authorize the necessary funding to support this vital training program for pediatricians and pediatric subspecialists in children's hospitals.

Thank you for your support of residency programs that are critical for addressing our nation's physician workforce shortages. We look forward to working with you and the sponsors of the bill to see this program reauthorized and fully funded.

Sincerely,

A handwritten signature in black ink that reads "Mike Maves". The signature is written in a cursive, flowing style.

Michael D. Maves, MD, MBA
