AMA Digital Health Research: 2022 Findings

Oct. 19, 2022, 10 a.m. CT

First launched in 2016, the AMA conducts a study of physicians’ motivations and requirements for the adoption of digital health solutions. Findings from the initial research indicated that physician requirements of these tools fall into 4 categories:

- Does it work?
- Will I receive payment?
- Will I be liable?
- Will it work in my practice?

To maintain a pulse on trends, the AMA regularly refreshes this study every three years and most recently fielded the survey in Q1 of 2022. The findings report of this study will be released in mid September. Join this session for an executive summary and walkthrough of this year’s key insights along with a longitudinal analysis of key changes in physician motivations and requirements for the adoption of digital clinical tools compared to prior years.

A live virtual discussion will be held on the AMA Physician Innovation Network simultaneously giving an opportunity for participants to connect with practices featured. Access the virtual discussion (login required).

Speakers
Clinical Case Study: Telehealth for Physical Medicine and Rehabilitation

Dec. 1, 2022, 3 p.m. CT

This interactive session is co-hosted with the American Academy of Physical Medicine and Rehabilitation (AAPM&R) and will showcase the current cutting-edge use of telehealth across physiatry as well as anticipated areas of opportunity and growth in telehealth in the future.

A live virtual discussion will be held on the AMA Physician Innovation Network simultaneously giving an opportunity for participants to connect with practices featured. Access the virtual discussion here (login required).

*The American Academy of Physical Medicine and Rehabilitation (AAPM&R) is a recognized AMA Telehealth Immersion Program Collaborator.

Panel Discussion: 2022 Telehealth Retrospective & 2023 Predictions

Dec. 8, 2022, 10 a.m. CT

Each year, Telehealth and Medicine Today reaches out to journal board members, annual ConV2X Symposium speakers, and ecosystem subject matter experts to share their views and perspectives for the near term in the telehealth and virtual care marketplace. In this live panel discussion, we invite several authors of the Telehealth and Medicine Today 2022 Market Predictions article, published on January 31, 2022, to take a retrospective look at what they predicted at the start of the year.

Participants will have the opportunity to hear from industry leaders a synopsis of telehealth and virtual care market trends that have occurred this past year and hear personal reflections on their short-term predictions. During this event, speakers will also share initial predictions of what's to come in 2023.
A live virtual discussion will be held on the AMA Physician Innovation Network simultaneously giving an opportunity for participants to connect with practices featured. Access the virtual discussion (login required).

Register now.

**Speakers**

- Marcus Osborne (moderator)
- Bradley J. Erickson, professor of radiology, Mayo Clinic College of Medicine and Science in Rochester, Minnesota, Mayo Clinic, USA

**Virtual Discussion: Telehealth Immersion Program Session Follow Up Q&A**

**Ongoing**

In follow up to the Telehealth Immersion Program live virtual events, we will be hosting an ongoing virtual discussion thread as a way for participants to continue the conversation with panelists.

To join the discussion, sign up free on the Physician Innovation Network and we invite you to post questions and comments in the discussion thread.
