

# AMERICAN MEDICAL ASSOCIATION HOUSE OF DELEGATES (I-19)

## Report of Reference Committee K

Alyn Adrain, MD, Chair

---

1 Your reference committee recommends the following consent calendar for acceptance:  
2

### 3 **RECOMMENDED FOR ADOPTION**

- 4  
5 1. Council on Science and Public Health Report 2 – Real-World Data and Real-World  
6 Evidence in Medical Product Decision Making  
7 2. Council on Science and Public Health Report 3 – Patient Use of Non-FDA Approved  
8 Cannabis and Cannabinoid Products in Hospitals (Resolution 414-A-19)  
9 3. Resolution 912 – Improving Emergency Response Planning for Infectious Disease  
10 Outbreaks

### 11 12 **RECOMMENDED FOR ADOPTION AS AMENDED**

- 13  
14 4. Board of Trustees Report 12 – Distracted Driver Education and Advocacy  
15 5. Council on Science and Public Health Report 1 – Mandatory Reporting of Diseases  
16 and Conditions (Resolution 915-I-18)  
17 6. Resolution 902 – Amending H-490.913, Smoke-Free Environments and Workplaces,  
18 and H-409.907, Tobacco Smoke Exposure of Children in Multi-Unit Housing, to  
19 Include E-Cigarettes  
20 7. Resolution 903 – Encouraging the Development of Multi-Language, Culturally  
21 Informed Mobile Health Applications  
22 8. Resolution 904 – Amendment to H-150.949, Healthy Food Options in Hospitals  
23 9. Resolution 905 – Sunscreen Dispensers in Public Spaces as a Public Health  
24 Measure  
25 10. Resolution 906 – Ensuring the Best In-School Care for Children with Sickle Cell  
26 Disease  
27 11. Resolution 907 – Increasing Access to Gang-Related Laser Tattoo Removal in  
28 Prison and Community Settings  
29 12. Resolution 909 – Decreasing the Use of Oximetry Monitors for the Prevention of  
30 Sudden Infant Death Syndrome  
31 13. Resolution 914 – Nicotine Replacement Therapy for Minors  
32 14. Resolution 915 – Preventing Death and Disability Due to Particulate Matter Produced  
33 by Automobiles  
34 15. Resolution 916 – Sale of Tobacco in Retail Pharmacies  
35 16. Resolution 918 – Banning Flavors, Including Menthol and Mint, in Combustible and  
36 Electronic Cigarettes and Other Nicotine Products  
37 17. Resolution 923 – Support Availability of Public Transit System  
38 18. Resolution 934 – Gun Violence and Mental Illness Stigma in the Media  
39

### 40 **RECOMMENDED FOR ADOPTION IN LIEU OF**

- 41  
42 19. Resolution 901 – Health Impact of Per- and Polyfluoroalkyl Substances (PFAS)  
43 Contamination in Drinking Water

- 1 Resolution 922 – Understanding the Effects of PFAS on Human Health  
2 20. Resolution 910 – Ban on Electronic Nicotine Delivery System (ENDS) Products  
3 Resolution 925 – Suspending Sales of Vaping Products / Electronic Cigarettes Until  
4 FDA Review  
5 Resolution 935 – AMA Response to a National Vaping Epidemic  
6 21. Resolution 913 – Public Health Impacts and Unintended Consequences of  
7 Legalization and Decriminalization of Cannabis for Medicinal and Recreational Use  
8 Resolution 919 – Raising Awareness of the Health Impact of Cannabis  
9 22. Resolution 930 – Origin of Prescription Medication Production Transparency  
10 Resolution 932 – Source and Quality of Medications Critical to National Health and  
11 Security  
12

13 **RECOMMENDED FOR REFERRAL FOR DECISION**

- 14  
15 23. Resolution 926 – School Resource Officer Qualifications and Training  
16

17 **RECOMMENDED FOR NOT ADOPTION**

- 18  
19 24. Resolution 908 – Request for Benzodiazepine-Specific Prescribing Guidelines for  
20 Physicians  
21 25. Resolution 917 – Supporting Research into the Therapeutic Potential of  
22 Psychedelics  
23 Resolution 933 – Supporting Research into the Therapeutic Potential of  
24 Psychedelics  
25 26. Resolution 920 – Maintaining Public Focus on Leading Causes of Nicotine-Related  
26 Death  
27 27. Resolution 921 – Vaping in New York State and Nationally  
28 28. Resolution 924 – Update Scheduled Medication Classification  
29 29. Resolution 929 – Regulating Marketing and Distribution of Tobacco Products and  
30 Vaping-Related Products

Resolutions handled via the reaffirmation consent calendar:

- Resolution 911 – Basic Courses in Nutrition
- Resolution 927 – Climate Change
- Resolution 928 – CBD Oil and Supplement Use in Treatment
- Resolution 931 – Vaping Ban for Under 21 and Additional Regulations

## RECOMMENDED FOR ADOPTION

- 1 (1) COUNCIL ON SCIENCE AND PUBLIC HEALTH REPORT  
2 2 – REAL-WORLD DATA AND REAL-WORLD EVIDENCE  
3 IN MEDICAL PRODUCT DECISION MAKING  
4

5 **RECOMMENDATION:**  
6

7 **Recommendations in Council on Science and Public**  
8 **Health Report 2 be adopted and the remainder of the**  
9 **report be filed.**  
10

11 The Council on Science and Public Health recommends that the following be adopted and the  
12 remainder of the report be filed:  
13

- 14 1. Our AMA supports the generation and use of real-world data (RWD) and real-world  
15 evidence (RWE) fit for regulatory purpose to: (a) evaluate effectiveness and safety of  
16 medical products, while assuring patient privacy and confidentiality; (b) improve regulatory  
17 decision-making; (c) decrease medical product costs; (d) increase research efficiency; (e)  
18 advance innovative and new models of drug development; and (f) improve clinical care  
19 and patient outcomes. (New HOD Policy)  
20
- 21 2. Our AMA supports the aim of the U.S. Food and Drug Administration (FDA) to expand and  
22 clarify the use RWD and RWE in regulatory decision-making including in:  
23 a. understanding the potential of RWE to meet the established standards for  
24 adequate and well-controlled clinical investigations;  
25 b. pursuing the integration of RWE into medical product development and regulatory  
26 review; and  
27 c. utilizing RWE to support new indications for approved medical products, and its  
28 ability to satisfy post-approval study requirements. (New HOD Policy)  
29
- 30 3. Our AMA supports that there be adequate funding of data infrastructure to allow for  
31 transparent data management capabilities, improved access to data by clinicians,  
32 especially physicians, as well as researchers and other stakeholders, and improved  
33 reliability and relevance of data. (New HOD Policy)  
34
- 35 4. Our AMA supports cooperation and collaboration of stakeholders to facilitate the collection  
36 and use of RWD and RWE that is deemed fit for regulatory purpose. (New HOD Policy)  
37
- 38 5. Our AMA will evaluate and develop a response to the educational needs of physicians  
39 seeking to understand the use of fit for purpose RWD and RWE in clinical practice. (New  
40 HOD Policy)  
41
- 42 6. That Policy H-100.992, "FDA," be amended by addition to read as follows:  
43 H-100.992, "FDA"  
44 1. Our AMA reaffirms its support for the principles that: (a) an FDA decision to approve  
45 a new drug, to withdraw a drug's approval, or to change the indications for use of a  
46 drug must be based on sound scientific and medical evidence derived from controlled  
47 trials, real-world data (RWD) fit for regulatory purpose, and/or postmarket incident  
48 reports as provided by statute; (b) this evidence should be evaluated by the FDA, in

1 consultation with its Advisory Committees and expert extramural advisory bodies; and  
2 (c) any risk/benefit analysis or relative safety or efficacy judgments should not be  
3 grounds for limiting access to or indications for use of a drug unless the weight of the  
4 evidence from clinical trials, RWD fit for regulatory purpose, and postmarket reports  
5 shows that the drug is unsafe and/or ineffective for its labeled indications.

6 2. The AMA believes that social and economic concerns and disputes per se should not  
7 be permitted to play a significant part in the FDA's decision-making process in the  
8 course of FDA devising either general or product specific drug regulation.

9 3. It is the position of our AMA that the Food and Drug Administration should not permit  
10 political considerations or conflicts of interest to overrule scientific evidence in making  
11 policy decisions; and our AMA urges the current administration and all future  
12 administrations to consider our best and brightest scientists for positions on advisory  
13 committees and councils regardless of their political affiliation and voting history.  
14 (Modify Current HOD Policy)

15  
16 7. That Policy D-100.982, "Enhanced Physician Access to Food and Drug Administration  
17 Data," urging the FDA to apply new tools to gather data after drugs are approved for  
18 marketing, including a broader use of targeted post-approval studies, institution of active  
19 and sentinel event surveillance, and data mining of available drug utilization databases,  
20 be reaffirmed. (Reaffirm Current HOD Policy)

21  
22 8. That Policy H-110.986, "Incorporating Value into Pharmaceutical Pricing" supporting  
23 value-based pricing of pharmaceuticals that is evidence-based and the result of valid and  
24 reliable inputs and data that incorporate rigorous scientific methods, including clinical  
25 trials, clinical data registries, comparative effectiveness research, and robust outcome  
26 measures that capture short- and long-term clinical outcomes, be reaffirmed. (Reaffirm  
27 Current HOD Policy)

28  
29 9. That Policy H-406.987, "Medical Information and Its Uses," identifying three components  
30 of a data transparency framework, be reaffirmed. (Reaffirm Current HOD Policy)

31  
32 10. That Policy H-410.948, "Clinical Pathways," supporting the development of transparent,  
33 collaboratively constructed clinical pathways that are implemented in ways that promote  
34 administrative efficiencies for both providers and payers; promote access to evidence-  
35 based care for patients; recognize medical variability among patients and individual patient  
36 autonomy; promote access to clinical trials; and are continuously updated to reflect the  
37 rapid development of new scientific knowledge, be reaffirmed. (Reaffirm Current HOD  
38 Policy)

39  
40 11. That Policy H-450.933, "Clinical Data Registries," encouraging multi-stakeholder efforts to  
41 develop and fund clinical data registries to facilitate quality improvements and research  
42 that results in better health care, improved population health, and lower costs be  
43 reaffirmed. (Reaffirm Current HOD Policy)

44  
45 12. That Policy D-460.970, "Access to Clinical Trial Data," urging the FDA to investigate and  
46 develop means by which scientific investigators can access original source safety data  
47 from industry-sponsored trials upon request; be reaffirmed. (Reaffirm Current HOD Policy)

48  
49 Your Reference Committee heard testimony in strong support of the recommendations  
50 provided by the Council. Several commenters praised the clarity the report provided on the  
51 issues associated with the use of real-world data and evidence. An amendment was offered

1 to ensure that real-world data and evidence not be used to support pseudo-science. Your  
2 Reference Committee felt that this was addressed by the language noted in the report, that  
3 real-world data be “fit for regulatory purpose.” Therefore, your Reference Committee  
4 recommends that Council on Science and Public Health Report 2 be adopted.

5  
6 (2) COUNCIL ON SCIENCE AND PUBLIC HEALTH REPORT  
7 3 – PATIENT USE OF NON-FDA APPROVED CANNABIS  
8 AND CANNABINOID PRODUCTS IN HOSPITALS  
9 (RESOLUTION 414-A-19)

10  
11 **RECOMMENDATION:**

12  
13 **Recommendation in Council on Science and Public**  
14 **Health Report 3 be adopted and the remainder of the**  
15 **report be filed.**

16  
17 The Council recommends that the following recommendation be adopted in lieu of Resolution  
18 414-A-19, and the remainder of the report be filed.

19  
20 The AMA encourages hospitals and health systems to: (1) engage stakeholders, including,  
21 but not limited to physicians, nurses, pharmacists, legal counsel, experts in controlled  
22 substance diversion prevention, as well as relevant state and federal agencies in developing  
23 policies for addressing patient use of non-FDA approved cannabis or cannabis-derived  
24 products for use within their facilities and (2) communicate their policy on patient use of non-  
25 FDA approved cannabis or cannabis-derived products within their facilities, to ensure  
26 clinicians are prepared to treat patients in accordance with policy. (New HOD Policy)

27  
28 Your Reference Committee heard mostly supportive testimony on Council on Science and  
29 Public Health Report 3. Several who testified believed that the Council on Science and Public  
30 Health’s recommendations encouraging a broad group of stakeholders to work together to  
31 develop hospital facility policies on cannabis, were reasonable. Others noted that they were  
32 hoping for more specific guidance on the use of cannabis and cannabinoids by patients in the  
33 hospital setting. There were others who spoke against allowing the use of non-FDA approved  
34 cannabis products in hospitals. Several amendments were offered, including the addition of  
35 the term “cannabinoids.” Since cannabis-derived products encompasses cannabinoids, the  
36 language as proposed is appropriate. It should be noted that the AMA will be developing a  
37 continuing education module on cannabis in 2020 to provide physicians with additional  
38 guidance on this topic. Your Reference Committee agrees with the Council on Science and  
39 Public Health’s approach to addressing this complex issue and recommends adoption of the  
40 report’s recommendations.

1 (3) RESOLUTION 912 – IMPROVING EMERGENCY  
2 RESPONSE PLANNING FOR INFECTIOUS DISEASE  
3 OUTBREAKS  
4

5 **RECOMMENDATION:**  
6

7 **Resolution 912 be adopted.**  
8

9 RESOLVED, That our AMA support flexible funding in public health for unexpected infectious  
10 disease to improve timely response to emerging outbreaks and build public health  
11 infrastructure at the local level with attention to medically underserved areas (Directive to Take  
12 Action); and be it further  
13

14 RESOLVED, That our AMA encourage health departments to develop public health  
15 messaging to provide education on unexpected infectious disease. (Directive to Take Action)  
16

17 Your Reference Committee heard testimony in strong support of this Resolution. Given the  
18 potential for the emergence of unexpected infectious disease threats and need for public  
19 health surveillance and funding to address these threats, your Reference Committee  
20 recommends that Resolution 912 be adopted.

**RECOMMENDED FOR ADOPTION AS AMENDED**

- 1  
2  
3 (4) BOARD OF TRUSTEES REPORT 12 – DISTRACTED  
4 DRIVER EDUCATION AND ADVOCACY

5  
6 **RECOMMENDATION A**

7  
8 **Board of Trustees Report 12 be amended by the**  
9 **addition of a recommendation to read as follows:**

10  
11 **Policies H-15.952 and D-15.993 be reaffirmed.**

12  
13 **RECOMMENDATION B:**

14  
15 **Recommendation in Board of Trustees Report 12 be**  
16 **adopted as amended and the remainder of the report be**  
17 **filed.**

18  
19 **Informational Report, no recommendation provided.**

20  
21 Your Reference Committee heard limited, but supportive testimony on the need for AMA  
22 action to address distracted driving as directed by the House of Delegates at the A-20  
23 meeting. While we understand that AMA staff have reached out to the Centers for Disease  
24 Control and Prevention, Division of Transportation Safety to discuss opportunities for  
25 collaboration, we are reaffirming this directive to urge action on this important issue.

26  
27 H-15.952, “The Dangers of Distraction While Operating Hand-Held Devices”

28 1. Our American Medical Association encourages physicians to educate their patients  
29 regarding the public health risks of text messaging while operating motor vehicles or  
30 machinery and will advocate for state legislation prohibiting the use of hand held  
31 communication devices to text message while operating motor vehicles or machinery.  
32 2. Our AMA will endorse legislation that would ban the use of hand-held devices while  
33 driving. 3. Our AMA: (a) recognizes distracted walking as a preventable hazard and  
34 encourages awareness of the hazard by physicians and the public; and (b) encourages  
35 research into the severity of distracted walking as a public health hazard as well as  
36 ways in which to prevent it. 4. Our AMA supports public education efforts regarding  
37 the dangers of distracted driving, particularly activities that take drivers' eyes off the  
38 road, and that the use of earbuds or headphones while driving is dangerous and illegal  
39 in some states. 5. Our AMA: (a) supports education on the use of earbuds or  
40 headphones in both ears during outdoor activities requiring auditory attention,  
41 including but not limited to biking, jogging, rollerblading, skateboarding and walking;  
42 and (b) supports the use of warning labels on the packaging of hand-held devices  
43 utilized with earbuds or headphones, indicating the dangers of using earbuds or  
44 headphones in both ears during outdoor activities requiring auditory attention,  
45 including but not limited to biking, jogging, rollerblading, skateboarding and walking. 6.  
46 Our AMA will: (a) make it a priority to create a national education and advocacy  
47 campaign on distracted driving in collaboration with the Centers for Disease Control  
48 and Prevention and other interested stakeholders; and (b) explore developing an  
49 advertising campaign on distracted driving with report back to the House of Delegates  
50 at the 2019 Interim Meeting. Res. 217, I-08Appended: Res. 905, I-09Appended: BOT

1 Rep. 10, A-13Appended: Res. 416, A-13Modified in lieu of Res. 414, A-15Appended:  
2 Res. 425, A-19.

3  
4 D-15.993, "Distracted Driver Reduction"

5 1. Our AMA will develop model state legislation to limit cell phone use to hands-free  
6 use only while driving. 2. Our AMA will actively lobby for: (a) legislation to decrease  
7 distracted driving injuries and fatalities by banning the use of electronic communication  
8 such as texting, taking photos or video and posting on social media while operating a  
9 motor vehicle; and (b) federal legislation to require automobile manufacturers to  
10 integrate hands-free technology into new automobiles. Res. 220, I-16 Appended: Res.  
11 415, A-19.

- 12  
13 (5) COUNCIL ON SCIENCE AND PUBLIC HEALTH REPORT  
14 1 – MANDATORY REPORTING OF DISEASES AND  
15 CONDITIONS (RESOLUTION 915-I-18)

16  
17 **RECOMMENDATION A:**

18  
19 **The recommendation in Council on Science and Public**  
20 **Health Report 1 be amended by addition to read as**  
21 **follows:**

22  
23 **Public Health Surveillance**

24 **That our AMA: (1) recognizes public health surveillance**  
25 **as a core public health function that is essential to**  
26 **inform decision making, identify underlying causes and**  
27 **etiologies, and respond to acute, chronic, and emerging**  
28 **health threats; (2) recognizes the important role that**  
29 **physicians play in public health surveillance through**  
30 **reporting diseases and conditions to public health**  
31 **authorities; (3) encourages state legislatures to engage**  
32 **relevant state and national medical specialty societies**  
33 **as well as public health agencies when proposing**  
34 **mandatory reporting requirements to ensure they are**  
35 **based on scientific evidence and meet the needs of**  
36 **population health; (4) recognizes the need for increased**  
37 **federal, state, and local funding to modernize our**  
38 **nation's public health data systems to improve the**  
39 **quality and timeliness of data; (5) supports electronic**  
40 **case reporting, which alleviates the burden of case**  
41 **reporting on physicians through the automatic**  
42 **generation and transmission of case reports from**  
43 **electronic health records to public health agencies for**  
44 **review and action in accordance with applicable health**  
45 **care privacy and public health reporting laws; (6) will**  
46 **share updates with physicians and medical societies on**  
47 **public health surveillance and the progress made**  
48 **toward implementing electronic case reporting. (New**  
49 **HOD Policy)**

1           **RECOMMENDATION B:**

2  
3           **The recommendation in Council on Science and Public**  
4           **Health Report 1 be adopted as amended and the**  
5           **remainder of the report be filed.**  
6

7           The Council recommends that the following recommendation for new policy be adopted in lieu  
8           of Resolution 915-I-18, and the remainder of the report be filed.

9  
10          Public Health Surveillance

11          That our AMA: (1) recognizes public health surveillance as a core public health function that  
12          is essential to inform decision making, identify underlying causes and etiologies, and respond  
13          to acute, chronic, and emerging health threats; (2) recognizes the important role that  
14          physicians play in public health surveillance through reporting diseases and conditions to  
15          public health authorities; (3) encourages state legislatures to engage relevant state and  
16          national medical specialty societies as well as public health agencies when proposing  
17          mandatory reporting requirements to ensure they are based on scientific evidence and meet  
18          the needs of population health; (4) recognizes the need for increased federal funding to  
19          modernize our nation's public health data systems to improve the quality and timeliness of  
20          data; (5) supports electronic case reporting, which alleviates the burden of case reporting on  
21          physicians through the automatic generation and transmission of case reports from electronic  
22          health records to public health agencies for review and action in accordance with applicable  
23          health care privacy and public health reporting laws; (6) will share updates with physicians  
24          and medical societies on public health surveillance and the progress made toward  
25          implementing electronic case reporting. (New HOD Policy)

26  
27          The Council was commended for its report on mandatory reporting of diseases and conditions.  
28          There was strong support for the report's recommendations, which address the importance of  
29          public health surveillance as well as the progress being made through electronic case  
30          reporting to alleviate the burden that reporting can place on physicians. The recommendations  
31          note that state legislatures, when considering reporting requirements, should consult with  
32          relevant medical societies and public health agencies. This allows the opportunity for relevant  
33          stakeholders to provide input and address concerns. While an amendment was proffered to  
34          add federal to this clause, mandatory reporting requirements are made at the state level.  
35          Therefore, your Reference Committee did not feel that this amendment was appropriate. Your  
36          Reference Committee supported the addition of language to address the need for state and  
37          local funding. Therefore, your Reference Committee recommends that Council on Science  
38          and Public Health Report 1 be adopted as amended.

1 (6) RESOLUTION 902 – AMENDING H-490.913, SMOKE-  
2 FREE ENVIRONMENTS AND WORKPLACES, AND H-  
3 409.907, TOBACCO SMOKE EXPOSURE OF CHILDREN  
4 IN MULTI-UNIT HOUSING, TO INCLUDE E-CIGARETTES  
5

6 **RECOMMENDATION A:**  
7

8 **The first Resolve of Resolution 902 be amended by**  
9 **addition and deletion to read as follows:**

10  
11 **H-490.913, “Smoke-Free and Vape-Free Environments**  
12 **and Workplaces”**

13 **On the issue of the health effects of environmental**  
14 **tobacco smoke (ETS), and passive smoke, and vape**  
15 **aerosol exposure in the workplace and other public**  
16 **facilities, our AMA: (1)(a) supports classification of ETS**  
17 **as a known human carcinogen; (b) concludes that**  
18 **passive smoke exposure is associated with increased**  
19 **risk of sudden infant death syndrome and of**  
20 **cardiovascular disease; (c) encourages physicians and**  
21 **medical societies to take a leadership role in defending**  
22 **the health of the public from ETS risks and from**  
23 **political assaults by the tobacco industry; and (d)**  
24 **encourages the concept of establishing smoke-free and**  
25 **vape-free campuses for business, labor, education, and**  
26 **government; (2) (a) honors companies and**  
27 **governmental workplaces that go smoke-free and vape-**  
28 **free; (b) will petition the Occupational Safety and Health**  
29 **Administration (OSHA) to adopt regulations prohibiting**  
30 **smoking and vaping in the workplace, and will use**  
31 **active political means to encourage the Secretary of**  
32 **Labor to swiftly promulgate an OSHA standard to**  
33 **protect American workers from the toxic effects of ETS**  
34 **in the workplace, preferably by banning smoking and**  
35 **vaping in the workplace; (c) encourages state medical**  
36 **societies (in collaboration with other anti-tobacco**  
37 **organizations) to support the introduction of local and**  
38 **state legislation that prohibits smoking and vaping**  
39 **around the public entrances to buildings and in all**  
40 **indoor public places, restaurants, bars, and**  
41 **workplaces; and (d) will update draft model state**  
42 **legislation to prohibit smoking and vaping in public**  
43 **places and businesses, which would include language**  
44 **that would prohibit preemption of stronger local laws.**  
45 **(3) (a) encourages state medical societies to: (i) support**  
46 **legislation for states and counties mandating smoke-**  
47 **free and vape-free schools and eliminating smoking**  
48 **and vaping in public places and businesses and on any**  
49 **public transportation; (ii) enlist the aid of county**  
50 **medical societies in local anti-smoking and anti-vaping**  
51 **campaigns; and (iii) through an advisory to state,**

1 county, and local medical societies, urge county  
2 medical societies to join or to increase their  
3 commitment to local and state anti-smoking and anti-  
4 vaping coalitions and to reach out to local chapters of  
5 national voluntary health agencies to participate in the  
6 promotion of anti-smoking and anti-vaping control  
7 measures; (b) urges all restaurants, particularly fast  
8 food restaurants, and convenience stores to  
9 immediately create a smoke-free and vape-free  
10 environment; (c) strongly encourages the owners of  
11 family-oriented theme parks to make their parks smoke-  
12 free and vape-free for the greater enjoyment of all  
13 guests and to further promote their commitment to a  
14 happy, healthy life style for children; (d) encourages  
15 state or local legislation or regulations that prohibit  
16 smoking and vaping in stadia and encourages other ball  
17 clubs to follow the example of banning smoking in the  
18 interest of the health and comfort of baseball fans as  
19 implemented by the owner and management of the  
20 Oakland Athletics and others; (e) urges eliminating  
21 cigarette, pipe, and cigar, ~~and e-cigarette~~ smoking and  
22 vaping in any indoor area where children live or play, or  
23 where another person's health could be adversely  
24 affected through passive smoking inhalation; (f) urges  
25 state and county medical societies and local health  
26 professionals to be especially prepared to alert  
27 communities to the possible role of the tobacco  
28 industry whenever a petition to suspend a nonsmoking  
29 or non-vaping ordinance is introduced and to become  
30 directly involved in community tobacco control  
31 activities; and (g) will report annually to its membership  
32 about significant anti-smoking and anti-vaping efforts  
33 in the prohibition of smoking and vaping in open and  
34 closed stadia; (4) calls on corporate headquarters of  
35 fast-food franchisers to require that one of the  
36 standards of operation of such franchises be a no  
37 smoking and no vaping policy for such restaurants, and  
38 endorses the passage of laws, ordinances and  
39 regulations that prohibit smoking and vaping in fast-  
40 food restaurants and other entertainment and food  
41 outlets that target children in their marketing efforts; (5)  
42 advocates that all American hospitals ban tobacco and  
43 supports working toward legislation and policies to  
44 promote a ban on smoking, vaping, and use of tobacco  
45 products in, or on the campuses of, hospitals, health  
46 care institutions, retail health clinics, and educational  
47 institutions, including medical schools; (6) will work  
48 with the Department of Defense to explore ways to  
49 encourage a smoke-free and vape-free environment in  
50 the military through the use of mechanisms such as  
51 health education, smoking and vaping cessation

1 programs, and the elimination of discounted prices for  
2 tobacco products in military resale facilities; and (7)  
3 encourages and supports local and state medical  
4 societies and tobacco control coalitions to work with (a)  
5 Native American casino and tribal leadership to  
6 voluntarily prohibit smoking and vaping in their  
7 casinos; and (b) legislators and the gaming industry to  
8 support the prohibition of smoking and vaping in all  
9 casinos and gaming venues.

10  
11 **RECOMMENDATION B:**

12  
13 **The second Resolve of Resolution 902 be amended by**  
14 **addition and deletion to read as follows:**

15  
16 **H-490.907, “Tobacco Smoke and Vaping Aerosol**  
17 **Exposure Of Children In Multi-Unit Housing”**

18 **Our AMA: (1) encourages federal, state and local**  
19 **housing authorities and governments to adopt policies**  
20 **that protect children and non-smoking or non-vaping**  
21 **adults from tobacco smoke and vaping aerosol**  
22 **exposure by prohibiting smoking and vaping in multi-**  
23 **unit housing; and (2) encourages state and local**  
24 **medical societies, chapters, and other health**  
25 **organizations to support and advocate for changes in**  
26 **existing state and local laws and policies that protect**  
27 **children and non-smoking or non-vaping adults from**  
28 **tobacco smoke and vaping aerosol exposure by**  
29 **prohibiting smoking and vaping in multi-unit housing.**  
30 **(Modify Current HOD Policy)**

31  
32 **RECOMMENDATION C:**

33  
34 **Resolution 902 be adopted as amended.**

35  
36 **RESOLVED, That our American Medical Association (AMA) amend policy H-490.913,**  
37 **“Smoke-Free Environments and Workplaces,” by addition and deletion to read as follows:**

38  
39 **H-490.913, “Smoke-Free and Vape-Free Environments and Workplaces”**

40 **On the issue of the health effects of environmental tobacco smoke (ETS), and passive**  
41 **smoke, and vape exposure in the workplace and other public facilities, our AMA: (1)(a)**  
42 **supports classification of ETS as a known human carcinogen; (b) concludes that**  
43 **passive smoke exposure is associated with increased risk of sudden infant death**  
44 **syndrome and of cardiovascular disease; (c) encourages physicians and medical**  
45 **societies to take a leadership role in defending the health of the public from ETS risks**  
46 **and from political assaults by the tobacco industry; and (d) encourages the concept of**  
47 **establishing smoke-free and vape-free campuses for business, labor, education, and**  
48 **government; (2) (a) honors companies and governmental workplaces that go smoke-**  
49 **free and vape-free; (b) will petition the Occupational Safety and Health Administration**  
50 **(OSHA) to adopt regulations prohibiting smoking and vaping in the workplace, and will**  
51 **use active political means to encourage the Secretary of Labor to swiftly promulgate**

1 an OSHA standard to protect American workers from the toxic effects of ETS in the  
2 workplace, preferably by banning smoking and vaping in the workplace; (c)  
3 encourages state medical societies (in collaboration with other anti-tobacco  
4 organizations) to support the introduction of local and state legislation that prohibits  
5 smoking and vaping around the public entrances to buildings and in all indoor public  
6 places, restaurants, bars, and workplaces; and (d) will update draft model state  
7 legislation to prohibit smoking and vaping in public places and businesses, which  
8 would include language that would prohibit preemption of stronger local laws. (3) (a)  
9 encourages state medical societies to: (i) support legislation for states and counties  
10 mandating smoke-free and vape-free schools and eliminating smoking and vaping in  
11 public places and businesses and on any public transportation; (ii) enlist the aid of  
12 county medical societies in local anti-smoking and anti-vaping campaigns; and (iii)  
13 through an advisory to state, county, and local medical societies, urge county medical  
14 societies to join or to increase their commitment to local and state anti-smoking and  
15 anti-vaping coalitions and to reach out to local chapters of national voluntary health  
16 agencies to participate in the promotion of anti-smoking and anti-vaping control  
17 measures; (b) urges all restaurants, particularly fast food restaurants, and  
18 convenience stores to immediately create a smoke-free and vape-free environment;  
19 (c) strongly encourages the owners of family-oriented theme parks to make their parks  
20 smoke-free and vape-free for the greater enjoyment of all guests and to further  
21 promote their commitment to a happy, healthy life style for children; (d) encourages  
22 state or local legislation or regulations that prohibit smoking and vaping in stadia and  
23 encourages other ball clubs to follow the example of banning smoking in the interest  
24 of the health and comfort of baseball fans as implemented by the owner and  
25 management of the Oakland Athletics and others; (e) urges eliminating cigarette, pipe,  
26 cigar, and e-cigarette smoking in any indoor area where children live or play, or where  
27 another person's health could be adversely affected through passive smoking  
28 inhalation; (f) urges state and county medical societies and local health professionals  
29 to be especially prepared to alert communities to the possible role of the tobacco  
30 industry whenever a petition to suspend a nonsmoking or non-vaping ordinance is  
31 introduced and to become directly involved in community tobacco control activities;  
32 and (g) will report annually to its membership about significant anti-smoking and anti-  
33 vaping efforts in the prohibition of smoking and vaping in open and closed stadia; (4)  
34 calls on corporate headquarters of fast-food franchisers to require that one of the  
35 standards of operation of such franchises be a no smoking and no vaping policy for  
36 such restaurants, and endorses the passage of laws, ordinances and regulations that  
37 prohibit smoking and vaping in fast-food restaurants and other entertainment and food  
38 outlets that target children in their marketing efforts; (5) advocates that all American  
39 hospitals ban tobacco and supports working toward legislation and policies to promote  
40 a ban on smoking, vaping, and use of tobacco products in, or on the campuses of,  
41 hospitals, health care institutions, retail health clinics, and educational institutions,  
42 including medical schools; (6) will work with the Department of Defense to explore  
43 ways to encourage a smoke-free and vape-free environment in the military through  
44 the use of mechanisms such as health education, smoking and vaping cessation  
45 programs, and the elimination of discounted prices for tobacco products in military  
46 resale facilities; and (7) encourages and supports local and state medical societies  
47 and tobacco control coalitions to work with (a) Native American casino and tribal  
48 leadership to voluntarily prohibit smoking and vaping in their casinos; and (b)  
49 legislators and the gaming industry to support the prohibition of smoking and vaping  
50 in all casinos and gaming venues.

1 RESOLVED, That our AMA amend Policy H-490.907, “Tobacco Smoke Exposure of Children  
2 in Multi-Unit Housing, to include e-cigarettes and vaping by addition to read as follows:  
3

4 H-490.907, “Tobacco Smoke and Vaping Exposure Of Children In Multi-Unit Housing”  
5 Our AMA: (1) encourages federal, state and local housing authorities and  
6 governments to adopt policies that protect children and non-smoking or non-vaping  
7 adults from tobacco smoke and vaping exposure by prohibiting smoking and vaping in  
8 multi-unit housing; and (2) encourages state and local medical societies, chapters, and  
9 other health organizations to support and advocate for changes in existing state and  
10 local laws and policies that protect children and non-smoking or non-vaping adults  
11 from tobacco smoke and vaping exposure by prohibiting smoking and vaping in multi-  
12 unit housing. (Modify Current HOD Policy)  
13

14 Your Reference Committee heard testimony in strong support of this Resolution. Your  
15 Reference Committee made minor amendments to the language to clarify the appropriate  
16 terminology regarding exposure to vaping is “vaping aerosol exposure” not “vape exposure.”  
17 Therefore, your Reference Committee recommends that Resolution 902 be adopted as  
18 amended.  
19

20 (7) RESOLUTION 903 – ENCOURAGING THE  
21 DEVELOPMENT OF MULTI-LANGUAGE, CULTURALLY  
22 INFORMED MOBILE HEALTH APPLICATIONS  
23

24 **RECOMMENDATION A:**

25  
26 **Resolution 903 be amended by addition and deletion to**  
27 **read as follows:**  
28

29 **8. Our AMA encourages the development of mobile**  
30 **health applications that employ linguistically**  
31 **appropriate and culturally informed health content**  
32 **~~catered~~ tailored to linguistically and/or culturally**  
33 **diverse backgrounds, with emphasis on underserved**  
34 **and low-income populations.** (Modify Current HOD  
35 Policy)  
36

37 **RECOMMENDATION B:**

38  
39 **Resolution 903 be adopted as amended.**  
40

41 RESOLVED, That American Medical Association policy D-480.972 be amended by insertion  
42 as follows:

43 D-480.972, “Guidelines for Mobile Medical Applications and Devices”

- 44 1. Our AMA will monitor market developments in mobile health (mHealth), including  
45 the development and uptake of mHealth apps, in order to identify developing  
46 consensus that provides opportunities for AMA involvement.
- 47 2. Our AMA will continue to engage with stakeholders to identify relevant guiding  
48 principles to promote a vibrant, useful and trustworthy mHealth market.
- 49 3. Our AMA will make an effort to educate physicians on mHealth apps that can be  
50 used to facilitate patient communication, advice, and clinical decision support, as

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25  
26  
27  
28

- well as resources that can assist physicians in becoming familiar with mHealth apps that are clinically useful and evidence-based.
4. Our AMA will develop and publicly disseminate a list of best practices guiding the development and use of mobile medical applications.
  5. Our AMA encourages further research integrating mobile devices into clinical care, particularly to address challenges of reducing work burden while maintaining clinical autonomy for residents and fellows.
  6. Our AMA will collaborate with the Liaison Committee on Medical Education and Accreditation Council for Graduate Medical Education to develop germane policies, especially with consideration of potential financial burden and personal privacy of trainees, to ensure more uniform regulation for use of mobile devices in medical education and clinical training.
  7. Our AMA encourages medical schools and residency programs to educate all trainees on proper hygiene and professional guidelines for using personal mobile devices in clinical environments.
  8. Our AMA encourages the development of mobile health applications that employ linguistically appropriate and culturally informed content catered to underserved and low-income populations. (Modify Current HOD Policy)

Your Reference Committee heard supportive testimony, including from your Council on Science and Public Health, related to this Resolution. Testimony noted that the importance of ensuring health equity as innovations via mobile health are introduced. Linguistically and culturally informed versions of mobile health applications were strongly supported as one mechanism to help ensure that these tools do not introduce further health inequities. Additional testimony noted the importance of considering linguistic and diverse backgrounds as well as underserved and low-income populations and your Reference Committee agrees. Therefore, your Reference Committee recommends that Resolution 903 be adopted as amended.

1 (8) RESOLUTION 904 – AMENDMENT TO H-150.949,  
2 HEALTHY FOOD OPTIONS IN HOSPITALS  
3

4 **RECOMMENDATION A:**

5  
6 **Resolution 904 be amended by addition and deletion to**  
7 **read as follows.**  
8

9 **RESOLVED, That our American Medical Association**  
10 **encourage the availability of healthy, plant-based**  
11 **options at Medical Care Facilities by amending H-**  
12 **150.949, Healthy Food Options in Hospitals to read as**  
13 **follows:**  
14

15 **Healthyful Food Options in Hospitals ~~Medical Health~~**  
16 **Care Facilities, H-150.949**

- 17 1. **Our AMA encourages healthyful food options be**  
18 **available, at reasonable prices and easily**  
19 **accessible, on ~~hospital~~ the premises of**  
20 **Medical Health Care Facilities.**  
21 2. **Our AMA hereby calls on ~~US hospitals~~ all**  
22 **Medical Health Care Facilities and Correctional**  
23 **Facilities to improve the health of patients, staff, and**  
24 **visitors by: (a) providing a variety of healthy food,**  
25 **including plant-based meals, and meals that are low**  
26 **in saturated and trans fat, sodium, and added**  
27 **sugars; (b) eliminating processed meats from**  
28 **menus; and (c) providing and promoting healthy**  
29 **beverages.**  
30 3. **Our AMA hereby calls for ~~hospital~~ Medical Health**  
31 **Care Facility cafeterias and inpatient meal menus to**  
32 **publish nutrition information. (Modify Current HOD**  
33 **Policy)**  
34

35 **RECOMMENDATION B:**

36  
37 **Resolution 904 be adopted as amended.**  
38

39 **RECOMMENDATION C:**

40  
41 **Policy D-430.995, “Dietary Intake of Incarcerated**  
42 **Populations” be reaffirmed.**  
43

44 **RESOLVED, That our American Medical Association encourage the availability of healthy,**  
45 **plant-based options at Medical Care Facilities by amending H-150.949, Healthy Food Options**  
46 **in Hospitals to read as follows:**  
47

48 **Healthy Food Options in Hospitals ~~Medical Health~~**  
49 **Care Facilities, H-150.949**

- 49 1. **Our AMA encourages healthy food options be available, at reasonable prices and**  
50 **easily accessible, on ~~hospital~~ the premises of Medical Care Facilities.**

- 1 2. Our AMA hereby calls on ~~US hospitals~~ all Medical Care Facilities and Correctional  
2 Facilities to improve the health of patients, staff, and visitors by: (a) providing a  
3 variety of healthy food, including plant-based meals, and meals that are low in fat,  
4 sodium, and added sugars; (b) eliminating processed meats from menus; and (c)  
5 providing and promoting healthy beverages.
- 6 3. Our AMA hereby calls for ~~hospital~~ Medical Care Facility cafeterias and inpatient  
7 meal menus to publish nutrition information. (Modify Current HOD Policy)

8

9 Your Reference Committee heard testimony largely in favor of this amendment to existing  
10 policy. Minor amendments were offered and supported by your Reference Committee. These  
11 amendments included use of the term “health care facilities” rather than “medical care  
12 facilities” and specifying that “low in fat” that should be clarified to address saturated and  
13 trans fats. It was also noted in testimony that existing policy addresses healthy food in  
14 correctional facilities. Your Reference Committee agrees that correctional facilities are outside  
15 of the scope of this policy. Therefore, your Reference Committee recommends that Resolution  
16 904 be adopted as amended and Policy D-430.995 be reaffirmed.

17

18

D-430.995, “Dietary Intake of Incarcerated Populations”

19

20

21

22

23

24

25

26

27

Our AMA: 1) urges the National Commission on Correctional Health Care, the American Correctional Association, and individual states to mandate adherence to the current Dietary Reference Intakes and Dietary Guidelines for Americans (with adjustments, as needed, for special populations) as a criterion for accreditation and/or standards compliance, until national dietary guidelines specific for adolescent and adult incarcerated populations becomes available; and 2) urges the Food and Nutrition Board of the Institute of Medicine to examine the nutrient status and dietary requirements of incarcerated populations and issue guidelines on menu planning for adolescent and adult incarcerated populations. CSAPH Rep. 4, A-11.

1 (9) RESOLUTION 905 – SUNSCREEN DISPENSERS IN  
2 PUBLIC SPACES AS A PUBLIC HEALTH MEASURE  
3

4 **RECOMMENDATION A:**  
5

6 **Resolution 905 be amended by addition and deletion to**  
7 **read as follows:**  
8

9 **RESOLVED, That our American Medical Association, as**  
10 **part of a successful skin cancer prevention strategy,**  
11 **supports free public sunscreen programs that: (1)**  
12 **provide sunscreen that is SPF 15 or higher and broad**  
13 **spectrum; (2) supply the sunscreen in public spaces**  
14 **where the population would have a high risk of sun**  
15 **exposure; and (3) protect the product from excessive**  
16 **heat and direct sun.** (New HOD Policy)  
17

18 **RECOMMENDATION B:**  
19

20 **Resolution 905 be adopted as amended.**  
21

22 **RECOMMENDATION C:**  
23

24 **Policy H-440.839 be reaffirmed.**  
25

26 **RESOLVED, That our American Medical Association support free public sunscreen programs**  
27 **in public spaces where the population would have a high risk of sun exposure. (New HOD**  
28 **Policy)**  
29

30 Your Reference Committee heard generally supportive testimony on Resolution 905.  
31 Commenters pointed to the beneficial public health impact that established free public  
32 sunscreen programs have demonstrated. It was noted that these programs enable access to  
33 sunscreen in high-traffic public areas where there is a higher risk of sun exposure. Testimony  
34 referenced the established evidence of sunscreen as a protectant from cancer causing UVA  
35 and UVB radiation from the sun. Amendments related to the SPF level and broad spectrum  
36 to strengthen the policy were suggested. Several commenters noted that improved education  
37 is necessary for the public. The AMA already has policy related to education on sun protective  
38 behavior, therefore your Reference Committee recommends reaffirmation of this policy and  
39 the adoption of Resolution 905 as amended.  
40

41 H-440.839, "Protecting the Public from Dangers of Ultraviolet Radiation"

42 1. Our AMA encourages physicians to counsel their patients on sun-protective  
43 behavior. Tanning Parlors: Our AMA supports: (1) educational campaigns on the  
44 hazards of tanning parlors, as well as the development of local tanning parlor  
45 ordinances to protect our patients and the general public from improper and dangerous  
46 exposure to ultraviolet radiation; (2) legislation to strengthen state laws to make the  
47 consumer as informed and safe as possible; (3) dissemination of information to  
48 physicians and the public about the dangers of ultraviolet light from sun exposure and  
49 the possible harmful effects of the ultraviolet light used in commercial tanning centers;  
50 (4) collaboration between medical societies and schools to achieve the inclusion of  
51 information in the health curricula on the hazards of exposure to tanning rays; (5) the

1 enactment of federal legislation to: (a) prohibit access to the use of indoor tanning  
 2 equipment (as defined in 21 CFR 1040.20 [a][9]) by anyone under the age of 18; and  
 3 (b) require a United States Surgeon General warning be prominently posted, detailing  
 4 the positive correlation between ultraviolet radiation, the use of indoor tanning  
 5 equipment, and the incidence of skin cancer; (6) warning the public of the risks of  
 6 ultraviolet A radiation (UVA) exposure by skin tanning units, particularly the FDA's  
 7 findings warning Americans that the use of UVA tanning booths and sun beds pose  
 8 potentially significant health risks to users and should be discouraged; (7) working with  
 9 the FDA to ensure that state and local authorities implement legislation, rules, and  
 10 regulations regarding UVA exposure, including posted warnings in commercial tanning  
 11 salons and spas; (8) an educational campaign in conjunction with various concerned  
 12 national specialty societies to secure appropriate state regulatory and oversight  
 13 activities for tanning parlor facilities, to reduce improper and dangerous exposure to  
 14 ultraviolet light by patients and general public consumers; and (9) intensified efforts to  
 15 enforce current regulations. Sunscreens. Our AMA supports: (1) the development of  
 16 sunscreens that will protect the skin from a broad spectrum of ultraviolet radiation,  
 17 including both UVA and UVB; and (2) the labeling of sunscreen products with a  
 18 standardized ultraviolet (UV) logo, inclusive of ratings for UVA and UVB, so that  
 19 consumers will know whether these products protect against both types of UV  
 20 radiation. Terms such as low, medium, high and very high protection should be defined  
 21 depending on standardized sun protection factor level. 2. Our AMA supports sun  
 22 shade structures (such as trees, awnings, gazebos and other structures providing  
 23 shade) in the planning of public and private spaces, as well as in zoning matters and  
 24 variances in recognition of the critical important of sun protection as a public health  
 25 measure. Citation: CCB/CLRPD Rep. 3, A-14; Appended: Res. 403, A-14; Appended:  
 26 Res. 404, A-19.

27  
 28 (10) RESOLUTION 906 – ENSURING THE BEST IN-SCHOOL  
 29 CARE FOR CHILDREN WITH SICKLE CELL DISEASE

30  
 31 **RECOMMENDATION A:**

32  
 33 **Resolution 906 be amended by the addition of a new**  
 34 **resolve to read as follows:**

35  
 36 **RESOLVED, That our AMA encourage the development**  
 37 **of model school policy for best in-school care for**  
 38 **children with sickle cell disease. (New HOD Policy);**

39  
 40 **RECOMMENDATION B:**

41  
 42 **Resolution 906 be adopted as amended.**

43  
 44 RESOLVED, That our American Medical Association support the development of an  
 45 individualized sickle cell emergency care plan by physicians for in-school use, especially  
 46 during sickle cell crises (New HOD Policy); and be it further

47  
 48 RESOLVED, That our AMA support the education of teachers and school officials on policies  
 49 and protocols, encouraging best practices for children with sickle cell disease, such as  
 50 adequate access to the restroom and water, physical education modifications, seat  
 51 accommodations during extreme temperature conditions, access to medications, and policies

1 to support continuity of education during prolonged absences from school, in order to ensure  
2 that they receive the best in-school care, and are not discriminated against, based on current  
3 federal and state protections. (New HOD Policy)

4  
5 Your Reference Committee heard testimony largely in favor of this resolution. Testimony  
6 emphasized the importance of recognizing the health-risks for students with sickle cell disease  
7 and preventing pain crises. However, several commenters suggested that the language  
8 should encourage the development of model policy to simplify adoption by school districts and  
9 states. Therefore, your Reference Committee recommends that Resolution 906 be adopted  
10 as amended.

11  
12 (11) RESOLUTION 907 – INCREASING ACCESS TO GANG-  
13 RELATED LASER TATTOO REMOVAL IN PRISON AND  
14 COMMUNITY SETTINGS

15  
16 **RECOMMENDATION A:**

17  
18 **Resolution 907 be amended by addition and deletion to**  
19 **read as follows:**

20  
21 **RESOLVED, That our American Medical Association**  
22 **support increased access to removal of gang-related**  
23 **and human trafficking-related tattoos ~~removal~~—in**  
24 **~~prisons~~ correctional facilities and community settings.**  
25 **(New HOD Policy)**

26  
27 **RECOMMENDATION B:**

28  
29 **Resolution 907 be adopted as amended.**

30  
31 **RECOMMENDATION C:**

32  
33 **The title of Resolution 907 be changed.**

34  
35 **INCREASED ACCESS TO REMOVAL OF GANG-**  
36 **RELATED AND HUMAN TRAFFICKING-RELATED**  
37 **TATTOOS IN CORRECTIONAL AND COMMUNITY**  
38 **SETTINGS**

39  
40 **RESOLVED, That our American Medical Association support increased access to gang-**  
41 **related tattoo removal in prison and community settings. (New HOD Policy)**

42  
43 Your Reference Committee heard testimony supportive of this Resolution. It was noted that  
44 evidence shows that gang affiliation and activity are associated with poor health outcomes  
45 and recidivism. An amendment was offered to broaden the scope of this resolution to include  
46 human-trafficking-related tattoos as well as correctional facilities beyond prisons. Your  
47 Reference Committee agrees with these recommendations and also offers amendments to  
48 clarify the language. Resolution 907 should be adopted as amended with a change in title to  
49 reflect the amendments.

1 (12) RESOLUTION 909 – DECREASING THE USE OF  
2 OXIMETRY MONITORS FOR THE PREVENTION OF  
3 SUDDEN INFANT DEATH SYNDROME  
4

5 **RECOMMENDATION A:**  
6

7 **Resolution 909 be amended by addition and deletion to**  
8 **read as follows:**  
9

10 **RESOLVED, That our American Medical Association**  
11 **oppose the sale and use of non-prescription oximetry**  
12 **monitors, to prevent sudden unexplained infant death**  
13 **syndrome. (New HOD Policy)**  
14

15 **RECOMMENDATION B:**  
16

17 **Resolution 909 be adopted as amended.**  
18

19 **RECOMMENDATION C:**  
20

21 **The title of Resolution 909 be changed.**  
22

23 **DECREASING THE USE OF NON-PRESCRIPTION**  
24 **OXIMETRY MONITORS FOR THE PREVENTION OF**  
25 **SUDDEN UNEXPLAINED INFANT DEATH**  
26

27 **RESOLVED, That our American Medical Association oppose the sale and use of oximetry**  
28 **monitors to prevent sudden infant death syndrome. (New HOD Policy)**  
29

30 Your Reference Committee heard testimony largely supportive of this resolution. It was noted  
31 that consumer pulse oximetry monitors are inconsistent and unreliable and there is no  
32 evidence that they prevent sudden unexplained infant death. Reliance on these devices may  
33 encourage parents to forgo safe sleep practices. Amendments to clarify that this policy is  
34 addressing non-prescription oximetry monitors use were presented. Your Reference  
35 Committee agrees with these amendments and recommends that Resolution 909 be adopted  
36 as amended.

1 (13) RESOLUTION 914 – NICOTINE REPLACEMENT  
2 THERAPY FOR MINORS  
3

4 **RECOMMENDATION A:**

5  
6 **The first Resolve of Resolution 914 be amended by**  
7 **addition and deletion to read as follows:**

8  
9 **RESOLVED, That our American Medical Association**  
10 **seek support immediate and thorough study of the use**  
11 **of all forms of nicotine delivery as well as**  
12 **pharmacologic and non-pharmacologic treatment**  
13 **strategies for tobacco use disorder and nicotine**  
14 **dependence resulting from the use of non-combustible**  
15 **and combustible tobacco products, ~~treating nicotine~~**  
16 **addiction treatment options in populations under the**  
17 **age of 18 (Directive to Take Action); and be it further**  
18

19 **RECOMMENDATION B:**

20  
21 **The second Resolve of Resolution 914 be amended by**  
22 **addition and deletion to read as follows:**

23  
24 **RESOLVED, That our AMA support federal regulation**  
25 **that encourages manufacturers of pharmacologic**  
26 **nicotine addiction treatment therapy for treatment of**  
27 **tobacco use disorder and nicotine dependence**  
28 **approved for adults to examine their products' effects**  
29 **in populations under age 18. (Directive to Take Action)**  
30

31 **RECOMMENDATION C:**

32  
33 **Resolution 914 be adopted as amended.**

34  
35 **RECOMMENDATION D:**

36  
37 **The title of Resolution 914 be changed.**

38  
39 **STRATEGIES FOR THE TREATMENT OF TOBACCO**  
40 **USE DISORDER AND NICOTINE DEPENDENCE IN**  
41 **POPULATIONS UNDER THE AGE OF 18**  
42

43 **RESOLVED, That our American Medical Association seek immediate and thorough study of**  
44 **the use of all forms of nicotine delivery, as well as all nicotine addiction treatment options in**  
45 **populations under the age of 18 (Directive to Take Action); and be it further**  
46

47 **RESOLVED, That our AMA support federal regulation that encourages manufacturers of**  
48 **nicotine addiction treatment therapy approved for adults to examine their products' effects in**  
49 **populations under age 18. (Directive to Take Action)**  
50

1 Your Reference Committee heard testimony in strong support for prioritizing research on  
2 effective pharmacological and non-pharmacologic treatment therapies for all forms of tobacco  
3 use disorder and nicotine dependence as current products have not been studied as a method  
4 for vaping cessation and have not been approved by the FDA in populations under the age of  
5 18. Therefore, your Reference Committee recommends that Resolution 914 be adopted as  
6 amended.

7  
8 (14) RESOLUTION 915 – PREVENTING DEATH AND  
9 DISABILITY DUE TO PARTICULATE MATTER  
10 PRODUCED BY AUTOMOBILES

11  
12 **RECOMMENDATION A:**

13  
14 **Resolution 915 be amended by addition to read as**  
15 **follows:**

16  
17 **RESOLVED, That our American Medical Association:**  
18 **(1) promote policies at all levels of society and**  
19 **government that educate and encourage policy makers**  
20 **to limit or eliminate disease causing contamination of**  
21 **the environment by gasoline and diesel combustion-**  
22 **powered automobiles, advocating for the development**  
23 **of alternative means for automobile propulsion and**  
24 **public transportation;** and (2) **consider submitting or**  
25 **joining an amicus brief in support of the state of**  
26 **California’s legal efforts to retain authority to set**  
27 **vehicle tailpipe emission standards. (New HOD Policy)**

28  
29 **RECOMMENDATION B:**

30  
31 **Resolution 915 be adopted as amended.**

32  
33 **RECOMMENDATION C:**

34  
35 **Policy D-135.978 be reaffirmed.**

36  
37 **RESOLVED, That our American Medical Association promote policies at all levels of society**  
38 **and government that educate and encourage policy makers to limit or eliminate disease**  
39 **causing contamination of the environment by gasoline and diesel combustion-powered**  
40 **automobiles, advocating for the development of alternative means for automobile propulsion**  
41 **and public transportation. (New HOD Policy)**

42  
43 Your Reference Committee heard testimony that was largely in support of encouraging policy  
44 makers to limit the proven negative health impacts of particulate matter created by gasoline  
45 and diesel combustion-powered automobiles. Since this issue is actively being debated,  
46 testimony was offered requesting an amendment to empower the AMA to be a part of the  
47 ongoing efforts and potential judicial advocacy. It was noted that the AMA has existing policy  
48 on standards for particulate matter. Therefore, your Reference Committee recommends that  
49 Resolution 915 be adopted as amended and Policy D-135.978 be reaffirmed.

1 D-135.978, “Protective NAAQS Standard for Particulate Matter (PM 2.5 & PM 10)”  
2 At such time as a new EPA Proposed Rule on National Ambient Air Quality Standards  
3 for Particulate Matter is published, our AMA will review the proposal and be prepared  
4 to offer its support for comments developed by the American Thoracic Society and its  
5 sister organizations. BOT action in response to referred for decision Res. 926, I-10  
6

7 (15) RESOLUTION 916 – SALE OF TOBACCO IN RETAIL  
8 PHARMACIES  
9

10 **RECOMMENDATION A:**

11  
12 **Resolution 916 be amended by deletion to read as**  
13 **follows:**  
14

15 **RESOLVED, That our American Medical Association**  
16 **~~widely publicize opposition to pharmacies selling~~**  
17 **~~tobacco products, especially to minors, and seek active~~**  
18 **collaboration with other healthcare professionals**  
19 **through their professional organizations, especially**  
20 **pharmacists, but including all healthcare team**  
21 **members, to persuade all retailers of prescription**  
22 **pharmaceuticals to immediately cease selling tobacco**  
23 **products, with a report back at the 2020 Annual**  
24 **Meeting. (Directive to Take Action)**  
25

26 **RECOMMENDATION B:**

27  
28 **Resolution 916 be adopted as amended.**  
29

30 **RECOMMENDATION C:**

31  
32 **Policy D-495.994 be reaffirmed.**  
33

34 **RESOLVED, That our American Medical Association widely publicize opposition to**  
35 **pharmacies selling tobacco products, especially to minors, and seek active collaboration with**  
36 **other healthcare professionals through their professional organizations, especially**  
37 **pharmacists, but including all healthcare team members, to persuade all retailers of**  
38 **prescription pharmaceuticals to immediately cease selling tobacco products, with a report**  
39 **back at the 2020 Annual Meeting. (Directive to Take Action)**  
40

41 Your Reference Committee heard testimony that was in favor of prohibition of the sale of  
42 tobacco in retail pharmacies. The AMA currently has multiple policies, including a directive to  
43 take action, opposing the sale of tobacco products in pharmacies. This policy encourages  
44 more active collaboration with stakeholders not included in the existing policy and these  
45 actions can be captured in the AMA’s annual Tobacco Report being presented to the House  
46 of Delegates in 2020. Your Reference Committee therefore recommends adopting Resolution  
47 916 as amended.  
48

49 D-495.994, “Oppose Sale of Tobacco Products in Pharmacies”

50 Our AMA: (1) specifically and publicly opposes the sale and marketing of tobacco  
51 products, including cigarettes, in pharmacies; (2) will communicate with appropriate

1 federal agencies, including the Bureau of Alcohol, Tobacco, Firearms and Explosives,  
 2 many public health groups, various pharmacy trade groups, and media outlets, in  
 3 seeking their help in removing tobacco products, including cigarettes, from pharmacy  
 4 shelves; (3) will work to pass legislation at the local, state and federal levels to  
 5 accomplish the goal of banning tobacco sales in pharmacies nationwide; (4) will work  
 6 with Federation members and national organizations concerned about tobacco use to  
 7 develop a recognition program for pharmacies that voluntarily agree to eliminate the  
 8 sale of tobacco; (5) will work with state and local medical societies to disseminate  
 9 information on these recognized pharmacies to their membership; and 6) will work  
 10 through its Advocacy Resource Center to provide that list to organizations interested  
 11 in preventive healthcare. Sub. Res. 419, A-09; Reaffirmed in lieu of Res. 422, A-10;  
 12 Reaffirmed in lieu of Res. 426, A-10; Modified in lieu of Res. 405, A-12 and Res. 420,  
 13 A-12; Reaffirmation I-13

14  
 15 (16) RESOLUTION 918 – BANNING FLAVORS, INCLUDING  
 16 MENTHOL AND MINT, IN COMBUSTIBLE AND  
 17 ELECTRONIC CIGARETTES AND OTHER NICOTINE  
 18 PRODUCTS

19  
 20 **RECOMMENDATION A:**

21  
 22 **The second Resolve in Resolution 918 be deleted.**

23  
 24 **~~RESOLVED, That our AMA amend Policy H-495.976,~~**  
 25 **~~“Opposition to Exempting the Addition of Menthol to~~**  
 26 **~~Cigarettes,” by addition and deletion as follows:~~**

27  
 28 **~~Our AMA: (1) will continue to support a ban on the use~~**  
 29 **~~and marketing of menthol in cigarettes all tobacco~~**  
 30 **~~products as a harmful additive; and (2) encourages and~~**  
 31 **~~will assist its members to seek state bans on the sale of~~**  
 32 **~~menthol cigarettes, electronic nicotine delivery devices~~**  
 33 **~~and other tobacco products. (Modify Current HOD~~**  
 34 **~~Policy)~~**

35  
 36 **RECOMMENDATION B:**

37  
 38 **Resolution 918 be adopted as amended.**

39  
 40 RESOLVED, That our American Medical Association amend Policy H-495.971, “Opposition  
 41 to Addition of Flavors to Tobacco Products,” by addition as follows:

42  
 43 Our AMA: (1) supports state and local legislation to prohibit the sale or distribution of all  
 44 flavored tobacco products, including menthol, mint and wintergreen flavors; (2) urges local  
 45 and state medical societies and federation members to support state and local legislation to  
 46 prohibit the sale or distribution of all flavored tobacco products; and (3) encourages the FDA  
 47 to prohibit the use of all flavoring agents in tobacco products, which includes electronic  
 48 nicotine delivery systems as well as combustible cigarettes, cigars and smokeless tobacco  
 49 (Modify Current HOD Policy); and be it further  
 50

1 RESOLVED, That our AMA amend Policy H-495.976, "Opposition to Exempting the Addition  
2 of Menthol to Cigarettes," by addition and deletion as follows:

3  
4 Our AMA: (1) will continue to support a ban on the use and marketing of menthol in cigarettes  
5 all tobacco products as a harmful additive; and (2) encourages and will assist its members to  
6 seek state bans on the sale of menthol cigarettes, electronic nicotine delivery devices and  
7 other tobacco products. (Modify Current HOD Policy)

8  
9 Your Reference Committee heard testimony that was supportive of this resolution. It was  
10 noted that this is already the position of the AMA and that the AMA has been advocating in  
11 support of banning all flavored tobacco products, including mint and menthol. Since Policy H-  
12 495.971 broadly addresses banning flavors in all tobacco products, your Reference believes  
13 that Policy H-495.976 should remained focused on combustible cigarettes. The policy on  
14 combustible cigarettes was enacted in 2008 prior to the enactment of the 2009 Family  
15 Smoking Prevention and Tobacco Control Act, which banned flavored cigarettes, but  
16 exempted menthol. While the FDA expressed its intent to ban menthol in cigarettes in 2018,  
17 no further action has occurred, and this remains an important public health issue. Therefore,  
18 your Reference Committee recommends that Resolution 918 be adopted as amended.

19  
20 (17) RESOLUTION 923 – SUPPORT AVAILABILITY OF  
21 PUBLIC TRANSIT SYSTEMS

22  
23 **RECOMMENDATION A:**

24  
25 **The first Resolve of Resolution 923 be amended by**  
26 **addition and deletion to read as follows:**

27  
28 **RESOLVED, That our American Medical Association**  
29 **amend current policy H-135.939, "Green Initiatives and**  
30 **the Health Care Community," by addition and deletion**  
31 **as follows:**

32  
33 **Our AMA supports: (1) responsible waste management**  
34 **and clean energy production policies that minimize**  
35 **health risks, including the promotion of appropriate**  
36 **recycling and waste reduction; (2) the use of**  
37 **ecologically sustainable products, foods, and materials**  
38 **when possible; (3) the development of products that are**  
39 **non-toxic, sustainable, and ecologically sound; (4)**  
40 **building practices that help reduce resource utilization**  
41 **and contribute to a healthy environment; and (5) the**  
42 **establishment, expansion, and continued maintenance**  
43 **of affordable, accessible, barrier-free, reliable, and**  
44 **clean-energy public transportation; and (6) community-**  
45 **wide adoption of 'green' initiatives and activities by**  
46 **organizations, businesses, homes, schools, and**  
47 **government and health care entities; and be it further**  
48 **(Modify Current HOD Policy)**

1           **RECOMMENDATION B:**

2  
3           **The second Resolve of Resolution 923 be amended by**  
4           **addition and deletion to read as follows:**

5  
6           **RESOLVED, That our American Medical Association**  
7           **amend current policy H-425.993, “Health Promotion and**  
8           **Disease Prevention,” by addition and deletion as**  
9           **follows:**

10  
11           **The AMA (1) reaffirms its current policy pertaining to**  
12           **the health hazards of tobacco, alcohol, accidental**  
13           **injuries, unhealthy lifestyles, and all forms of**  
14           **preventable illness; (2) advocates intensified**  
15           **leadership to promote better health through prevention;**  
16           **(3) believes that preventable illness is a major deterrent**  
17           **to good health and accounts for a major portion of our**  
18           **country’s total health care expenditures; (4) actively**  
19           **supports appropriate scientific, educational and**  
20           **legislative activities that have as their goals: (a)**  
21           **prevention of smoking and its associated health**  
22           **hazards; (b) avoidance of alcohol abuse, particularly**  
23           **that which leads to accidental injury and death; (c)**  
24           **reduction of death and injury from vehicular and other**  
25           **accidents; and (d) encouragement of healthful lifestyles**  
26           **and personal living habits; and (5) advocates that health**  
27           **be considered one of the goals in transportation**  
28           **planning and policy development including but not**  
29           **limited to the establishment, expansion, and continued**  
30           **maintenance of affordable, accessible, barrier-free,**  
31           **reliable, and preferably clean-energy public**  
32           **transportation; and (6) strongly emphasizes the**  
33           **important opportunity for savings in health care**  
34           **expenditures through prevention. (Modify Current HOD**  
35           **Policy)**

36  
37           **RECOMMENDATION C:**

38  
39           **Resolution 923 be adopted as amended.**

40  
41           **RESOLVED, That our American Medical Association amend current policy H-135.939, “Green**  
42           **Initiatives and the Health Care Community,” by addition and deletion as follows:**

43  
44           **Our AMA supports: (1) responsible waste management and clean energy production**  
45           **policies that minimize health risks, including the promotion of appropriate recycling**  
46           **and waste reduction; (2) the use of ecologically sustainable products, foods, and**  
47           **materials when possible; (3) the development of products that are non-toxic,**  
48           **sustainable, and ecologically sound; (4) building practices that help reduce resource**  
49           **utilization and contribute to a healthy environment; and (5) the establishment,**  
50           **expansion, and continued maintenance of affordable, reliable public transportation;**  
51           **and (6) community-wide adoption of 'green' initiatives and activities by organizations,**

1 businesses, homes, schools, and government and health care entities; and be it further  
2 (Modify Current HOD Policy)

3  
4 RESOLVED, That our American Medical Association amend current policy H-425.993,  
5 "Health Promotion and Disease Prevention," by addition and deletion as follows:

6  
7 The AMA (1) reaffirms its current policy pertaining to the health hazards of tobacco,  
8 alcohol, accidental injuries, unhealthy lifestyles, and all forms of preventable illness;  
9 (2) advocates intensified leadership to promote better health through prevention; (3)  
10 believes that preventable illness is a major deterrent to good health and accounts for  
11 a major portion of our country's total health care expenditures; (4) actively supports  
12 appropriate scientific, educational and legislative activities that have as their goals: (a)  
13 prevention of smoking and its associated health hazards; (b) avoidance of alcohol  
14 abuse, particularly that which leads to accidental injury and death; (c) reduction of  
15 death and injury from vehicular and other accidents; and (d) encouragement of  
16 healthful lifestyles and personal living habits; and (5) advocates that health be  
17 considered one of the goals in transportation planning and policy development  
18 including but not limited to the establishment, expansion, and continued maintenance  
19 of affordable, reliable public transportation; and (6) strongly emphasizes the important  
20 opportunity for savings in health care expenditures through prevention. (Modify  
21 Current HOD Policy)

22  
23 Your Reference Committee heard unanimous testimony in support of this resolution to add  
24 public transportation to existing policy on green initiatives and health promotion. Testimony  
25 noted the need for more to be done to highlight transportation barriers and help vulnerable  
26 populations. Minor amendments were made to align the changes with existing AMA policy on  
27 climate change and note the need for transportation systems to be accessible to those with  
28 disabilities. Therefore, your Reference Committee recommends that Resolution 923 be  
29 adopted as amended.

1 (18) RESOLUTION 934 – GUN VIOLENCE AND MENTAL  
2 ILLNESS STIGMA IN THE MEDIA

3  
4 **RECOMMENDATION A:**

5  
6 **Resolution 934 be amended by addition and deletion to**  
7 **read as follows:**

8  
9 **RESOLVED, That our American Medical Association**  
10 **amend Policy H-145.971, “Development and**  
11 **Implementation of Recommendations for Responsible**  
12 **Media Coverage of Mass Shootings,” by addition as**  
13 **follows:**

14  
15 **Our AMA encourages the Centers for Disease Control**  
16 **and Prevention, in collaboration with other public and**  
17 **private organizations, to develop recommendations**  
18 **and/or best practices for media coverage of mass**  
19 **shootings, including for accurate and sensitive**  
20 **discussion of the purported relationship between**  
21 **mental illness and gun violence, including informed**  
22 **discussion of the limited data on the relationship**  
23 **between mental illness and gun violence, recognizing**  
24 **the potential for exacerbating stigma against**  
25 **individuals with mental illness. (Modify Current HOD**  
26 **Policy)**

27  
28 **RECOMMENDATION B:**

29  
30 **Resolution 934 be adopted as amended.**

31  
32 **RESOLVED, That our American Medical Association amend Policy H-145.971, “Development**  
33 **and Implementation of Recommendations for Responsible Media Coverage of Mass**  
34 **Shootings,” by addition as follows:**

35 **Our AMA encourages the Centers for Disease Control and Prevention, in collaboration**  
36 **with other public and private organizations, to develop recommendations or best**  
37 **practices for media coverage of mass shootings, including for accurate and sensitive**  
38 **discussion of the purported relationship between mental illness and gun violence.**  
39 **(Modify Current HOD Policy)**

40  
41 Your Reference Committee heard testimony in strong support of the spirit of this resolution  
42 and the importance that this issue be addressed. Suicide is a leading cause of preventable  
43 death in the United States and firearms are among the most lethal suicide attempt methods.  
44 The need for improved mental health services and decreased stigma related to mental health  
45 was noted. The conflation of the issues of mass shooting incidents and mental illness, and  
46 the resulting propagation of stigma was also discussed. Multiple amendments were offered to  
47 more clearly state the intent of the resolution. Your Reference Committee agrees with the  
48 amendment to clarify the language and, therefore, recommends that Resolution 934 be  
49 adopted as amended.

**RECOMMENDED FOR ADOPTION IN LIEU OF**

1  
2  
3 (19) RESOLUTION 901 – HEALTH IMPACT OF PER- AND  
4 POLYFLUOROALKYL SUBSTANCES (PFAS)  
5 CONTAMINATION IN DRINKING WATER  
6

7 RESOLUTION 922 – UNDERSTANDING THE EFFECTS  
8 OF PFAS ON HUMAN HEALTH  
9

10 **RECOMMENDATION:**

11  
12 **Alternate resolution 901 be adopted in lieu of**  
13 **Resolutions 901 and 922.**  
14

15 **Per- and Polyfluoroalkyl Substances (PFAS) and**  
16 **Human Health**

17 **RESOLVED, That our American Medical Association:**  
18 **(1) support continued research on the impact of**  
19 **perfluoroalkyl and polyfluoroalkyl chemicals on human**  
20 **health; (2) support legislation and regulation seeking to**  
21 **address contamination, exposure, classification, and**  
22 **clean-up of PFAS substances; and (3) advocate for**  
23 **states, at minimum, to follow guidelines presented in**  
24 **the Environmental Protection Agency’s Drinking Water**  
25 **Health Advisories for perfluorooctanoic acid (PFOA)**  
26 **and perfluorooctane sulfonic acid (PFOS), with**  
27 **consideration of the appropriate use of Minimal Risk**  
28 **Levels (MRLs) presented in the CDC/ATSDR**  
29 **Toxicological Profile for PFAS. (New HOD Policy)**  
30

31 Resolution 901

32 RESOLVED, That our American Medical Association support legislation and regulation  
33 seeking to address contamination, exposure, classification, and clean-up of Per- and  
34 Polyfluoroalkyl substances. (New HOD Policy)

35  
36  
37 Resolution 922

38 RESOLVED, That our American Medical Association advocate for continued research on the  
39 impact of perfluoroalkyl and polyfluoroalkyl chemicals on human health (Directive to Take  
40 Action); and be it further

41  
42 RESOLVED, That our AMA advocate for states to minimally follow guidelines regarding levels  
43 of perfluoroalkyl and polyfluoroalkyl chemicals recommended by the Centers for Disease  
44 Control and Prevention and the Environmental Protection Agency. (Directive to Take Action)

45  
46 Your Reference Committee heard testimony in strong support of both Resolution 901 and 922.  
47 The need for continued research on the human health effects of newer “replacement” PFAS  
48 was noted. There was strong support for the language of Resolution 901, which covers  
49 legislation and regulation of PFAS, without reference to research or guidelines that may not  
50 be inclusive of newer PFAS currently in use. Additional testimony pointed out that given the

1 long half-lives of PFAS, and their ability to spread in the environment, any current and ongoing  
2 contamination may already be difficult to clean up. Therefore, your Reference Committee  
3 recommends that an alternate resolution, which is a combination of Resolutions 901 and 922  
4 and inclusive of proposed clarifying amendments, be adopted in lieu of Resolutions 901 and  
5 922.

6  
7 (20) RESOLUTION 910 – BAN ON ELECTRONIC NICOTINE  
8 DELIVERY SYSTEM (ENDS) PRODUCTS

9  
10 RESOLUTION 925 – SUSPENDING SALES OF VAPING  
11 PRODUCTS / ELECTRONIC CIGARETTES UNTIL FDA  
12 REVIEW

13  
14 RESOLUTION 935 – AMA RESPONSE TO NATIONAL  
15 VAPING EPIDEMIC

16  
17 **RECOMMENDATION A:**

18  
19 **Alternate Resolution 910 be adopted in lieu of**  
20 **Resolutions 910, 925, and 935.**

21  
22 **Ban on Electronic Cigarettes and Vaping Products Not**  
23 **Approved by the FDA as Tobacco Cessation Products**

24  
25 **RESOLVED, That our American Medical Association (1)**  
26 **urgently advocate for regulatory, legislative, and/or**  
27 **legal action at the federal and/or state levels to ban the**  
28 **sale and distribution of all e-cigarette and vaping**  
29 **products, with the exception of those which may be**  
30 **approved by the FDA for tobacco cessation purposes**  
31 **and made available by prescription only and (2)**  
32 **advocate for research funding to sufficiently study the**  
33 **safety and effectiveness of e-cigarette and vaping**  
34 **products for tobacco cessation purposes. (Directive to**  
35 **Take Action)**

36  
37 Resolution 910

38 RESOLVED, That our American Medical Association advocate for regulatory, and/or  
39 legislative, and/or legal action at the federal and/or state levels to ban all Electronic Nicotine  
40 Delivery Systems (ENDS) products. (Directive to Take Action)

41  
42  
43 Resolution 925

44 RESOLVED, That our American Medical Association support regulations that would prohibit  
45 the sale of any e-cigarette or other vaping product that has not undergone U.S. Food and  
46 Drug Administration (FDA) pre-market review until the FDA completes its review and allows  
47 the products to be sold. (New HOD Policy)

1 Resolution 935

2 RESOLVED, That our American Medical Association adopt an immediate AMA declaration  
3 that the vaping epidemic has escalated, leading to life-threatening illnesses and if unchecked  
4 will become an epidemic of epic proportions, labeling it now as a National Public Health  
5 Emergency Crisis (Directive to Take Action); and be it further

6  
7 RESOLVED, That our AMA, having declared vaping a Public Health Emergency Crisis,  
8 advocate for an immediate legislative ban on vaping at the national level, with a minimal  
9 duration of one year and which emulates shorter bans already in place in several states  
10 (Directive to Take Action); and be it further

11  
12 RESOLVED, That during any ban on vaping, our AMA advocate for emergency government  
13 research funding, under the direction of the Centers for Disease Control and Prevention, at a  
14 level sufficient to study and combat both the nicotine addiction and the direct pulmonary  
15 toxicity from the use of electronic nicotine delivery systems (Directive to Take Action); and be  
16 it further

17  
18 RESOLVED, That our AMA direct the Public Education Programs of the AMA to disseminate  
19 its own teaching materials (or those of sister organizations) to warn of the dangers of vaping.  
20 Such materials would be tailored for specific age group blocks, beginning with the late primary  
21 school age group (Directive to Take Action); and be it further

22  
23 RESOLVED, That our AMA adopt an immediate declaration and advocate for legislative  
24 action that requires the vaping industry to follow the same restrictions as the tobacco industry  
25 in direct-to-consumer advertising/marketing of their products (Directive to Take Action)

26  
27 Your Reference Committee heard testimony in strong support of banning e-cigarettes and  
28 vaping products. Some supported taking the products off the market until the FDA has  
29 completed their review and approval of products through the pre-market tobacco application  
30 process. Others noted that the AMA declared the use of e-cigarettes and vaping a public  
31 health epidemic a year ago and has repeatedly urged the FDA to act. However, little has been  
32 done and we cannot keep waiting on FDA to exercise their authority.

33  
34 Your Reference Committee believes that the dramatic rise in the youth use of e-cigarettes  
35 threatens to put another generation at risk of nicotine dependence. Others cautioned that  
36 banning e-cigarettes and vaping products may lead to a rise in the use of combustible tobacco  
37 products. Your Reference Committee believes that if e-cigarettes are effective at helping  
38 people quit smoking, manufacturers should pursue FDA approval as a tobacco cessation  
39 product available by prescription. Otherwise, their risks outweigh the potential benefits.

40  
41 Your Reference Committee appreciates the urgency of this issue as articulated in Resolution  
42 935, but believes that declaring this epidemic a “national public health emergency crisis” is  
43 inappropriate. Therefore, your Reference Committee recommends that alternative Resolution  
44 910 be adopted in lieu of Resolutions 925 and 935.

1 (21) RESOLUTION 913 – PUBLIC HEALTH IMPACTS AND  
2 UNINTENDED CONSEQUENCES OF LEGALIZATION  
3 AND DECRIMINALIZATION OF CANNABIS FOR  
4 MEDICINAL AND RECREATIONAL USE

5  
6 RESOLUTION 919 – RAISING AWARENESS OF THE  
7 HEALTH IMPACT OF CANNABIS

8  
9 **RECOMMENDATION:**

10  
11 **Alternate Resolution 913 be adopted in lieu of**  
12 **Resolutions 913 and 919.**

13  
14 **Raising Awareness of the Public Health Impact of**  
15 **Cannabis**

16  
17 **RESOLVED, That our AMA encourage research on the**  
18 **impact of legalization and decriminalization of cannabis**  
19 **in an effort to promote public health and public safety**  
20 **(Directive to Take Action); and be it further**

21  
22 **RESOLVED, That our AMA encourage dissemination of**  
23 **information on the public health impact of legalization**  
24 **and decriminalization of cannabis (Directive to Take**  
25 **Action); and be it further**

26  
27 **RESOLVED, That our AMA advocate for stronger public**  
28 **health messaging on the health effects of cannabis and**  
29 **cannabinoid inhalation and ingestion (Directive to Take**  
30 **Action); and be it further**

31  
32 **RESOLVED, That our American Medical Association**  
33 **coordinate with other health organizations to develop**  
34 **resources on the impact of cannabis on human health**  
35 **and on methods for counseling and educating patients**  
36 **on the use cannabis and cannabinoids (Directive to**  
37 **Take Action); and be it further**

38  
39 **RESOLVED, That our AMA advocate for urgent**  
40 **regulatory changes necessary to fund and perform**  
41 **research related to cannabis and cannabinoids**  
42 **(Directive to Take Action).**

43  
44 Resolution 913

45 RESOLVED, That our American Medical Association work with interested organizations to  
46 collate existing worldwide data on the public health impacts, societal impacts, and unintended  
47 consequences of legalization and/or decriminalization of cannabis for recreational and  
48 medicinal use, with a report back at the 2020 Interim Meeting (Directive to Take Action); and  
49 be it further  
50

1 RESOLVED, That our AMA continue to encourage research on the unintended consequences  
2 of legalization and decriminalization of cannabis for recreational and medicinal use in an effort  
3 to promote public health and public safety (Directive to Take Action); and be it further  
4

5 RESOLVED, That our AMA encourage dissemination of information on the public health  
6 impacts of legalization and decriminalization of cannabis for recreational and medicinal use,  
7 with consideration of making links to that information available on the AMA website (Directive  
8 to Take Action); and be it further  
9

10 RESOLVED, That our AMA work with interested organizations to lobby Congress to allow  
11 more sites to conduct research on the risks and benefits of cannabinoid products. (Directive  
12 to Take Action)  
13  
14

#### 15 Resolution 919

16 RESOLVED, That our American Medical Association coordinate with other health  
17 organizations to develop medical resources on the known and anticipated impact of cannabis  
18 on human health and on methods for counseling and educating patients who use cannabis  
19 and cannabinoids (Directive to Take Action); and be it further  
20

21 RESOLVED, That our AMA advocate for stronger public health messaging on the negative  
22 effects of cannabis and cannabinoid inhalation and ingestion (Directive to Take Action); and  
23 be it further  
24

25 RESOLVED, That our AMA advocate for urgent regulatory changes necessary to fund and  
26 perform research related to cannabis and cannabinoids (Directive to Take Action); and be it  
27 further  
28

29 RESOLVED, That our AMA advocate for minimum purchasing age for cannabis products of  
30 at least 21 years old (Directive to Take Action); and be it further  
31

32 RESOLVED, That our AMA continue to use the term “cannabis” in our policies when  
33 referencing cannabis plants, and “cannabis derivatives” or “cannabinoids” when referencing  
34 their natural chemical derivatives, but will include the term “marijuana” in physician and public  
35 education messaging and materials to improve health literacy (Directive to Take Action); and  
36 be it further  
37

38 RESOLVED, That our AMA amend policy H-95.924, “Cannabis Legalization for Recreational  
39 Use,” by addition and deletion to read as follows:  
40

#### 41 Cannabis Legalization for Recreational Use H-95.924

42 Our AMA: (1) believes warns that cannabis and cannabinoids can be a threat to health  
43 when inhaled or ingested; (2) advocates that cannabis and cannabinoids are is a  
44 dangerous drug and as such is a serious public health concern; (23) believes that  
45 warns against the legalized use and sale of cannabis and cannabinoids for recreational  
46 use should not be legalized purposes, due to their negative impact on human health;  
47 (34) discourages warns against cannabis and cannabinoid use for recreational  
48 purposes, especially by persons vulnerable to the drug's effects and in high risk  
49 populations such as youth, children and young adults, pregnant women, and women  
50 who are breastfeeding; (45) believes strongly advocates that states that have already  
51 legalized cannabis (for medical or recreational use or both) should be required to take

1 steps to regulate the product cannabis and cannabinoids effectively in order to protect  
2 public health and safety and that laws and regulations related to legalized cannabis  
3 use should consistently be evaluated to determine their effectiveness; (56) strongly  
4 encourages local, state, and federal public health agencies to improve surveillance  
5 efforts to ensure data is available on the short- and long-term health effects of  
6 cannabis and cannabinoid use; and (67) supports public health based strategies,  
7 rather than incarceration, in the handling of individuals possessing cannabis or  
8 cannabinoids for personal use. (Modify Current HOD Policy)  
9

10 Your Reference Committee heard testimony that was supportive of these resolutions and  
11 encourage action on these issues now due to the rapidly changing legal landscape across the  
12 country and the need for guidance. The Council on Science and Public Health testified that  
13 they are currently working on an updated report on cannabis for the presentation to the HOD  
14 at the A-20 meeting. Given this pending report, your Reference Committee believes that an  
15 additional report at I-20 is unnecessary. The Council supported referral of these resolutions  
16 for inclusion in their report. Your Reference Committee agreed that referral was appropriate,  
17 but wanted to provide policy for advocacy purposes in the meantime. Your Reference  
18 Committee recommends that this alternate resolution be adopted in lieu of Resolutions 913  
19 and 919.

20  
21 (22) RESOLUTION 930 – ORIGIN OF PRESCRIPTION  
22 MEDICATION PRODUCTION TRANSPARENCY

23  
24 RESOLUTION 932 – SOURCE AND QUALITY OF  
25 MEDICATIONS CRITICAL TO NATIONAL HEALTH AND  
26 SECURITY

27  
28 **RECOMMENDATION:**

29  
30 **Resolution 932 be adopted in lieu of Resolution 930.**

31  
32 Resolution 930

33 RESOLVED, that our American Medical Association advocate to Congress to support national  
34 legislation to make it a requirement that the identity of the manufacturer(s) and the country  
35 (countries) of origin of the components of prescription medications be included on the label of  
36 the container dispensed to a patient, including generic medications. (New HOD Policy)

37  
38  
39 Resolution 932

40 RESOLVED, that our American Medical Association (AMA) support studies that identify the  
41 extent to which the United States is dependent on foreign supplied pharmaceuticals and  
42 chemical substrates (New HOD Policy); and be it further

43  
44 RESOLVED, that our AMA support legislative and regulatory initiatives that help to ensure  
45 proper domestic capacity, production and quality of pharmaceutical and chemical substrates  
46 as a matter of public well-being and national security (New HOD Policy); and be it further

47  
48 RESOLVED, that our AMA encourage the development and enforcement of standards that  
49 make the sources of pharmaceuticals and their chemical substrates used in the United States  
50 of America transparent to prescribers and the general public. (New HOD Policy)  
51

1 Your Reference Committee heard testimony largely in support of the intent of these  
2 Resolutions. Significant testimony also noted frustration with transparency related to the drug  
3 supply chain. Many commenters noted their support for the language of Resolution 932 and  
4 noted the urgency associated with this problem. It was also stated that legislation is currently  
5 being deliberated related to the issues in Resolution 932 and the adoption of this policy should  
6 empower the AMA to be engaged in the deliberations. Your Reference Committee therefore  
7 recommends that Resolution 932 be adopted in lieu of Resolution 930.

**RECOMMENDED FOR REFERRAL FOR DECISION**

(23) RESOLUTION 926 – SCHOOL RESOURCE OFFICER  
QUALIFICATIONS AND TRAINING

**RECOMMENDATION A:**

The first Resolve of Resolution 926 be adopted.

**RECOMMENDATION B:**

The second Resolve of Resolution 926 be adopted.

**RECOMMENDATION C:**

The third Resolve of Resolution 926 be referred for  
decision.

RESOLVED, That our American Medical Association (AMA) encourage an evaluation of existing national standards (and legislation, if necessary) to have qualifications by virtue of training and certification that includes child psychology and development, restorative justice, conflict resolution, crime awareness, implicit/explicit biases, diversity inclusion, cultural humility, and individual and institutional safety and others deemed necessary for school resource officers (Directive to Take Action); and be it further

RESOLVED, That our AMA encourage the development of policies that foster the best environment for learning through protecting the health and safety of those in school, including students, teachers, staff and visitors (New HOD Policy); and be it further

RESOLVED, That our AMA encourage mandatory reporting of de-escalation procedures by school resource officers and tracking of student demographics of those reprimanded to identify areas of implicit bias. (Directive to Take Action)

Testimony was supportive of the concepts noted in this resolution and the need for training of school resource officers. There was confusion regarding the intent of the third Resolve, asking for mandatory reporting of de-escalation procedures by school resource officers. It is unclear who is required to report and to whom. Therefore, your Reference Committee recommends that Resolves one and two be adopted and Resolve three be referred for decision.

**RECOMMENDED FOR NOT ADOPTION**

(24) RESOLUTION 908 – REQUEST FOR BENZODIAZEPINE-SPECIFIC PRESCRIBING GUIDELINES FOR PHYSICIANS

**RECOMMENDATION:**

**Resolution 908 be not be adopted.**

RESOLVED, That our American Medical Association support the creation of national benzodiazepine-specific prescribing guidelines for physicians. (New HOD Policy)

Your Reference Committee heard mixed and passionate testimony on this resolution. Those in support noted the importance of the issue and the lack of guidance for physicians and other health care providers. Those opposed noted the possibility of unintended consequences that could arise from national guidelines similar to those that have emerged after the release of national opioid prescribing guidelines. Additional testimony noted the need for educational resources for physicians related to safe and effective prescribing of benzodiazepines. The nuance of prescribing these medications for a large variety of reasons was passionately discussed; many noted that prescribing benzodiazepines is very patient-specific, the patient-physician relationship is of paramount importance, and any national guideline could not adequately outline the details necessary for every medical specialty. Some testimony called for referral for the AMA to develop guidelines. The Council on Science and Public Health noted that writing of guidelines is outside of their scope and the scope of the AMA. The Council also commented that referral will not accomplish the intended goal of the resolution because national guidelines are not feasible or practical. For all of these reasons, your Reference Committee recommends that Resolution 908 not be adopted.

(25) RESOLUTION 917 – SUPPORTING RESEARCH INTO THE THERAPEUTIC POTENTIAL OF PSYCHEDELICS

RESOLUTION 933 – SUPPORTING RESEARCH INTO THE THERAPEUTIC POTENTIAL OF PSYCHEDELICS

**RECOMMENDATION:**

**Resolutions 917 and 933 not be adopted.**

Resolution 917

RESOLVED, That our American Medical Association call for the status of psychedelics as Schedule I substances be reclassified into a lower schedule class with the goal of facilitating clinical research and developing psychedelic-based medicines (Directive to Take Action); and be it further

RESOLVED, That our AMA explicitly support and promote research into the therapeutic potential of psychedelics to help make a more conducive environment for research, given the high regulatory and cultural barriers (Directive to Take Action); and be it further

RESOLVED, That our AMA support and promote research to determine the benefits and adverse effects of long-term psychedelic use. (Directive to Take Action)

1 Resolution 933  
2 RESOLVED, That our American Medical Association work to establish a waiver process for  
3 psychedelics as Schedule 1 substances with the goal of facilitating clinical research. (Directive  
4 to Take Action)

5  
6 Your Reference Committee largely heard testimony opposing the rescheduling of psychedelic  
7 drugs. Testimony noted that a drug must have an accepted medical use in the United States  
8 to be placed into a schedule other than Schedule I. To change the schedule of these drugs  
9 before medical use is established is pre-mature and dangerous. Testimony in support of this  
10 resolve emphasized the need for research on the therapeutic potential of psychedelics. The  
11 Council on Science and Public Health noted in testimony that research can, in fact, be  
12 conducted on Schedule I drugs and psychedelic compounds has been, and continues to be,  
13 an active and robust area of pharmaceutical research. As of December 2017, more than 590  
14 researchers were registered with DEA to study Schedule I substances. Every researcher who  
15 has submitted a valid research proposal has been approved. Additionally, several  
16 commenters noted that the category of “psychedelics” is too vague and is not a category  
17 specifically mentioned in the Controlled Substances Act. Given that research on psychedelics  
18 is already enabled with Schedule I classification, your Reference committee therefore  
19 recommends that Resolutions 917 and 933 not be adopted.

20  
21 (26) RESOLUTION 920 – MAINTAINING PUBLIC FOCUS ON  
22 LEADING CAUSES OF NICOTINE-RELATED DEATH

23  
24 **RECOMMENDATION:**

25  
26 **Resolution 920 not be adopted.**

27  
28 RESOLVED, That in public statements on nicotine issues, and in discussions with government  
29 officials, our AMA seek every reasonable opportunity to remind the American public about (1)  
30 the massive ongoing death toll from combustible cigarettes; (2) the large and solidly  
31 demonstrated death toll from environmental tobacco smoke; and (3) the ongoing need for  
32 every smoker to find the best possible way to achieve and maintain abstinence from  
33 combustible cigarettes. (Directive to Take Action)

34  
35 Your Reference Committee heard testimony that was mostly in opposition to this resolution.  
36 While smoking is the leading cause of preventable death, adopting a policy calling on the AMA  
37 to reference combustible products in any public statements or government meetings on  
38 nicotine products is unnecessary and could limit the AMA’s ability to effectively advocate and  
39 communicate on e-cigarettes, vaping, or other nicotine products. Both the Council on Science  
40 and Public Health and the Council on Legislation testified in opposition to this resolution. In  
41 addition, the AMA has existing policy addressing smoking as a major health hazard. Your  
42 Reference Committee recommends that Resolution 920 not be adopted.

43  
44 H-490.917, “Physician Responsibilities for Tobacco Cessation”

45 Cigarette smoking is a major health hazard and a preventable factor in physicians'  
46 actions to maintain the health of the public and reduce the high cost of health care.  
47 Our AMA takes a strong stand against smoking and favors aggressively pursuing all  
48 avenues of educating the general public on the hazards of using tobacco products and  
49 the continuing high costs of this serious but preventable problem. Additionally, our  
50 AMA supports and advocates for appropriate surveillance approaches to measure  
51 changes in tobacco consumption, changes in tobacco-related morbidity and mortality,

1 youth uptake of tobacco use, and use of alternative nicotine delivery systems. In view  
2 of the continuing and urgent need to assist individuals in smoking cessation,  
3 physicians, through their professional associations, should assume a leadership role  
4 in establishing national policy on this topic and assume the primary task of educating  
5 the public and their patients about the danger of tobacco use (especially cigarette  
6 smoking). Accordingly, our AMA: (1) encourages physicians to refrain from engaging  
7 directly in the commercial production or sale of tobacco products; (2) supports (a)  
8 development of an anti-smoking package program for medical societies; (b) making  
9 patient educational and motivational materials and programs on smoking cessation  
10 available to physicians; and (c) development and promotion of a consumer health-  
11 awareness smoking cessation kit for all segments of society, but especially for youth;  
12 (3) encourages physicians to use practice guidelines for the treatment of patients with  
13 nicotine dependence and will cooperate with the Agency for Health Research and  
14 Quality (AHRQ) in disseminating and implementing evidence-based clinical practice  
15 guidelines on smoking cessation, and on other matters related to tobacco and health;  
16 (4) (a) encourages physicians to use smoking cessation activities in their practices  
17 including (i) quitting smoking and urging their colleagues to quit; (ii) inquiring of all  
18 patients at every visit about their smoking habits (and their use of smokeless tobacco  
19 as well); (iii) at every visit, counseling those who smoke to quit smoking and eliminate  
20 the use of tobacco in all forms; (iv) prohibiting all smoking in the office by patients,  
21 physicians, and office staff; and discouraging smoking in hospitals where they work  
22 (v) providing smoking cessation pamphlets in the waiting room; (vi) becoming aware  
23 of smoking cessation programs in the community and of their success rates and,  
24 where possible, referring patients to those programs; (b) supports the concept of  
25 smoking cessation programs for hospital inpatients conducted by appropriately trained  
26 personnel under the supervision of a physician; (5) (a) supports efforts to identify gaps,  
27 if any, in existing materials and programs designed to train physicians and medical  
28 students in the behavior modification skills necessary to successfully counsel patients  
29 to stop smoking; (b) supports the production of materials and programs which would  
30 fill gaps, if any, in materials and programs to train physicians and medical students in  
31 the behavior modification skills necessary to successfully counsel patients to stop  
32 smoking; (c) supports national, state, and local efforts to help physicians and medical  
33 students develop skills necessary to counsel patients to quit smoking; (d) encourages  
34 state and county medical societies to sponsor, support, and promote efforts that will  
35 help physicians and medical students more effectively counsel patients to stop  
36 smoking; (e) encourages physicians to participate in education programs to enhance  
37 their ability to help patients quit smoking; (f) encourages physicians to speak to  
38 community groups about tobacco use and its consequences; and (g) supports  
39 providing assistance in the promulgation of information on the effectiveness of  
40 smoking cessation programs; (6) (a) supports the concept that physician offices,  
41 clinics, hospitals, health departments, health plans, and voluntary health associations  
42 should become primary sites for education of the public about the harmful effects of  
43 tobacco and encourages physicians and other health care workers to introduce and  
44 support healthy lifestyle practices as the core of preventive programs in these sites;  
45 and (b) encourages the development of smoking cessation programs implemented  
46 jointly by the local medical society, health department, and pharmacists; and (7) (a)  
47 believes that collaborative approaches to tobacco treatment across all points of  
48 contact within the medical system will maximize opportunities to address tobacco use  
49 among all of our patients, and the likelihood for successful intervention; and (b)  
50 supports efforts by any appropriately licensed health care professional to identify and  
51 treat tobacco dependence in any individual, in the various clinical contexts in which

1 they are encountered, recognizing that care provided in one context needs to take into  
2 account other potential sources of treatment for tobacco use and dependence. CSA  
3 Rep. 3, A-04Appended: Res. 444, A-05Reaffirmed: BOT Rep. 8, A-08Reaffirmed in  
4 lieu of Res. 912, I-12Reaffirmed: CSAPH Rep. 05, A-18.

5  
6 (27) RESOLUTION 921 – VAPING IN NEW YORK STATE AND  
7 NATIONALLY

8  
9 **RECOMMENDATION:**

10  
11 **Resolution 921 not be adopted.**

12  
13 RESOLVED, That our American Medical Association cooperate with the Medical Society of  
14 the State of New York (MSSNY) to express our gratitude to New York Governor Andrew  
15 Cuomo and Commissioner of the Department of Health Howard Zucker, MD for their prompt  
16 action to protect patients by banning the sale of flavored e cigarettes; and be it further

17  
18 RESOLVED, That our AMA cooperate with MSSNY to express our gratitude to Governor  
19 Cuomo and Health Commissioner Zucker for their advice to consumers to avoid vaporization  
20 of medical marijuana available under the New York State medical marijuana program; and be  
21 it further

22  
23 RESOLVED, That our AMA cooperate with MSSNY to recommend to Governor Cuomo,  
24 Commissioner Zucker, and New York State Legislators, and in conjunction with other State  
25 Medical Societies other State Executives, Health Commissioners and Legislatures to take  
26 further action to protect consumers from exposure to vaporized products with a moratorium  
27 on dispensing of vaporized products to new certificate holders for medical marijuana until data  
28 on the long term safety

29  
30 RESOLVED, That our AMA cooperate with MSSNY to recommend that state and federal  
31 representatives work to reschedule marijuana and its' component substances to Schedule II  
32 controlled substance to reduce barriers to further study on the efficacy and harms of various  
33 marijuana products. (Directive to Take Action)

34  
35 Your Reference Committee heard limited testimony on this resolution. It was noted that the  
36 AMA has already taken action to address several of the asks included in this resolution. For  
37 example, the AMA sent a letter to the Governor of New York, as well as other Governors,  
38 applauding their efforts to ban flavored e-cigarettes. In terms of the asks addressing cannabis,  
39 it should be noted that the Council on Science and Public Health is working on a report on this  
40 issue due back to the House of Delegates at A-20. Amended language from the authors that  
41 significantly departed from the proposed resolution was offered with minimal opportunity for  
42 review. Your Reference Committee recommends that if the authors feel strongly about the  
43 substitute language they should resubmit a resolution at Annual 2020. Therefore, your  
44 Reference Committee recommends that Resolution 921 not be adopted.

1 (28) RESOLUTION 924 – UPDATE SCHEDULED  
2 MEDICATION CLASSIFICATION

3  
4 **RECOMMENDATION:**

5  
6 **Resolution 924 not be adopted.**

7  
8 RESOLVED, That our American Medical Association amend current policy D-120.979, “DEA  
9 Regulations and the Ability of Physicians to Prescribe Controlled Medication Rationally,  
10 Safely, and Without Undue Threat of Prosecution,” by addition as follows:

11  
12 Our AMA supports ongoing constructive dialogue between the DEA and clinicians,  
13 including physicians, regarding: (1) a proper balance between the needs of patients  
14 for treatment and the needs of the government to provide oversight and regulation to  
15 minimize risks to public health and safety and (2) potential changes to the controlled  
16 substances schedules to make it easier to differentiate opioid containing controlled  
17 substances from non-opioid controlled substances within each schedule. (Modify  
18 Current HOD Policy)

19  
20 Your Reference Committee heard very limited testimony on this resolution, and most of it was  
21 in opposition. The Council on Science and Public Health noted that two drug schedules  
22 currently distinguish narcotics (opioids) from non-narcotic drugs, Schedule II/IIN and Schedule  
23 III/IIIN. The “N” designation indicates a non-narcotic drug. Since the ask of this resolution is  
24 already a part of the Controlled Substances Act and DEA drug classification, your Reference  
25 Committee recommends that Resolution 924 not be adopted.

26  
27 (29) RESOLUTION 929 – REGULATING MARKETING AND  
28 DISTRIBUTION OF TOBACCO PRODUCTS AND  
29 VAPING-RELATED PRODUCTS

30  
31 **RECOMMENDATION:**

32  
33 **Resolution 929 not be adopted.**

34  
35 RESOLVED, That our American Medical Association (AMA) support strict marketing  
36 standards to prevent all nicotine-related products from being marketed to, or attractive to,  
37 children, adolescents, and young adults, including but not limited to the following measures:

- 38 • Banning print advertising except in adult-only publications or media (adults are  
39 >85% of audience).
- 40 • Banning advertising and/or sponsorship at stadiums, concerts, sporting or other  
41 public events that are not primarily targeted to adults.
- 42 • Banning offers of any school or college scholarships by any company selling  
43 tobacco products.
- 44 • Banning television advertising of any tobacco products, including any vapor  
45 products.
- 46 • Banning advertising, marketing and sale of tobacco products that:
  - 47 ○ Uses the terms "candy" or "candies" or variants in spelling, such as "kandy"  
48 or "kandeez," "bubble gum," "cotton candy," and "gummi bear", and  
49 "milkshake."
  - 50 ○ Uses the terms "cake" or "cakes" or variants such as "cupcake."

- 1                   o Uses packaging, trade dress or trademarks that imitate those of food or  
2 other products primarily targeted to minors such as candy, cookies, juice  
3 boxes or soft drinks.
- 4                   o Uses packaging that contains images of food products primarily targeted  
5 to minors such as juice boxes, soft drinks, soda pop, cereal, candy, or  
6 desserts.
- 7                   o Imitates a consumer product designed or intended primarily for minors  
8                   o Uses cartoons or cartoon characters.  
9                   o Uses images or references to superheroes.
- 10                  o Uses any likeness to images, characters, or phrases that are known to  
11 appeal primarily to minors, such as "unicorn".  
12                  o Uses a video game, movie, video, or animated television show known to  
13 appeal primarily to minors.
- 14                  • Banning advertising and marketing of tobacco products, including vapor products,  
15 that:
- 16                   o Does not accurately represent the ingredients contained in the products.  
17                   o Uses contracted spokespeople or individuals that do not appear to be at  
18 least 25 years of age.
- 19                  • Banning advertising on outdoor billboards near schools and playgrounds.  
20                  • Requiring labels to include warnings protecting youth such as "Sales to Minors  
21 Prohibited" or "Underage Sales Prohibited" and/or "Keep Out of Reach of  
22 Children".  
23                  • Requiring all advertising to be accurate and not misleading (New HOD Policy); and  
24 be it further
- 25
- 26 RESOLVED, That our AMA support the use of the most up-to-date and effective technology  
27 for verifying the age of would-be purchasers of tobacco products and vaping-related products,  
28 both online and in bricks-and-mortar retail outlets (New HOD Policy); and be it further  
29
- 30 RESOLVED, That our AMA oppose sales of tobacco products or vaping-related products on  
31 any third-party marketplace such as Alibaba, Amazon, eBay, et al, where the third-party  
32 marketplace does not take full responsibility for verifying age; blocking unregulated cannabis  
33 and THC products; identifying and prohibiting all counterfeit products; and forbidding  
34 packaging and other materials that allow illicit sales of any tobacco product (New HOD Policy);  
35 and be it further
- 36
- 37 RESOLVED, That our AMA support licensing and frequent inspections of all retail outlets  
38 selling any tobacco products or vaping-related products, with loss of license for repeated  
39 violations (e.g., three violations in a three year period) (New HOD Policy); and be it further  
40
- 41 RESOLVED, That our AMA support limitations on the concentration, chemical form, and  
42 vehicle chemistry of all nicotine-related products, with special attention to the European  
43 product standards which seem to lead to much lower addictiveness than many of the ENDS  
44 products sold in the USA (New HOD Policy); and be it further  
45
- 46 RESOLVED, That our AMA support a ban on all self-service displays of tobacco products,  
47 which would require all tobacco products and vaping-related products to be behind a counter  
48 or in a locked display and accessible only to a store employee (New HOD Policy); and be it  
49 further  
50

1 RESOLVED, That our AMA support a ban on sales of all tobacco products and vaping-related  
2 products except in stores that display signage indicating that (a) "Unaccompanied Minors Are  
3 Not Allowed on Premises" or (b) "Products are Not for Sale to Minors" or (c) "Underage Sale  
4 Prohibited", and that enforce these rules consistently (New HOD Policy); and be it further

5  
6 RESOLVED, That our AMA support a ban on "straw man" sellers, which would make it illegal  
7 for any person who is not a licensed tobacco product dealer or vaping-related product dealer  
8 to sell, barter for, or exchange any tobacco product or vaping-related products (New HOD  
9 Policy); and be it further

10  
11 RESOLVED, That our AMA support legislation that would discourage "straw man" distribution  
12 by prohibiting the retail sale of quantities likely intended for more than one consumer, such as  
13 the retail sale to one customer of (a) more than two electronic-cigarette or vape devices; (b)  
14 more than five standard packages of e-liquids; (c) more than 20 packs of cigarettes; or (d)  
15 similarly determined quantities of other tobacco products and/or vaping-related products.  
16 (New HOD Policy)

17  
18 Testimony noted that the AMA already has existing policy addressing both the advertising and  
19 marketing of e-cigarette products as well as their sale and distribution. Both the Council on  
20 Science and Public Health and the Council on Legislation testified in opposition to this  
21 resolution as it would limit the AMA's advocacy efforts and, in some instances, would weaken  
22 our existing policies (i.e., internet sales and nicotine standards). A substitute was offered that  
23 dramatically altered the original resolution. Given the limited opportunity to review and discuss  
24 the newly proposed language, your Reference Committee believes the most appropriate  
25 course of action is to not adopt Resolution 929.

26  
27 H-495.984, "Tobacco Advertising and Media"

28 Our AMA: (1) in keeping with its long-standing objective of protecting the health of the  
29 public, strongly supports a statutory ban on all advertising and promotion of tobacco  
30 products; (2) as an interim step toward a complete ban on tobacco advertising,  
31 supports the restriction of tobacco advertising to a "generic" style, which allows only  
32 black-and-white advertisements in a standard typeface without cartoons, logos,  
33 illustrations, photographs, graphics or other colors; (3) (a) recognizes and condemns  
34 the targeting of advertisements for cigarettes and other tobacco products toward  
35 children, minorities, and women as representing a serious health hazard; (b) calls for  
36 the curtailment of such marketing tactics; and (c) advocates comprehensive legislation  
37 to prevent tobacco companies or other companies promoting look-alike products  
38 designed to appeal to children from targeting the youth of America with their strategic  
39 marketing programs; (4) supports the concept of free advertising space for anti-  
40 tobacco public service advertisements and the use of counter-advertising approved by  
41 the health community on government-owned property where tobacco ads are posted;  
42 (5) (a) supports petitioning appropriate government agencies to exercise their  
43 regulatory authority to prohibit advertising that falsely promotes the alleged benefits  
44 and pleasures of smoking as well worth the risks to health and life; and (b) supports  
45 restrictions on the format and content of tobacco advertising substantially comparable  
46 to those that apply by law to prescription drug advertising; (6) publicly commends those  
47 publications that have refused to accept cigarette advertisements and supports  
48 publishing annually, via JAMA and other appropriate publications, a list of those  
49 magazines that have voluntarily chosen to decline tobacco ads, and circulation of a  
50 list of those publications to every AMA member; (7) urges physicians to mark the  
51 covers of magazines in the waiting area that contain tobacco advertising with a

1 disclaimer saying that the physician does not support the use of any tobacco products  
2 and encourages physicians to substitute magazines without tobacco ads for those with  
3 tobacco ads in their office reception areas; (8) urges state, county, and specialty  
4 societies to discontinue selling or providing mailing lists of their members to magazine  
5 subscription companies that offer magazines containing tobacco advertising; (9)  
6 encourages state and county medical societies to recognize and express appreciation  
7 to any broadcasting company in their area that voluntarily declines to accept tobacco  
8 advertising of any kind; (10) urges the 100 most widely circulating newspapers and  
9 the 100 most widely circulating magazines in the country that have not already done  
10 so to refuse to accept tobacco product advertisements, and continues to support  
11 efforts by physicians and the public, including the use of written correspondence, to  
12 persuade those media that accept tobacco product advertising to refuse such  
13 advertising; (11) (a) supports efforts to ensure that sports promoters stop accepting  
14 tobacco companies as sponsors; (b) opposes the practice of using athletes to endorse  
15 tobacco products and encourages voluntary cessation of this practice; and (c) opposes  
16 the practice of tobacco companies using the names and distinctive hallmarks of well-  
17 known organizations and celebrities, such as fashion designers, in marketing their  
18 products; (12) will communicate to the organizations that represent professional and  
19 amateur sports figures that the use of all tobacco products while performing or  
20 coaching in a public athletic event is unacceptable. Tobacco use by role models  
21 sabotages the work of physicians, educators, and public health experts who have  
22 striven to control the epidemic of tobacco-related disease; (13) (a) encourages the  
23 entertainment industry, including movies, videos, and professional sporting events, to  
24 stop portraying the use of tobacco products as glamorous and sophisticated and to  
25 continue to de-emphasize the role of smoking on television and in the movies; (b) will  
26 aggressively lobby appropriate entertainment, sports, and fashion industry executives,  
27 the media and related trade associations to cease the use of tobacco products,  
28 trademarks and logos in their activities, productions, advertisements, and media  
29 accessible to minors; and (c) advocates comprehensive legislation to prevent tobacco  
30 companies from targeting the youth of America with their strategic marketing  
31 programs; and (14) encourages the motion picture industry to apply an "R" rating to all  
32 new films depicting cigarette smoking and other tobacco use. CSA Rep. 3, A-04;  
33 Appended: Res. 427, A-04; Reaffirmation A-05; Reaffirmation A-14  
34

35 H-495.986, "Sales and Distribution of Tobacco Products and Electronic Nicotine  
36 Delivery Systems (ENDS) and E-cigarettes"

37 Our AMA: (1) recognizes the use of e-cigarettes and vaping as an urgent public health  
38 epidemic and will actively work with the Food and Drug Administration and other  
39 relevant stakeholders to counteract the marketing and use of addictive e-cigarette and  
40 vaping devices, including but not limited to bans and strict restrictions on marketing to  
41 minors under the age of 21; (2) encourages the passage of laws, ordinances and  
42 regulations that would set the minimum age for purchasing tobacco products, including  
43 electronic nicotine delivery systems (ENDS) and e-cigarettes, at 21 years, and urges  
44 strict enforcement of laws prohibiting the sale of tobacco products to minors; (3)  
45 supports the development of model legislation regarding enforcement of laws  
46 restricting children's access to tobacco, including but not limited to attention to the  
47 following issues: (a) provision for licensure to sell tobacco and for the revocation  
48 thereof; (b) appropriate civil or criminal penalties (e.g., fines, prison terms, license  
49 revocation) to deter violation of laws restricting children's access to and possession of  
50 tobacco; (c) requirements for merchants to post notices warning minors against  
51 attempting to purchase tobacco and to obtain proof of age for would-be purchasers;

1 (d) measures to facilitate enforcement; (e) banning out-of-package cigarette sales  
2 ("loosies"); and (f) requiring tobacco purchasers and vendors to be of legal smoking  
3 age; (4) requests that states adequately fund the enforcement of the laws related to  
4 tobacco sales to minors; (5) opposes the use of vending machines to distribute  
5 tobacco products and supports ordinances and legislation to ban the use of vending  
6 machines for distribution of tobacco products; (6) seeks a ban on the production,  
7 distribution, and sale of candy products that depict or resemble tobacco products; (7)  
8 opposes the distribution of free tobacco products by any means and supports the  
9 enactment of legislation prohibiting the disbursement of samples of tobacco and  
10 tobacco products by mail; (8) (a) publicly commends (and so urges local medical  
11 societies) pharmacies and pharmacy owners who have chosen not to sell tobacco  
12 products, and asks its members to encourage patients to seek out and patronize  
13 pharmacies that do not sell tobacco products; (b) encourages other pharmacists and  
14 pharmacy owners individually and through their professional associations to remove  
15 such products from their stores; (c) urges the American Pharmacists Association, the  
16 National Association of Retail Druggists, and other pharmaceutical associations to  
17 adopt a position calling for their members to remove tobacco products from their  
18 stores; and (d) encourages state medical associations to develop lists of pharmacies  
19 that have voluntarily banned the sale of tobacco for distribution to their members; and  
20 (9) opposes the sale of tobacco at any facility where health services are provided; and  
21 (10) supports that the sale of tobacco products be restricted to tobacco specialty  
22 stores. CSA Rep. 3, A-04; Appended: Res. 413, A-04; Reaffirmation A-07; Amended:  
23 Res. 817, I-07; Reaffirmation A-08; Reaffirmation I-08; Reaffirmation A-09;  
24 Reaffirmation I-13; Reaffirmation A-14; Reaffirmation I-14; Reaffirmation A-15;  
25 Modified in lieu of Res. 421, A-15; Modified in lieu of Res. 424, A-15; Reaffirmation I-  
26 16; Appended: Res. 926, I-18  
27

#### 28 H-495.988, "FDA Regulation of Tobacco Products"

29 1. Our AMA: (A) acknowledges that all tobacco products (including but not limited to,  
30 cigarettes, smokeless tobacco, chewing tobacco, and hookah/water pipe tobacco) are  
31 harmful to health, and that there is no such thing as a safe cigarette; (B) recognizes  
32 that currently available evidence from short-term studies points to electronic cigarettes  
33 as containing fewer toxicants than combustible cigarettes, but the use of electronic  
34 cigarettes is not harmless and increases youth risk of using combustible tobacco  
35 cigarettes; (C) encourages long-term studies of vaping (the use of electronic nicotine  
36 delivery systems) and recognizes that complete cessation of the use of tobacco and  
37 nicotine-related products is the goal; (D) asserts that tobacco is a raw form of the drug  
38 nicotine and that tobacco products are delivery devices for an addictive substance; (E)  
39 reaffirms its position that the Food and Drug Administration (FDA) does, and should  
40 continue to have, authority to regulate tobacco products, including their manufacture,  
41 sale, distribution, and marketing; (F) strongly supports the substance of the August  
42 1996 FDA regulations intended to reduce use of tobacco by children and adolescents  
43 as sound public health policy and opposes any federal legislative proposal that would  
44 weaken the proposed FDA regulations; (G) urges Congress to pass legislation to  
45 phase in the production of reduced nicotine content tobacco products and to authorize  
46 the FDA have broad-based powers to regulate tobacco products; (H) encourages the  
47 FDA and other appropriate agencies to conduct or fund research on how tobacco  
48 products might be modified to facilitate cessation of use, including elimination of  
49 nicotine and elimination of additives (e.g., ammonia) that enhance addictiveness; and  
50 (I) strongly opposes legislation which would undermine the FDA's authority to regulate  
51 tobacco products and encourages state medical associations to contact their state

1 delegations to oppose legislation which would undermine the FDA's authority to  
2 regulate tobacco products. 2. Our AMA: (A) supports the US Food and Drug  
3 Administration (FDA) as it takes an important first step in establishing basic regulations  
4 of all tobacco products; (B) strongly opposes any FDA rule that exempts any tobacco  
5 or nicotine-containing product, including all cigars, from FDA regulation; and (C) will  
6 join with physician and public health organizations in submitting comments on FDA  
7 proposed rule to regulate all tobacco products. 3. Our AMA: (A) will continue to monitor  
8 the FDA's progress towards establishing a low nicotine product standard for tobacco  
9 products and will submit comments on the proposed rule that are in line with the  
10 current scientific evidence and (B) recognizes that rigorous and comprehensive post-  
11 market surveillance and product testing to monitor for unintended tobacco use patterns  
12 will be critical to the success of a nicotine reduction policy. CSA Rep. 3, A-04;  
13 Reaffirmed: BOT Rep. 8, A-08; Appended: Res. 234, A-12; Reaffirmation A-13;  
14 Modified: Res. 402, A-13; Modified: Speakers Rep., A-14; Appended: Res. 420, A-14;  
15 Reaffirmation A-15; Modified: CSAPH Rep. 05, A-18; Reaffirmed in lieu of: Res. 412,  
16 A-19; Modified: CSAPH Rep. 03, A-19

1 Madam Speaker, this concludes the report of Reference Committee K. I would like to thank  
2 Ankush K. Bansal, MD, Joanna T. Bisgrove, MD, Patricia A. Kolowich, MD, Damani McIntosh-  
3 Clarke, Thomas Vidic, MD, Sophia Yang, MD; our AMA staff Amy B. Cadwallader, PhD,  
4 Andrea Garcia, JD, MPH, Andrea Houlihan, and Jennifer Byrne; and all those who testified  
5 before the Committee.
