

## AMERICAN MEDICAL ASSOCIATION RESIDENT AND FELLOW SECTION (I-19)

Reference Committee Report

Sophia Yang, MD, MS, Chair

---

1 Your Reference Committee recommends the following consent calendar for acceptance:

### 2 3 **RECOMMENDED FOR ADOPTION**

- 4
- 5 1. Report B—AMA Resident/Fellow Councilor Term Limits
  - 6
  - 7 2. Late Resolution 1—Safe Supervision of Complex Radiation Oncology
  - 8 Therapeutic Procedures
  - 9
  - 10 3. Resolution 10—Removing Sex Designation from the Public Portion of the Birth
  - 11 Certificate
  - 12

### 13 **RECOMMENDED FOR ADOPTION AS AMENDED OR SUBSTITUTED**

- 14
- 15 4. Report A—Matched Medical Students
  - 16
  - 17 5. Resolution 1—Protection of Resident and Fellow Training in the Case of Hospital
  - 18 or Training Program Closure
  - 19
  - 20 6. Resolution 4—Breast Implant-Associated Anaplastic Large Cell Lymphoma
  - 21
  - 22 7. Resolution 5—Resident and Fellow Access to Fertility Preservation
  - 23
  - 24 8. Resolution 6—Establishing Minimum Standards for Parental Leave During
  - 25 Graduate Medical Education Training
  - 26
  - 27 9. Resolution 7—Ensuring Consent for Educational Physical Exams on
  - 28 Anesthetized and Unconscious Patients
  - 29
  - 30 10. Resolution 8—Recognizing the Need to Move Beyond Employer-Sponsored
  - 31 Health Insurance
  - 32
  - 33 11. Resolution 9—E-Cigarette and Vaping Associated Illness
  - 34
  - 35 12. Resolution 11—Studying Physician Supervision of Allied Health Professionals
  - 36 Outside Their Fields of Graduate Medical Education
  - 37
  - 38 13. Resolution 12—Updating Current Wellness Policies and improving
  - 39 Implementation
  - 40

### 41 **RECOMMENDED FOR NOT ADOPTION**

42

- 1 14. Resolution 3—Required Standard of Care Stroke Assessment Training and
- 2 Certification for Acute Care Hospital-Based Physicians and Out-of-Hospital
- 3 Emergency Providers
- 4

1 (1) REPORT B— AMA RESIDENT/FELLOW COUNCILOR  
2 TERM LIMITS  
3

4 RECOMMENDATION:  
5

6 Mr. Speaker, your Reference Committee recommends that  
7 the recommendations in Report B be adopted and the  
8 remainder of the report be filed.  
9

10 **RFS ACTION: Report B adopted and the remainder**  
11 **of the report be filed.**  
12

13 Report B recommends that our AMA amend the AMA “Constitution and Bylaws” by  
14 addition and deletion to shorten the resident and fellow term lengths on AMA Councils  
15 from three to two years. Further, it recommends providing a three-term service eligibility  
16 on the Council on Ethical and Judicial Affairs.  
17

18 Your Reference Committee heard testimony explaining that current three-year term limits  
19 on resident and fellow Council positions disproportionately disadvantages residents with  
20 shorter training periods. While there was concern about effectiveness and longevity,  
21 especially depending on the nature of the Council, it was strongly countered by testimony  
22 supporting standing goals of the Resident and Fellow Section: promotion of leadership  
23 development, section involvement, member engagement and the increase of opportunity  
24 and participation across all specialties. Therefore, your Reference Committee  
25 recommends that Report B be adopted.  
26

27  
28 (2) LATE RESOLUTION 1— SAFE SUPERVISION OF  
29 COMPLEX RADIATION ONCOLOGY THERAPEUTIC  
30 PROCEDURES  
31

32 RECOMMENDATION:  
33

34 Mr. Speaker, your Reference Committee recommends that  
35 Late Resolution 1 be adopted.  
36

37 **RFS ACTION: Late Resolution 1 adopted.**  
38

39 Late Resolution 1 asks that the AMA advocate for the exemption of radiation therapy  
40 services from the Hospital Outpatient Prospective Payment System (HOPPS) rule which  
41 requires only general supervision of hospital therapeutic services. It further asks the  
42 AMA to advocate for the Centers for Medicare and Medicaid (CMS) to require the direct  
43 supervision of radiation therapy services by a physician trained in radiation oncology.  
44 Finally, it asks that this resolution be immediately forwarded to the AMA House of  
45 Delegates at I-19.  
46

47 Your Reference Committee heard generally supportive testimony, especially regarding  
48 the potential risks to patient safety and prospective resident and fellow employment.  
49 Opposition was raised in regard to its urgency, but your Reference Committee believes  
50 the ask is sufficiently compelling and allows for AMA to build coalitions before the July

2020 proposed rule is released. Furthermore, while current AMA policy states that AMA will work with stakeholders to make general supervision, rather than direct supervision, the requirement for Medicare payment for most, but not all, outpatient therapeutic services, radiation therapy could be an exception and require direct supervision. Therefore, your Reference Committee recommends that Late Resolution 1 be adopted.

(3) RESOLUTION 10—REMOVING SEX DESIGNATION  
FROM THE PUBLIC PORTION OF THE BIRTH  
CERTIFICATE

RECOMMENDATION:

Mr. Speaker, your Reference Committee recommends that Resolution 10 be adopted.

**RFS ACTION: Resolution 10 adopted.**

Resolution 10 asks that our AMA-RFS advocate for the removal of “sex” as a designation on the public portion of the birth certificate, and that it be visible for medical and statistical use only.

Testimony was unanimously in support of this resolution and its effort to further existing AMA policies on eliminating health disparities and removing barriers to care. Therefore, your Reference Committee recommends that Resolution 10 be adopted.

(4) REPORT A—MATCHED MEDICAL STUDENTS

RECOMMENDATION A:

Mr. Speaker, your Reference Committee recommends that the recommendations in Report A be amended by addition to read as follows:

Recommendation 4:

Your AMA-RFS Governing Council recommends the following changes to the “American Medical Association Resident and Fellow Section Internal Operating Procedures” by addition as follows:

**E. Credentialing.** The names of the duly selected voting RFS Business Meeting Delegates and Alternate Delegates from each state and specialty society should be received, in writing, by the Director of Resident and Fellow Services of the AMA at least 45 days prior to the start of the Business Meeting. Prior to the start of business on each day of the Business Meeting, credentialing will take place, where each voting member must officially identify themselves to the Credentials Committee as having been duly selected to represent their state society, specialty society, or branch of the armed services. Those being credentialed must be (i) members of the RFS or (ii) medical students with AMA membership who have secured a residency position, signed a contract, and will be starting residency within 45 days of the Business Meeting and have secured an endorsement from a representative organization.

1. Registered RFS members or medical students with AMA membership who have secured a residency position, signed a contract, and will be starting residency within 45 days whose clinical responsibilities and travel arrangements require them to arrive during a day's business but after the close of credentialing may, at least four weeks prior to the Business Meeting, petition the Governing Council to be allowed to credential late for the meeting. The decision to allow an RFS member to credential late will be made by majority vote of the Speaker, Vice Speaker, Delegate, Alternate Delegate, and Chair of the Rules Committee with such vote being communicated to the RFS member and the Credentialing Committee, in writing, at least two weeks prior to the start of the meeting.
2. Previously registered RFS members who miss credentialing due to unforeseeable travel delays may, on a case-by-case basis, be allowed to credential late for that day's business. This would be determined by a majority vote of the Speaker, Vice Speaker, and Chair of the Rules Committee, and communicated to the RFS member and the remainder of the Credentialing Committee.
3. Only credentialed RFS ~~members~~ delegates present in the Business Meeting room may vote on items of business being considered.

RECOMMENDATION B:

Mr. Speaker, your Reference Committee recommends that Report A be adopted as amended and the remainder of the Report be filed.

**RFS ACTION: Report A adopted as amended and the remainder of the report be filed.**

Report A addresses the fact that during the section-wide effort to update and consolidate the RFS Internal Operating Procedures (IOPs), 4<sup>th</sup> year matched medical students were inadvertently excluded from participation in the AMA-RFS Annual Meeting despite them becoming part of the core constituency of the RFS within a matter of weeks. It recommends revising language within certain sections of the IOPs to rectify the issue, including elections, at-large representation, and participation.

Your Reference Committee heard limited but favorable testimony with a friendly amendment from the authors to fully rectify the oversight in the first iteration of the IOP changes to allow for the credentialing of 4<sup>th</sup> year medical students that have matched and start residency within 45 days of the business meeting. Therefore, your Reference Committee recommends Report A be adopted as amended.

(5) RESOLUTION 1— PROTECTION OF RESIDENT AND  
FELLOW TRAINING IN THE CASE OF HOSPITAL OR  
TRAINING PROGRAM CLOSURE

RECOMMENDATION A:

Mr. Speaker, your Reference Committee recommends that  
the first Resolve be amended by addition and deletion to  
read as follows:

RESOLVED, That our AMA study and provide recommendations on how the  
process of assisting orphaned ~~trainees~~ residents and fellows could be improved in  
the case of training hospital or training program closure, including:

- 1) The current processes by which a displaced resident or fellow may seek and  
secure an alternative training position; and
- 2) How CMS and other additional or supplemental GME funding is re-distributed,  
including but not limited to:
  - a. The direct or indirect classification of ~~trainees~~ residents and fellows as  
financial assets and the implications thereof; and
  - b. Transfer of ~~full versus partial funding for training positions between~~  
institutions and the subsequent impact on trainee resident and fellow  
funding lines in the event of closure; and ~~be it further~~
  - c. Transfer of full versus partial funding for new training positions; and ~~be~~  
~~it further~~
  - d. Transfer of funding for orphaned ~~trainees~~ residents and fellows who  
switch specialties; and be it further

RECOMMENDATION B:

Mr. Speaker, your Reference Committee recommends that  
the second Resolve be amended by addition and deletion to  
read as follows:

RESOLVED, That our AMA work with the Centers for Medicare and Medicaid  
Services (CMS) to establish regulations which protect ~~trainees~~ residents and  
fellows impacted by program or hospital closure which may include  
recommendations for:

- 1) Notice by the training hospital, intending to file for bankruptcy within 30  
days, to all residents and fellows ~~trainees~~ primarily associated with the  
training hospital, as well as those who contractually matched at that training  
institution who may not yet have matriculated, of its intention to close, along  
with provision of reasonable and appropriate procedures to assist current  
and matched ~~trainees~~ residents and fellows to find and obtain alternative  
training positions which minimize undue financial and professional  
consequences, including but not limited to maintenance of specialty choice,  
length of training, initial expected time of graduation, location and  
reallocation of funding, and coverage of tail medical malpractice insurance  
that would have been offered had the program or hospital not closed.

- 2) Revision of the current CMS guidelines that may prohibit transfer of funding prior to formal financial closure of a teaching institution.
- 3) Improved provisions regarding transfer of GME funding for displaced residents and fellows for the duration of their training in the event of program closure at a training institution; and be it further
- 4) Protections against discrimination of orphaned residents and fellows consistent with H-295.969.

#### RECOMMENDATION C:

Mr. Speaker, your Reference Committee recommends that the third Resolve be amended by addition and deletion to read as follows:

RESOLVED, That our AMA work with the Accreditation Council for Graduate Medical Education, Association of American Medical Colleges, National Resident Matching Program, Educational Commission for Foreign Medical Graduates, the Centers for Medicare and Medicaid Services and other relevant stakeholders to identify a process by which ~~trainees in orphaned residencies~~ residents and fellows may be directly represented in proceedings surrounding the closure of a training hospital or program; and be it further

#### RECOMMENDATION D:

Mr. Speaker, your Reference Committee recommends that a new fourth Resolve be amended by addition to read as follows:

RESOLVED, That our AMA work with the Accreditation Council for Graduate Medical Education, Association of American Medical Colleges, National Resident Matching Program, Educational Commission for Foreign Medical Graduates, the Centers for Medicare and Medicaid Services, and other relevant stakeholders to

- 1) Develop a stepwise algorithm for designated institutional officials and program directors to assist residents and fellows with finding and obtaining alternative training positions;
- 2) Create a centralized, regulated process for orphaned residents and fellows to obtain new training positions; and be if further

--

#### RECOMMENDATION E:

Mr. Speaker, your Reference Committee recommends that Resolution 1 be adopted as amended.

#### **RFS ACTION: Resolution 1 adopted as amended.**

Resolution 1 asks that our AMA-RFS support that the AMA create a speaker-appointed task force to re-examine election rules and logistics including regarding social media, emails, mailers, receptions and parties, ability of candidates from smaller delegations to compete, balloting electronically, and timing within the meeting, and to report back

1 recommendations regarding election processes and procedures to accommodate  
2 improvements to allow delegates to focus their efforts and time on policy-making. It  
3 further asks that Resolution 1 be immediately forwarded to the House of Delegates at I-  
4 19.

5  
6 Testimony was unanimously supportive and multiple friendly amendments were provided  
7 in order to further protect residents and fellows in the event of a hospital or training  
8 program closure. Concerns were raised about tail medical malpractice, but the above  
9 amendment addresses the issue. Additional testimony was offered noting other  
10 concerns that may arise during the closure of a residency or fellowship training program  
11 such as relocation difficulties, financial challenges and patient access medical records.  
12 While your Reference Committee believes these are concerning and important, it feels  
13 they would be better addressed in subsequent resolutions. Therefore, your Reference  
14 Committee recommends that Resolution 1 be adopted as amended.

15  
16 (6) RESOLUTION 4—BREAST IMPLANT-ASSOCIATED  
17 ANAPLASTIC LARGE CELL LYMPHOMA

18  
19 RECOMMENDATION:

20  
21 Mr. Speaker, your Reference Committee recommends that  
22 Policy H-55.97 be adopted as amended in lieu of Resolution  
23 4 to read as follows:

24  
25 Our AMA: (1) believes that reconstruction of the breast for post-treatment  
26 rehabilitation of patients with in situ breast neoplasms, ~~or~~ invasive breast  
27 neoplasms, or breast implant associated cancers should be considered  
28 reconstructive surgery rather than aesthetic surgery; (2) supports education for  
29 physicians and breast cancer patients on breast reconstruction and its  
30 availability; (3) recommends that third party payers provide coverage and  
31 reimbursement for medically necessary breast cancer and breast implant  
32 associated cancer treatments including but not limited to prophylactic  
33 contralateral mastectomy and/or salpingo-oophorectomy; and (4) recognizes the  
34 validity of contralateral breast procedures needed for the achievement of  
35 symmetry in size and shape, and urges recognition of these ancillary procedures  
36 by Medicare and all other third parties for reimbursement when documentation of  
37 medical necessity is provided.

38  
39 **RFS ACTION: Resolution 4 adopted as amended**  
40 **with change in title.**

41  
42 **Implant-Associated Anaplastic Large Cell Lymphoma**

43  
44 Resolution 4 is a resubmission from the 2019 RFS Annual Meeting. Resolution 4 asks  
45 our AMA to support appropriate coverage of cancer diagnosis, treating surgery and other  
46 adjuvant treatment options for breast implant associated anaplastic large cell  
47 lymphoma. The A-19 Reference Committee recommended not adopting the resolution  
48 due to existing policy H-55.973, stating that “third party payers provide coverage and  
49 reimbursement for medically necessary breast cancer treatments...” and felt that this

1 existing policy sufficiently covered the intent of this resolution as well as unforeseen new  
2 rare breast cancers.

3  
4 Your Reference Committee heard clarifying testimony indicating that the intent was to  
5 address lymphoma in the breast tissue, not breast cancer, and therefore is not covered  
6 by the existing policy. Your Reference Committee heard limited but mixed testimony with  
7 support from the Society of Plastic Surgery but with concern about its limited scope.  
8 Your Reference committee understands the author's concerns and feels that amending  
9 the existing policy HOD policy H-55.97 to include any sequelae of breast surgery should  
10 adequately addresses and encompasses this issue.

11  
12 (7) RESOLUTION 5—RESIDENT AND FELLOW ACCESS  
13 TO FERTILITY PRESERVATION

14  
15 RECOMMENDATION A:

16  
17 Mr. Speaker, your Reference Committee recommends that  
18 the Resolution 5 be amended by addition and deletion to  
19 read as follows:

20  
21 RESOLVED, That our AMA support education for residents  
22 and fellows regarding the natural course of female fertility in  
23 relation to the timing of medical education, and the option of  
24 fertility preservation and infertility treatment; and be it further

25 RESOLVED, That our AMA ~~encourage~~ advocate inclusion of insurance coverage  
26 for fertility preservation and infertility treatment within health insurance benefits  
27 for residents and fellows offered through graduate medical education programs;  
28 and be it further

29 RESOLVED, That our AMA support the accommodation of residents and fellows  
30 who elect to pursue fertility preservation and infertility treatment, including the  
31 need to attend medical visits to complete the oocyte preservation process and to  
32 administer medications in a time-sensitive fashion.

33 RECOMMENDATION B:

34  
35 Mr. Speaker, your Reference Committee recommends that  
36 be adopted as amended.

37  
38 **RFS ACTION: Resolution 5 adopted as amended.**

39  
40 Resolution 5 asks our AMA to support education for residents and fellows regarding the  
41 natural course of female fertility and the option of fertility preservation. It additionally  
42 asks our AMA to encourage inclusion of insurance coverage for this option through GME  
43 programs as well as supporting the accommodation of those who elect to pursue such  
44 treatment.

45  
46 Testimony was overwhelmingly supportive of the need to educate residents regarding  
47 infertility treatment and the options of fertility preservation. It was also noted that there is

precedent of companies providing similar benefits to their employees as well as specific examples of residency programs that already support this. Further testimony suggested the inclusion of medical students; however, resident insurance is covered as an employee benefit. Concern was also raised regarding potential undue pressure on residents and fellows to delay having a child while in training; however, your Reference Committee believes the benefits of coverage outweigh this risk.

(8) RESOLUTION 6—ESTABLISHING MINIMUM  
STANDARDS FOR PARENTAL LEAVE DURING  
GRADUATE MEDICAL EDUCATION TRAINING

RECOMMENDATION A:

Mr. Speaker, your Reference Committee recommends that the first and second Resolves be amended by addition and deletion to read as follows:

RESOLVED, That our AMA support current efforts by the ACGME, American Board of Medical Specialties (ABMS), and other relevant stakeholders to develop and implement minimum requirements for parental leave during residency and fellowship training and urge these bodies to adopt minimum requirements in accordance with policy H 405.960; and be it further

Resolved, That our AMA petition ACGME to recommend strategies to prevent undue burden on trainees related to parental leave.

RESOLVED, That our AMA petition the ACGME and the, ABMS, and other relevant stakeholders to develop specialty specific pathways for residents and fellows trainees in good standing, who take maximum allowable parental leave, to complete their residency or fellowship training within the original time frame.

RECOMMENDATION B:

Mr. Speaker, your Reference Committee recommends that Resolution 6 be adopted as amended.

**RFS ACTION: Resolution 6 adopted as amended.**

Resolution 6 asks our AMA to petition ACGME and ABMS to develop and align minimum requirements for parental leave as well as pathways for trainees in good standing, who take maximum allowable parental leave to complete their residency or fellowship training within the original time frame.

Testimony was overwhelmingly supportive on Resolution 6. Concern was raised regarding minimum leave disparities across specialties and among non-accredited training programs. While testimony suggested holding trainees to the same time-off standards as is proffered to patients, your Reference Committee was unable to locate consistent, credible published guidelines. Your Reference Committee also wishes to

1 note that policy H-405.960 comprehensively addresses the issue of parental leave;  
2 however the author indicated the intent of this resolution is to generate impactful  
3 progress since no substantive change has been achieved. Your Reference Committee  
4 recommends asking for further action on existing policy H-405.960 and that Resolution 6  
5 be adopted as amended.

6  
7 (9) RESOLUTION 7—ENSURING CONSENT FOR  
8 EDUCATIONAL PHYSICAL EXAMS ON ANESTHETIZED  
9 AND UNCONSCIOUS PATIENTS

10  
11 RECOMMENDATION A:

12  
13 Mr. Speaker, your Reference Committee recommends that  
14 the first Resolve be amended by addition and deletion to  
15 read as follows:

16  
17 RESOLVED, That our AMA supports physical exams under anesthesia that are  
18 1) performed only by members of the patient care team, which may include  
19 learners 2) performed after obtaining informed consent, and 3) relevant to the  
20 procedure.

21  
22 RECOMMENDATION B:

23  
24 Mr. Speaker, your Reference Committee recommends that  
25 the second Resolve be amended by deletion to read as  
26 follows:

27  
28 ~~RESOLVED, That our AMA encourage institutions to review alignment of their 44~~  
29 ~~current practices with published guidelines, recommendations, and policies with~~  
30 ~~45 respect to informing patients about educational physical exams performed~~  
31 ~~under 46 anesthesia or when unconscious and obtaining explicit informed~~  
32 ~~consent to do 47 so; and be it further~~

33  
34 RECOMMENDATION C:

35  
36 Mr. Speaker, your Reference Committee recommends that  
37 a new fourth Resolve be amended by addition to read as  
38 follows:

39  
40 RESOLVED, That our AMA strongly oppose issuing blanket bans on student  
41 participation in educational physical exams; and be it further

42  
43 RECOMMENDATION D:

44  
45 Mr. Speaker, your Reference Committee recommends that  
46 Resolution 7 be adopted as amended.

47 **RFS ACTION: Resolution 7 adopted as amended.**  
48

1 Resolution 7 asks our AMA to oppose performing educational pelvic, genitourinary, or  
2 rectal exams on unconscious patients or those under anesthesia without prior explicit  
3 informed consent; to encourage institutions to review alignment with their current practices  
4 with published guidelines, recommendations and policies with respect to these exams;  
5 and reaffirm policy H-320.951.

6  
7 Your Reference Committee heard limited mixed testimony regarding this resolution.  
8 While some was in support of the spirit of the resolution, there was concern voiced  
9 regarding the unintentional prohibition of examinations by medical students.  
10 Furthermore, specific concern was raised regarding recent laws and publicity around the  
11 issue of blanket bans being imposed in some hospitals. Amendments offered by these  
12 speakers and in the online forum were incorporated in the aforementioned  
13 recommendations. As such, your Reference Committee recommends that Resolution 7  
14 be adopted as amended.

15  
16 (10) RESOLUTION 8— RECOGNIZING THE NEED TO  
17 MOVE BEYOND EMPLOYER-SPONSORED HEALTH  
18 INSURANCE

19  
20 RECOMMENDATION A:

21  
22 Mr. Speaker, your Reference Committee recommends that  
23 Resolution 8 be amended by addition to read as follows:

24 RESOLVED, That our AMA recognizes the importance of providing avenues for  
25 affordable health insurance coverage and health care access to patients who do  
26 not have employer-sponsored health insurance, or for whom employer-  
27 sponsored health insurance does not meet their needs; and be it further

28 RESOLVED, That our AMA recognizes that a significant and increasing  
29 proportion of patients are unable to meet their health insurance or health care  
30 access needs through employer-sponsored health insurance, and that these  
31 patients must be considered in the course of ongoing efforts to reform the  
32 healthcare system in pursuit of universal health insurance coverage and health  
33 care access.

34 RECOMMENDATION B:

35  
36 Mr. Speaker, your Reference Committee recommends that  
37 the Resolution 8 be adopted as amended.

38  
39 **RFS ACTION: Resolution 8 adopted as amended.**

40  
41 Resolution 8 asks our AMA to recognize the importance of providing avenues for  
42 affordable health insurance coverage and health care access to patients who do not have  
43 employer-sponsored health insurance or for whom it does not meet their needs.  
44 Additionally, it asks our to AMA consider these patients in the course of ongoing efforts to  
45 reform the healthcare system in pursuit of universal coverage and access.

1 Your Reference Committee heard limited testimony in favor of this resolution. Supportive  
2 testimony recognized the fact that employee-sponsored health insurance does not  
3 adequately cover a significant portion of the population. Testimony in opposition  
4 expressed that the AMA is already actively advocating on this issue to expand coverage  
5 via the Health Insurance Marketplace instituted by the Affordable Care Act. As such,  
6 your Reference Committee felt it was in the best interest of our AMA to refrain from  
7 inhibiting ongoing efforts and to instead amend this resolution as an RFS internal  
8 position statement.

9 (11) RESOLUTION 9— E-CIGARETTE AND VAPING  
10 ASSOCIATED ILLNESS

11  
12 RECOMMENDATION A:

13  
14 Mr. Speaker, your Reference Committee recommends that  
15 Resolution 9 be amended by addition and deletion to read  
16 as follows:

17 RESOLVED, That our AMA advocate for diagnostic coding systems including the  
18 ICD codes to have a mechanism to release emergency codes for emergent  
19 diseases; and be it further

20 RESOLVED, That our AMA advocate for creation and release of ~~the addition of~~  
21 ICD-10-CM codes to include appropriate diagnosis codes for both the use of and  
22 toxicity related to e-cigarettes and vaping, including pulmonary toxicity; and be it  
23 further

24 ~~RESOLVED, That our AMA supports banning flavored e-cigarettes products; and~~  
25 ~~be it further~~

26 RESOLVED, That this resolution be immediately forwarded to the House of  
27 Delegates at I-19.

28  
29 RECOMMENDATION B:

30  
31 Mr. Speaker, your Reference Committee recommends that  
32 Resolution 9 be adopted as amended.

33  
34 **RFS ACTION: Resolution 9 adopted as amended.**

35  
36 Resolution 9 asks that our AMA advocate for the addition of ICD-10-CM codes to include  
37 appropriate diagnosis codes for both the use of and toxicity related to e-cigarettes and  
38 vaping, including pulmonary toxicity, support banning flavored e-cigarette products and  
39 immediately forward it to the House of Delegates at I-19.

40  
41 Your Reference Committee heard strong supportive testimony in favor of Resolution 9,  
42 including support from the American Academy of Family Physicians and the American  
43 Thoracic Society. Your Committee believes this is a very timely resolution as evidenced  
44 by several resolutions under consideration in the HOD at this meeting. However, it

1 wishes to note that none of them address coding making this a distinctive and relevant  
2 supplement to the discussion. An amendment was proffered to include ICD 11 in the ask  
3 since it is currently in process, however, your Reference Committee feels that for the  
4 sake of posterity it should be limited in scope to current ICD codes. Some testimony  
5 touched on the lack of code issuance for emergent diseases, and therefore an  
6 amendment was added to address the emergent release of new codes. Finally, existing  
7 AMA policy H-495.971 sufficiently addresses the ban on flavoring.  
8

9 (12) RESOLUTION 11— STUDYING PHYSICIAN  
10 SUPERVISION OF ALLIED HEALTH PROFESSIONALS  
11 OUTSIDE OF THEIR FIELDS OF GRADUATE MEDICAL  
12 EDUCATION  
13

14 RECOMMENDATION A:

15  
16 Mr. Speaker, your Reference Committee recommends that  
17 Resolution 11 be amended by addition and deletion to read  
18 as follows:  
19

20 RESOLVED, That our AMA conduct ~~support~~ a systematic study to collect and  
21 analyze publicly available physician supervision data from all sources to  
22 determine how many allied health professionals are being supervised by  
23 physicians in fields which are not a core part of those physicians' completed  
24 residencies and fellowships.  
25

26 RECOMMENDATION B:

27  
28 Mr. Speaker, your Reference Committee recommends that  
29 Resolution 11 adopted as amended.  
30

31 **RFS ACTION: Resolution 11 adopted as amended.**  
32

33 Resolution 11 asks our AMA to support a systematic study to collect and analyze publicly  
34 available physician supervision data from all sources to determine how many allied health  
35 professionals are being supervised by physicians in the field which are not a core part of  
36 those physicians' completed residencies and fellowships.  
37

38 Your Reference Committee heard limited mixed testimony. A friendly amendment was  
39 offered to strengthen the resolution's ask from "support" to "conduct" and request a  
40 directive to action. Testimony also noted that studies already exist under H-35.966.  
41 Therefore, your Reference Committee recommends that Resolution 11 be adopted as  
42 amended.  
43

1 (13) RESOLUTION 12—UPDATING CURRENT  
2 WELLNESS POLICIES AND IMPROVING  
3 IMPLEMENTATION  
4

5 RECOMMENDATION A:  
6

7 Mr. Speaker, your Reference Committee recommends that  
8 Alternate Resolution 12 be adopted in lieu of Resolution 12.  
9

10 ~~RESOLVED, that our AMA work in conjunction with ACGME to review recent~~  
11 ~~data supporting burnout prevention and mitigation strategies and work with~~  
12 ~~ACGME in the amendment of the current Common Program Requirements policy~~  
13 ~~to more specifically define wellness strategies and support implementation of~~  
14 ~~these data-supported burnout prevention and mitigation strategies.~~  
15

16 RESOLVED, that our AMA work with the ACGME and other appropriate  
17 stakeholders in the creation of an evidence-based best practices reference to  
18 address trainee burnout prevention and mitigation.  
19

20 RECOMMENDATION B:  
21

22 Mr. Speaker, your Reference Committee recommends that  
23 Alternate Resolution 12 be adopted.  
24

25 **RFS ACTION: Alternate Resolution 12 Adopted in**  
26 **Lieu of Resolution 12.**  
27

28 Resolution 12 calls upon our AMA to work in conjunction with ACGME to review recent  
29 data supporting burnout prevention and mitigation strategies and on the amendment of  
30 the current Common Program Requirements policy to more specifically define wellness  
31 strategies and support implementation of these data-supported burnout prevention and  
32 mitigation strategies.  
33

34 Your Reference Committee heard strong supportive testimony with concern regarding  
35 current and extensive AMA work and strategies to mitigate resident and fellow burnout  
36 as well as the fact that it doesn't address the systemic causes behind burnout; however,  
37 your Reference Committee felt that the latter was outside the scope of this resolution.  
38 The authors addressed the former in their proffered amendment by asking that our AMA  
39 work with ACGME and other relevant stakeholders to create evidence-based, tangible  
40 best practices. Therefore, your Reference Committee recommends that Alternate  
41 Resolution 12 be adopted in lieu of Resolution 12.  
42

43 (14) RESOLUTION 3—REQUIRED STANDARD OF  
44 CARE STROKE ASSESSMENT TRAINING AND  
45 CERTIFICATION FOR ACUTE CARE HOSPITAL-BASED  
46 PHYSICIANS AND OUT-OF-HOSPITAL EMERGENCY  
47 PROVIDERS  
48

1 RECOMMENDATION:

2  
3 Mr. Speaker, your Reference Committee recommends that  
4 Resolution 3 not be adopted.

5  
6 **RFS ACTION: Resolution 3 not adopted.**

7  
8 Resolution 3 asks our AMA to advocate for greater education of stroke recognition and  
9 standard of care stroke assessment scoring for acute care hospital-based physicians,  
10 including trainees, and out-of-hospital emergency medical providers to allow for rapid  
11 diagnosis and appropriate treatment of acute ischemic stroke. It further asks that our  
12 AMA support inclusion of standard of care stroke recognition and assessment training  
13 during hospital on-boarding.

14  
15 Your Reference Committee heard extensive oppositional testimony on this resolution  
16 including objection on the grounds of CME's opposition to educational mandates, scope  
17 of practice, and subtle signs of stroke for which the NIHSS is not validated (i.e. pediatric  
18 patients or posterior circulation stroke). In addition, there was concern for adding merit  
19 badges for physicians already trained in stroke recognition and treatment regulated by  
20 their specialty board. Finally, it was noted that there the inherent lack of communication  
21 between the specialty societies that would be greatly affected by this mandate and as  
22 such, set a poor precedent for similar specialty-specific educational mandates proposed  
23 as in future resolutions.

- 1 Mr. Speaker, this concludes the Resident and Fellow Section Reference Committee
- 2 Report. I would like to thank Gunjan Malhotra, MD, Karina Sanchez, MD, Benjamin Bush,
- 3 MD, Jade Anderson, MD, and all those who testified before the Committee.
