

Student/Resident/Fellow Medical Education National Advisory Panel Position(s)

The “Accelerating Change in Medical Education” initiative is approaching the end of its first five years. While taking time to celebrate our considerable achievements, we are also turning our attention to a new phase of work and our path forward. We are seeking active and thoughtful students, residents and fellows with specific interest in the transition from undergraduate medical education to graduate medical education to join us on a national advisory panel (NAP).

If selected to serve on the panel, you would help us shape a strategy for a new program that complements our current change initiative.

We envision this group meeting twice in Chicago sometime between May and November of this year. You may also be asked to participate in two to three additional conference calls before the year ends. Below are the application requirements:

- Curriculum Vitae (no more than 3 pages and must include):
 - Full Name
 - Residential address
 - Cell number
 - Office address (if applicable)
 - Email address
 - Medical school or Residency/Fellowship program
 - Specialty
 - Program
 - Medical school graduation date/Expected completion date of training
- A personal statement highlighting your interest in serving on and how your experiences would contribute to the panel (350 words or less)

Submit application to [Sarah Ayala](#) by Thursday, April 26. Please note this position is reserved for AMA members only.
