

Racial and health equity: Concrete STEPS for health systems

Empowered Teams.
Actionable Tools.
Meaning in Medicine.

webinar series

On March 24, 2022, the AMA held a webinar in the AMA STEPS Forward® series: “Racial and Health Equity: Concrete STEPS for Health Systems.”

As the commitment to advance racial and health equity grows across many sectors, physicians in medium and large health systems may wonder how best to pursue these goals through their day-to-day work.

The new AMA STEPS Forward® toolkit “Racial and Health Equity: Concrete STEPS for Health Systems,” developed in collaboration with HealthBegins, helps motivated leaders build a shared understanding and commitment, set data-driven goals, and embark on a journey of continuous learning and improvement for racial justice and health equity.

Join toolkit co-authors Denard Cummings, AMA director of equitable health systems integration, and Rishi Manchanda, MD, MPH, president and CEO of HealthBegins, as they outline the five steps for advancing racial and health equity at your health care system in this AMA STEPS Forward® live webinar.
