It is important to note that further CPT Editorial Panel (Panel) or Executive Committee actions may affect these codes and/or descriptors. For this reason, code numbers and/or descriptor language in the CPT code set may differ at the time of publication. In addition, further Panel actions may result in gaps in code number sequencing.

Most recent changes to the CPT Category III Short Descriptor document

- Addition of 4 new Category III codes, 0505T-0508T, accepted by the CPT Editorial Panel at the September 2017 meeting.
- Removal of code 0509T, which will not be effective until January 1, 2019. Early release of this code will be available on July 1, 2018.

The following Category III codes were accepted or revised at the September 2017 CPT Editorial Panel meeting for the 2019 CPT production cycle. However, due to Category III code’s early release policy, these codes are effective on July 1, 2018, following the six-month implementation period, which begins January 1, 2018.
