About the LGBTQ Advisory Committee

The Advisory Committee on Lesbian, Gay, Bisexual, Transgender and Queer Issues (LGBTQ) addresses many important issues of interest to LGBTQ medical students, resident and fellows, LGBTQ physicians, patients and our straight allies. The committee has commented on the World Medical Association’s proposed policy on transgender health, which was ultimately adopted, completing 12 years of leadership with the Commission to End Health Care Disparities.

AMA policies on LGBTQ issues

Sexual orientation and gender identity are integral aspects of our communities; the AMA policies on LGBTQ issues work to inform individuals about LGBTQ discrimination and abuse. AMA’s policies for lesbian, gay, bisexual and transgender people’s rights represent a multiplicity of identities and issues.

Review the policies

Find resources to create an LGBTQ-friendly medical practice

Create an environment in your practice that is inclusive for all patients. Access LGBTQ health-related articles, podcasts, handouts and presentations produced by the AMA and other leaders in the LGBTQ health field.

Resources include:

- Communicating with LGBTQ patients
- Understanding LGBTQ health issues
- Preventing suicide in LGBTQ youths
- Webinars on navigating the residency Match as an LGBTQ applicant and LGBTQ family-building
