

## AMA Nomination Opportunities for Medical Education Organizations

The AMA invites interested and qualified AMA members to apply for nomination for important leadership positions in key medical education organizations. The physicians selected to serve by these organizations demonstrate deep knowledge and passion for the practice of medicine and their specialty.

The AMA nominates AMA member candidates to these organizations; the organizations make the final appointment decisions.

*Timeline of AMA Nomination Decision* – Approximately 4 months from AMA application deadline to AMA nomination decision.

*Timeline of Organization Appointment Decision* – Varies by organization.

Interested individuals are encouraged to submit their contact information and opportunity(ies) of interest to Mary Grandau, Program Administrator for AMA Council on Medical Education, [mary.grandau@ama-assn.org](mailto:mary.grandau@ama-assn.org), to be notified when the opportunities are announced. Please feel free to contact Ms. Grandau with any questions.

AMA membership is required for consideration for AMA nomination, and if appointed, nominees must maintain AMA member status throughout the term of appointment. AMA membership does not guarantee a position. Since AMA membership is a requirement, eligible candidates who are not members are encouraged to join in order to be considered for nomination.

Following are anticipated opportunities through 2021. Please note that opportunities and timeframes are subject to change. Current AMA nomination opportunities for medical education organizations can also be found online on the [AMA Medical Education Leadership Opportunities](#) page.
