AMA Private Practice Simple Solutions

Overview
The AMA Private Practice Simple Solutions are rapid learning cycles designed to provide opportunities to implement actionable changes that can immediately increase efficiency in private practices.

Each 8-week learning session will be focused on one topic area. Busy private practice physicians will be able to access pre-recorded content presented by subject matter experts at a pace and during a time that works best for them. Recordings will be released in week 1 and week 6.

Running concurrently to the releases of the pre-recorded webinars will be a discussion board, offering opportunities to interact with fellow cohort members and submit questions to the subject matter experts who oversee the sessions. Pre- and post-session surveys will measure the relevance of the topic, adoption of content and impact of the sessions. The surveys will also allow participants to suggest topics to be covered in future sessions.

Details for each session will be added as information becomes available.

**Session: E/M documentation**

Using the AMA STEPS Forward® E/M Documentation Burden Reduction Toolkit as a guide.

**Recording one: To be released July 7**

- Understand guidelines
- Engage key players
- Design workflows
- Educate physicians and staff
- Use new E/M codes

**Recording two: To be released Aug.16**

- Panel with subject matter expert on common obstacles identified in asynchronous discussion
- Presentation on two mini-case studies of successful implementation

**Asynchronous discussion (ongoing)**

**Session registration**

Register now for the July-August 2022 session.
