Telehealth Immersion Program: 2021 events

Measuring the value of virtual care panel discussion

Description: The explosion of telehealth throughout the COVID-19 pandemic has exacerbated the need to assess the impact of telehealth to ensure continued access for patients and physicians. Join this virtual discussion to learn more about the AMA Return on Health (ROH) research, discuss the framework and how to use it and talk with experts from across the industry about how they are measuring the value of virtual care in their own environments.

Join the discussion on the Physician Innovation Network.

AMA Telehealth Immersion Program mini-boot camp event

In collaboration with Telehealth Awareness Week

Sept. 25, 2021, 10 a.m.–12:30 p.m. Eastern

Description: As part of the Telehealth Immersion Program, the AMA will host a mini-boot camp to wrap up the American Telemedicine Association (ATA) Telehealth Awareness Week and provide an opportunity for participants to do deep-dive break-out sessions across various medical specialties. This event is designed to engage various stakeholders to support long-term sustainable telehealth programs across the industry.

Register now.

Implementing innovation with an equity lens

Oct. 11, 8 a.m.–Oct. 20, 2021, 11:59 p.m. Central

Description: The past year has shed a light on the inequities across our health care systems and practices. Join this discussion to learn how practices are implementing new innovations and technology with an equity lens including emerging care models that are addressing health disparities,
increasing access and advancing equity. We will also examine what’s still needed to create more equitable innovation and care across the industry.

Join the discussion on the Physician Innovation Network.
