

Physician Re-entry Program Questionnaire Aggregate Data From Program Directors (N=6)+

Average Number of Physicians Who Inquired About Programs in 2008*	51
Average Number of Physicians Entering Programs in 2008*	13
Average Age of Program Participants	51 years
Minimum Cost to Complete Re-entry Program	\$6,000
Range of Time to Complete Re-entry Program	6 weeks – 12 months
Range of Reentering Physicians Who Successfully Completed Programs	54% - 100%
Programs With a Final Assessment	4
Number of Programs That Provide Remediation Services	6
Number of Programs That Provide Remediation Services Distinct from Re-entry Services	3

Major findings:

- **The majority of programs served a higher percentage of males than females.**
- **The majority of program participants had an active medical license.**

Source: Physician Re-entry Program Questionnaire (2009).

+The survey was sent to 10 directors of physician re-entry programs and of programs that provide physician re-entry services, but are not strictly re-entry programs. Six programs responded.

* 4 programs provided data for these questions.

Additional information on the findings from the Physician Re-entry Program Questionnaire is included in CME Report 1, I-09, [Physician Reentry to Practice: Data to Guide Program Development](#).
