

AMERICAN MEDICAL ASSOCIATION HOUSE OF DELEGATES

Resolution: 011
(I-19)

Introduced by: Michigan

Subject: End Child Marriage

Referred to: Reference Committee on Amendments to Constitution and Bylaws

1 Whereas, With the adoption of the Convention on the Rights of the Child, the United Nations
2 defined a child as any person younger than 18; this definition has since been used to establish
3 quantifiable targets for international development including child marriage; and
4

5 Whereas, The United States Global Strategy to Empower Adolescent Girls, released in 2016 by
6 the State Department, states that marriage before age 18 is a “human rights abuse” that
7 produces devastating effect on a girl’s life; and
8

9 Whereas, Between 2000 and 2010 more than 167,000 children across 38 states were married,
10 mostly to men 18 or older while the remaining twelve states and the District of Columbia did not
11 track this information; and
12

13 Whereas, Child marriage in the United States is associated with a 23 percent greater risk of
14 disease onset, including heart attack, diabetes, cancer, and stroke; and
15

16 Whereas, Child marriage is associated with higher rates of sexually transmitted infections, early
17 pregnancies, divorce, and intimate partner violence than women married at 21; and
18

19 Whereas, Mothers around the world who are under the age of 18 have a 35 percent to 55
20 percent higher risk of delivering a preterm or low-birthweight infant than mothers older than 19
21 years; and
22

23 Whereas, Child marriage in the United States has been associated with significantly increased
24 risk of almost all psychiatric disorders; approximately 35 percent of women who were married as
25 children presented with psychiatric disorders and 53 percent had a lifetime history of psychiatric
26 illnesses; and
27

28 Whereas, The majority of marriages among immigrant children occur after their arrival to the
29 United States with only a minority being wed outside of the country; and
30

31 Whereas, Statutory rape charges when young girls become pregnant may be avoided and have
32 been motivation to encourage marriage between the offender and the girl; and
33

34 Whereas, Delaware was the first state in the United States to ban child marriage with no
35 exception based on the consideration that children under 18 are unable to file for divorce or
36 seek shelter at a domestic violence shelter if needed; therefore be it

1 RESOLVED, That our American Medical Association oppose the practice of child marriage
2 (New HOD Policy); and be it further
3
4 RESOLVED, That our AMA advocate for the passage of state and federal legislation to end the
5 practice of child marriage. (Directive to Take Action)

Fiscal Note: Modest - between \$1,000 - \$5,000

Received: 10/03/19
