

## About the Private Practice Physicians Section (PPPS)

---

The Private Practice Physicians Section (PPPS) seeks to preserve the freedom, independence and integrity of private practice so that physicians who choose to practice in that setting can provide compassionate personal medical care for their patients.

### Membership

Membership in PPPS is open to any AMA member in a physician-owned private practice, which is defined as a practice comprising 50 or fewer physicians and in which those physicians, in the aggregate, own a controlling interest. Applications for membership are considered on a rolling basis.
