Presenting scientific research

Presenting research at any stage of your career is vital to a physician’s development, and offers an opportunity to make a major impact.

Getting started, however, can be one of the more daunting aspects of pursuing a research project. Find the latest tips and advice about publishing medical research in residency with the AMA.

Establishing financial health

Residency is just the beginning. The salary you earn as a resident is a fraction of what your salary will be down the road. Still, your loans are due. Get advice on how to handle medical school student loan debt, manage personal finances and start your medical career on strong financial footing.
