Membership that Matters
The American Medical Association is your powerful ally in patient care that represents physicians with a unified voice, drives the future of medicine, removes obstacles that interfere with patient care and leads the charge to confront public health crises. Membership in the AMA also comes with benefits specially tailored to professionals like you.

Designed Especially for Physicians
Joining the AMA gives you access to discounts, options and opportunities that impact both your life and career. These benefits were chosen by health care professionals who understand the needs of other health care professionals.

Worry-Free Benefits
Your benefits stay with you throughout your membership. No expiration dates, no conditions. Just renew your membership to keep them.

Exclusive Access
As an AMA member, you can play a direct role in the future of health care by attending events, joining advocacy groups, filling leadership positions and more.

National Advocacy Conference
February 10 – February 12, 2020
Grand Hyatt Washington | Washington, D.C.
Make a direct impact on the future of health care by visiting Capitol Hill with your fellow physicians.
Meet Gunjan Malhotra, MD, a young diagnostic radiology resident already pursuing medicine with passion and awe. A member since 2013, she addresses policies that directly govern the practice of medicine.

Dr. Malhotra serves as vice chair of the AMA Resident and Fellow Section (AMA-RFS) and has personally seen ideas she introduced as resolutions become topics of legislation.

“I understand the importance of investing time and effort on my patients in the hospital,” Dr. Malhotra says. “However, I think I help move medicine by investing time and effort into organizations geared toward addressing policies that govern the practice of medicine.”

She credits the service other physicians have given loved ones over the years as the inspiration for her pursuit of medicine. Her vision of the future is one of a physician-lead health care team that addresses population health issues in a more efficient, long-term manner.
