Somatotropins

The following guidelines have been developed for somatotropin analogs:

The **som**- prefix is used for growth hormone derivatives, e.g.,

- somatropin for human growth hormone
- somatrem for methionyl human growth hormone

The **som**- prefix and the **-bove** suffix are required for bovine somatotropin derivates, e.g.,

- somidobove
- sometribove
- somagrebove

The **som**- prefix and the **-por** suffix are required for porcine somatotropin derivatives, e.g.,

- somalapor
- somenopor
- sometripor
- somfasepor
