Council on Medical Service Reports

The Council on Medical Service studies and evaluates the social and economic aspects of health care; and, on behalf of the public and the profession, recommends relevant policy changes to improve health care delivery in a changing socioeconomic environment.

Consumer-driven health care

To advance policies that emphasize patient choice and control of their health care and their health insurance.

Read the reports.

Delivery reform

To advocate policies on emerging delivery systems that protect and foster the patient/physician relationship.

Read the reports.

Drug coverage & spending

To address high and escalating prescription drug prices and costs.

Read the reports.

E-health reports

To advance policies that incorporate and integrate telemedicine and digital health into physician practices.
