

Practice Transformation: Convene

By organizing virtual and in-person national conferences and events, the AMA brings together thought leaders and health systems for dialogue, consensus-building and collaborative sharing of best practices for improving physician professional satisfaction.

These immersive, educational opportunities are intended for physician and system leaders, practicing physicians and clinical staff, and academic researchers to assist in their transformation journey.

Innovation Academy

AMA STEPS Forward[®] Innovation Academy

The AMA STEPS Forward[®] Innovation Academy provides physicians, care teams and health care leaders time-saving practice innovation strategies that promote professional satisfaction, the efficient use of technology, practice sustainability and quality patient care.

Innovation Academy resources include webinars, bootcamps, and virtual panel sessions. Visit the Innovation Academy website to learn about upcoming events and access on-demand, open access content.

Conferences

International Conference on Physician Health

The biennial International Conference on Physician Health™, supported by the Canadian Medical Association, British Medical Association and American Medical Association, aims to support doctors and medical students to create better working environments for themselves and their colleagues. ICPH 2024 will be held in Canada.

American Conference on Physician Health

Oct. 11-13, 2023 | JW Marriott Desert Springs Resort & Spa—Desert Springs, California

The biennial American Conference on Physician Health is a joint scientific conference sponsored by Mayo Clinic, Stanford Medicine and the American Medical Association that promotes scientific research and discourse on health system infrastructure and actionable steps organizations can take to improve physician well-being.

Please email physicianhealth@ama-assn.org with questions about either of these conferences.
