WHO WE ARE
Founded in 1965, the John A. Burns School of Medicine (JABSOM) has kept its promise to develop a top-notch educational institution
In 2017, US News & World Report ranked JABSOM:
#23 for graduating the most Primary Care doctors in the nation
52% of our graduates go into Primary Care...
including Internal Medicine, Family Medicine and Pediatrics
Our school out-performs 90% of its peer medical schools in the percentage of students choosing Primary Care.
JABSOM strongly retains its graduates after training to practice in Hawai‘i.
We perform better than 75% of other medical schools in generating its state's own MD workforce.
JABSOM ranks #1 in the nation by the Association of American Medical Colleges in ...
retaining doctors who attend both JABSOM and UH Residency programs
Nearly 9 of 10 JABSOM students are Kamaʻaina...
We graduate more women MDs than most medical schools
Research at JABSOM attracts millions of dollars each year that flow into Hawaiʻi's economy
JABSOM is in the top 15% of medical schools whose graduates intend to care for underserved patients.
Nearly 1/2 of all practicing physicians in HI are graduates of JABSOM, its residency program or are faculty members.
More than 4,000 medical doctors have earned degrees or completed residency training through JABSOM.
1/3 of all babies born in HI are delivered by JABSOM faculty...
including high-risk births and infants of families in financial need
JABSOM and its Graduate Medical Education programs are accredited through 2025
Almost 80% of the “Top Doctors in Hawai’i” featured in Honolulu Magazine earned their medical degree or completed their residency at JABSOM...
Or currently serve as faculty
For the last 5 years, JABSOM has ranked #1 in NIH research awards among community-based public medical schools (public medical schools without a university hospital).
The JABSOM SimTiki patient simulation center is 1 of fewer than 25 simulation centers in the U.S. accredited for research, education and teaching.
