

Staff directory

The American Medical Association Advocacy Resource Center is the AMA's state legislative advocacy unit that works hand-in-hand with state and national medical specialty societies on state-level issues important to physicians and their patients. The center's attorneys provide model legislative language, technical analysis and represent the AMA before numerous national policy-making organizations.

Additional resources

Effective lobbying of national state policy-making organizations

Our work with state and national medical specialty societies, as well as national state policymaking organizations is critical to helping organized medicine approach state-level advocacy in a strategic and coordinated manner. Our attorneys work closely with many national organizations, including:

- Administrators in Medicine
- American Public Health Association
- American Society of Medical Association Counsel
- American Tort Reform Association
- Federation of State Medical Boards
- National Academy for State Health Policy
- National Association of Attorneys General
- National Association of Insurance Commissioners
- National Association of Medicaid Directors
- National Association of State Budget Officers
- National Conference of Insurance Legislators
- National Conference of State Legislatures
- National Governors Association
- PIAA

Access two new AMA resources to enhance your advocacy efforts

- **The AMA Health Workforce Mapper** empowers you to create visually persuasive stories that can help to ensure a healthy work force for our country's patients. ama-assn.org/go/healthworkforcemapper
- **The AMA Economic Impact Study** enables you to quantify physicians' hugely positive economic impact on our nation's economy to lawmakers, regulators and policymakers. ama-assn.org/go/eis
