

## AMA/Specialty Society Relative Value Update Committee (RUC)

### Final Vote Release – CPT 2018

[Every year, the RUC holds three meetings](#) to review CPT codes that are either new, revised or considered potentially misvalued by either the Centers for Medicare and Medicaid Services (CMS) or the RUC's own process of identification performed by the Relativity Assessment Workgroup (RAW). In April 2012, the RUC approved a measure to release the final total RUC voting counts for each code reviewed during the most recently completed cycle. The release of these voting records will occur each year following CMS publication.

For the CPT 2018 cycle, the RUC convened meetings on April 27-30, 2016, October 5-8, 2016 and January 11-14, 2017 and the Committee's final recommendations for each meeting are submitted approximately one month after the close of each meeting. For the CPT 2018 cycle, CMS will publish all the RUC recommendations for 2018 in the Medicare Payment Schedule Proposed Rule.

Further information about the RUC and its processes can be found at:

[www.ama-assn.org/about-us/ruc](http://www.ama-assn.org/about-us/ruc)

Below is a list of definitions and descriptions of RUC processes to help in the understanding the voting information published on the following pages:

- **CPT Code and Long Descriptor:** These first two columns simply state each individual CPT codes and Long Descriptor.
- **Pre-Facilitation (Yes/No):** Prior to each meeting, RUC members undergo a rigorous review of each CPT code's recommendation as submitted by the specialty society(ies). If significant concerns are raised by either the reviewing RUC members or the specialty society(ies) a request for pre-facilitation may occur. Pre-facilitation meetings are assigned to a specific subset of RUC members and Advisors called a facilitation committee (*described below*) and can occur either by phone or on site, prior to the presentation of the code(s) during the RUC meeting. During the pre-facilitation meetings, issues are discussed and the specialty society(ies) have the opportunity (but have no obligation) to revise their recommendations.
- **Specialty Work RVU modified prior to Presentation (Yes/No):** This field indicates whether or not the specialty society(ies) involved in surveying a specific code have revised their work RVU recommendation prior to presenting the code to the RUC. These modifications are typically made after review of pre-facilitation committee discussion (see above) or after consideration of RUC reviewer comments.
- **Specialty Work RVU passed by RUC (Yes/No):** This field indicates whether or not the initially presented work RVU recommendation, as presented to the RUC by the specialty society(ies), was approved.
- **Specialty Work RVU facilitated by RUC (Yes/No):** Each meeting, three facilitation committees are established. Each committee consists of a subset of RUC members, specialty society Advisors and a member of the non-MD/DO Health Care Professional Advisory Committee (HCPAC) who, when a code does not meet the required two-third vote for approval, meet with the appropriate specialty society(ies) to reach consensus on a revised work RVU and direct practice expense. At the conclusion of a facilitation committee meeting, a report is written providing a rationale for the

revised recommendations and the RUC again votes to either approve or disapprove these work RVU recommendations.

- **Specialty Work RVU modified by RUC (Yes/No):** This field indicates if, for any reason, the specialty society(ies) RVU recommendations from initial submissions were modified by the RUC. Modifications can happen for any number of reasons: 1) a pre-facilitation committee meeting could offer alternative suggestions that the specialties include; 2) comments made during the review process or at the table during the presentation of the code could result in modifications; 3) a facilitation committee meeting can reach consensus on revised work RVUs.
- **Final RUC Vote- work RVU:** This field indicates the final RUC vote total for each code. These vote totals represent the final RUC determinations on each code. CPT code RVU recommendations could have changed substantially from the original specialty societies' recommendation through any of the mechanisms laid out in the fields listed in the table and described above. [There are 28 voting members on the RUC](#). A vote total may not add up to 28 for two reasons: 1) a voting member can abstain and/or 2) a voting member may not be present at the table during the vote. The RUC requires that at least 2/3 of the member voting must approve the recommendation in order for it to be submitted to CMS. A quorum, consisting of 16 member of the RUC, must be present to conduct any business.
- **Final RUC Vote- Direct Practice Expense:** This field indicates the final RUC vote total for each code's direct practice expense inputs (clinical labor, supplies and equipment) as recommended by the Practice Expense (PE) Subcommittee. As with the work RVU recommendations, direct PE input recommendations could have changed substantially from the original specialty societies' recommendation. The PE subcommittee meets for a full day prior to the RUC proceeding and reviews specialty society submissions for direct PE inputs and makes recommendations directly to the RUC. Following each vote on work RVUs, the RUC holds a separate vote to accept the direct PE inputs as modified and/or approved by the PE Subcommittee. The same voting protocol for work RVUs apply to direct PE inputs.

| <b>RUC Vote Totals – CPT 2018 Summary<br/>(Physician Work ONLY)</b> |   |   |
|---|---|---|
| <b>Vote Total</b>   | <b>Number of Vote<br/>Total Instances</b> | <b>Percentage of<br/>Vote Total<br/>Instances</b> |
| <b>28-0</b>   | 111                                       | 44%   |
| <b>27-0*</b>  | 46  | 18%   |

| <b>26-1*</b>  | 10  | 4%  |
| <b>25-3</b>   | 3   | 1%  |
| <b>25-2*</b>  | 6   | 2%  |
| <b>24-4</b>   | 5   | 2%  |
| <b>24-3*</b>  | 4   | 2%  |
| <b>23-5</b>   | 4   | 2%  |
| <b>23-4*</b>  | 5   | 2%  |
| <b>22-6</b>   | 3   | 1%  |
| <b>22-5*</b>  | 6   | 2%  |
| <b>21-7</b>   | 3   | 1%  |
| <b>20-8</b>   | 2   | 1%  |
| <b>19-9</b>   | 2   | 1%  |
| <b>18-9*</b>  | 2   | 1%  |

**62% of all RUC  
Recommendations to CMS  
for CPT 2018 were based  
on unanimous votes of the  
Committee**

\*Represents vote totals in which a RUC member abstained from vote.

| 99483    | Cognitive assessment and care plan services are provided when a comprehensive evaluation of a new or existing patient exhibiting signs and/or symptoms of cognitive impairment is required to establish or confirm a diagnosis, etiology and severity for the condition. This service includes a thorough evaluation of medical and psychosocial factors potentially contributing to increased morbidity. Do not report Cognitive Assessment and Care Plan Services if any of the required elements are not performed or are deemed unnecessary for the patient's condition. For these services, see the appropriate evaluation and management code. A single physician or other qualified health care professional should not report 99XX3 more than once every 180 days. Services for Cognitive Assessment and Care Plan include a cognition-relevant history, as well as an assessment of factors that could be contributing to cognitive impairment, including, but not limited to, psychoactive medication, chronic pain syndromes, infection, depression and other brain disease (eg, tumor, stroke, normal pressure hydrocephalus). Medical decision making includes current and likely progression of the disease, assessing the need for referral for rehabilitative, social, legal, financial or community-based services, meal, transportation and other personal assistance services. 99XX3 Assessment of and care planning for the patient with cognitive impairment, requiring an independent historian, office or other outpatient, home or domiciliary or rest home, with |       |                  | No  | Yes  | No                                    | No                                 | 22-6                     | 27-1                            |
