Family medicine programs with the most residency positions

FREIDA™ 2021 data

In 2021, FREIDA™ users tallied more than 8.5 million views of medical residency programs. With this list of family medicine residencies, we draw from the 5,199 first-year positions for family medicine and reveal which residency programs offer the most positions.

Rankings are based on FREIDA™ data updated from Jan. 1-Dec. 31, 2021. FREIDA™, the AMA Residency & Fellowship Database®, allows medical students to search for a residency or fellowship from more than 12,000 programs—all accredited by the Accreditation Council for Graduate Medical Education.

Specialty description

Family physicians are personal doctors for people of all ages and health conditions. They are a reliable first contact for health concerns and directly address most health care needs. Through enduring partnerships, family physicians help patients prevent, understand, and manage illness, navigate the health system and set health goals. Family physicians and their staff adapt their care to the unique needs of their patients and communities. They use data to monitor and manage their patient population and use best science to prioritize services most likely to benefit health. They are ideal leaders of health care systems and partners for public health.
