10 most-viewed family medicine residency programs in 2021

This past year, FREIDA™ users have tallied more than 1,000,000 views of family medicine residency programs. In this list, we pare the list of 704 family medicine residencies down to the 10 programs that rose to the top for user interest.

Rankings are based on identified medical student activity on FREIDA™, the AMA Residency & Fellowship Database®, from Jan. 1-Dec. 31, 2021. FREIDA allows medical students to search for a residency or fellowship from more than 12,000 programs—all accredited by the Accreditation Council for Graduate Medical Education.

Specialty description

Family physicians are personal doctors for people of all ages and health conditions. They are a reliable first contact for health concerns and directly address most health care needs. Through enduring partnerships, family physicians help patients prevent, understand, and manage illness, navigate the health system and set health goals. Family physicians and their staff adapt their care to the unique needs of their patients and communities. They use data to monitor and manage their patient population and use best science to prioritize services most likely to benefit health. They are ideal leaders of health care systems and partners for public health.
