

OMSS June 2021 Meeting highlights

The Organized Medical Staff Section (OMSS) met virtually on Saturday, June 5.

Business of the meeting

The OMSS Assembly considered one resolution and conducted a thorough review of the items of business before the House of Delegates, prompting robust discussion on notable issues such as:

- Placing a moratorium on prior authorization requirements for prescription drugs
- Protecting hospitals and health records against ransomware attacks

Leadership

OMSS remembered Larry Monahan, MD, a longtime OMSS member and former governing council member who passed away from COVID. A memorial resolution in Dr. Monahan's honor has been transmitted to the AMA House of Delegates for consideration at the June 2021 Special Meeting.

The section also offers a special "thank you" to David Welsh, MD, who will roll of the governing council following this meeting. Thank you for your service!

Join OMSS

Membership in the OMSS is open to AMA members selected by their hospital or health system medical staffs to represent the interests and concerns of their medical staff peers at biannual OMSS meetings and to serve as liaisons between the OMSS and local medical staffs. Submit the OMSS representative certification form (PDF) to become an OMSS member.
