Telehealth Immersion Program: Past events

View the latest webinar videos and recordings in the AMA’s Telehealth Immersion Program, a new offering on optimizing and sustaining telehealth.

Introduction to the AMA Telehealth Immersion Program

May 11, 2021, 12–12:45 p.m. Eastern

Description: The AMA Telehealth Immersion Program is designed to support physicians, practices, and health systems in optimizing and sustaining successful telehealth programs.

Learn more about the program, what you can expect and how to get involved/participate.

Watch the recording and find more about the program.

Measuring the value of virtual care

May 25, 2021, 11 a.m.–Noon Eastern

Description: The explosion of telehealth throughout the COVID-19 pandemic has exacerbated the need to assess the impact of telehealth to ensure continued access for patients and physicians. Join this webinar session to learn more about the AMA Return on Health (ROH) research and framework for measuring the value of virtual care across various types of practices, payment models, virtual care modalities and clinical conditions.
