AMA Advocacy Insights webinar series: 2023 AMA advocacy agenda
Featured topic and speakers

In 2022, the AMA launched and made significant progress on our Recovery Plan for America’s Physicians—focused on fixing prior authorization, reforming Medicare payment, fighting scope creep, supporting telehealth and reducing physician burnout—but we’re not done yet. By building consensus, presenting evidence and mobilizing organized medicine, the AMA elevates physician voices to improve our nation’s health.

Get the latest on the AMA’s federal and state advocacy agenda for 2023 in this webinar, and hear about how the AMA is fighting for physicians and their patients.

Moderator

- Sandra Adamson Fryhofer, MD, chair, AMA Board of Trustees
