COVID-19: What Physicians Need to Know webinar series

About the COVID-19 webinar series

Hosted by AMA physician leaders, each installment of this webinar series aims to gain fact-based insights from the nation’s highest-ranking subject matter experts working to protect the health of the public, particularly during the COVID-19 pandemic.

Webinars

**Episode One: FDA review process for COVID-19 vaccine candidates**

AMA leaders and experts from the FDA provided a comprehensive overview of the COVID-19 vaccine and an inside look at the FDA development and approval process of a vaccine.

**Episode Two: CDC Update on COVID-19 vaccine development**

Learn more about the CDC’s role in vaccine review and immunization programs. The purpose of this discussion was to help physicians and the public have a better understanding of the vaccine development process, as well as allocation and distribution of a vaccine, or vaccines, when they become available.

**Episode Three: Project Firstline–CDC’s new national training collaborative for infection control**

Join Susan R. Bailey, MD, and Mike Bell, MD, deputy director of Division of Healthcare Quality Promotion, CDC, to kick off Project Firstline, CDC’s new national training collaborative for infection control.

Episode Four: What physicians need to know about vaccine development

Experts discuss the latest developments on the road to effective COVID-19 vaccines, including a deep dive into the Emergency Use Authorization (EUA) process, specifically how the timeline has been shortened from a matter of years to a matter of months.

Episode Five: Vaccine safety and delivery

The AMA welcomes back Peter Marks, MD, PhD, director of the Center for Biologics Evaluation and Research at the FDA, to discuss the road ahead now that COVID-19 vaccines are available.

Episode Six: Therapeutics for use in COVID-19

AMA President Susan R. Bailey, MD, welcomes three physician leaders from the FDA to discuss the state of therapeutic clinical trials for use in COVID-19 worldwide.

Episode Seven: Peter Marks, MD, PhD, discusses Johnson & Johnson COVID-19 vaccine pause

Peter Marks, MD, PhD, Director of the Center for Biologics Evaluation and Research at the Food and Drug Administration (FDA), joins AMA President Susan R. Bailey to discuss the most up-to-date vaccine information, including the recent paused distribution of the Johnson & Johnson vaccine.

Episode Eight: Vaccine misinformation

Physicians are facing a barrage of patient questions about the COVID-19 vaccine based on extensive rumors, misinformation and disinformation circulating amongst the American public. In the latest "What Physicians Need to Know" webinar, experts discuss vaccine misinformation.

Episode Nine: Booster shots and pediatric vaccines
Peter Marks, MD, PhD, director of the Center for Biologics Evaluation and Research at the Food and Drug Administration (FDA), joins Susan R. Bailey, MD, immediate past president of the AMA, to discuss data and recommendations for Pfizer, Moderna and Janssen booster shots, and the recent authorization of the Pfizer pediatric vaccine for 5- to 11-year-old children.

**Episode 10: Therapeutics and other treatment options**

Experts from the FDA will discuss what prescribers need to know about COVID-19 therapeutic drugs, Paxlovid and Molnupiravir.
