TCPI grant funding outcomes

The Centers for Medicare & Medicaid Services' (CMS) Transforming Clinical Practice Initiative awarded **$30 million** over four years to 10 Support and Alignment Networks (SANs). This education session will cover results from five major participants.

TCPI aims and phases of transformation

150k clinicians

Support more than 150,000 clinicians in their practice transformation work

1-4 billion

Generate $1 billion to $4 billion in savings to the federal government and commercial payers

Improve health outcomes for millions of Medicare, Medicaid, and CHIP beneficiaries and other patients

Reduce unnecessary hospitalizations for 5 million patients

Sustain efficient care delivery by reducing unnecessary testing and procedures

Build the evidence base on practice transformation so that effective solutions can be scaled

TCPI phases of transformation

SET AIMS

USE DATA TO DRIVE CARE
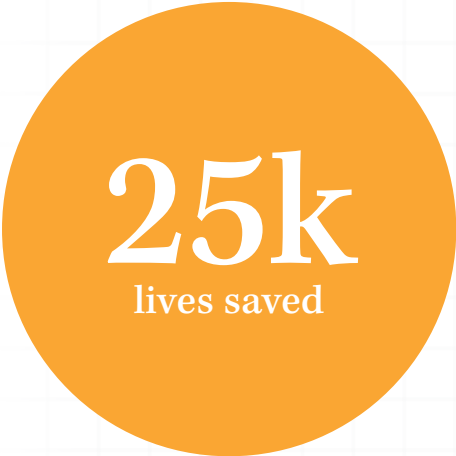

ACHIEVE PROGRESS ON AIMS

ACHIEVE BENCHMARK STATUS

THRIVE AS A BUSINESS VIA PAY-FOR-VALUE APPROACHES
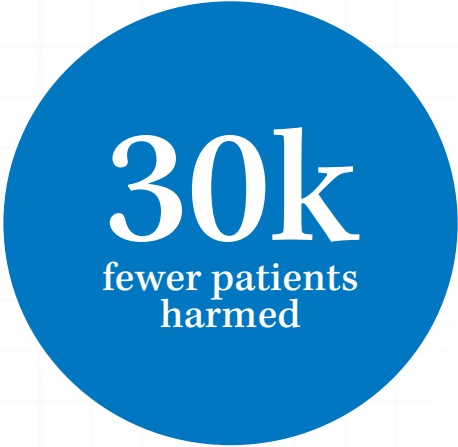

American College of Emergency Physicians

E-QUAL SUCCESS: PRELIMINARY ESTIMATES FROM THE EMERGENCY QUALITY NETWORK

25k
lives saved

25,000 lives saved from better sepsis care

30,000 fewer patients harmed by ionizing radiation

30k
fewer patients harmed

$55,093,582 saved

$55,093,582 saved from fewer avoidable imaging studies and hospitalizations

"E-QUAL has helped us engage over 110 EDs that we staff and manage transform their clinical care. It provides structured quality improvement projects that will improve the value of emergency care and has been an important part of our strategy to participate in the QPP."

— Dr. Kevin Klauer, emergency physician and national ED staffing firm CMO

ADVANCING EMERGENCY CARE

American College of Physicians

The ACP SAN has advanced education and implementation of the patient-centered medical neighborhood through the ACP High Value Care Coordination curriculum provided to both TCPI and non-TCPI practices and health systems.

Fifteen PTNS and QIN-QIOs encompassing

22,000+
TCPI practices

Four non-TCPI entities encompassing

80+
non-TCPI practices

Based on learnings from TCPI, ACP launched ACP Advance™, a fee-based service to help practices transform.

ACP Advance™ will provide physician peer-to-peer guidance, coaching and implementation support to help organizations achieve success in Quality Improvement (QI) and HVC initiatives, which will position them to succeed in value-based arrangement.

Leading Internal Medicine, Improving Lives

American College of Radiology

The Radiology Support Communication and Alignment Network (R-SCAN) program results demonstrate the combined efforts between radiologists and referring clinicians engaged in an R-SCAN project are improving the ordering of high-value imaging exams focused on imaging Choosing Wisely recommendations.
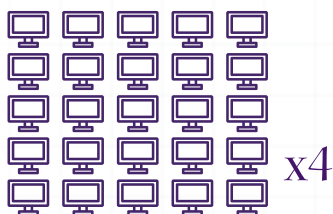

Initial results of **70** practices show ordering of appropriate imaging improved by nearly **22%**
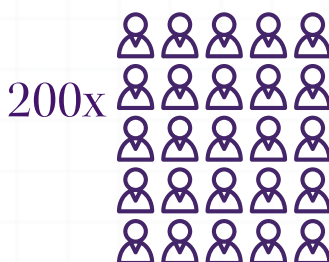

22%

- More than **8,650** cases have been reviewed retrospectively (**4,950** baseline and **4,060** after an educational intervention)

- As of December 2018, R-SCAN:

  - Supported **189** registered projects

  - Engaged **120** radiology practices

 - Recruited over **10,000** clinicians

American Medical Association

In support of TCPI aims, a summary of the AMA's accomplishments in education and outreach to date includes the publication of 16 AMA STEPS Forward™ practice improvement strategy modules. Additionally, as of April 2019:

x4

More than **100** webinars were held

200x

Nearly **5,000** people attended

35%

Approximately 35% indicated that the information provided would prompt a **change to their practice**

AMA
AMERICAN MEDICAL ASSOCIATION

American Psychiatric Association

The APA SAN has trained over **4,500** psychiatrists, primary care providers and mental health professionals in the Collaborative Care Model (CoCM). The CoCM has been shown to:

3,500
psychiatrists
trained

- Increase access to mental health and substance use treatment
- Improve patient outcomes
- Increase patient and provider satisfaction, and
- Save money

They are most proud of the successful outreach to the medical/health care community on the need for integrated care, as well as the heightened awareness within CMS on this issue.

The APA is also proud of the training on the CoCM that we've done—and continue to do—for the next generation of psychiatrists. Through TCPI we've been able to provide the guidance and strategic support to both residents and faculty to be able to implement CoCM education, principles and rotations in residency programs.
