

REPORT OF THE COUNCIL ON MEDICAL SERVICE

CMS Report 01-JUN-21

Subject: Council on Medical Service’s Sunset Review of 2011 House Policies

Presented by: Lynda M. Young, MD, Chair

Referred to: Reference Committee G

---

- 1 Policy G-600.110, “Sunset Mechanism for AMA Policy,” calls for the decennial review of  
2 American Medical Association (AMA) policies to ensure that our AMA’s policy database is  
3 current, coherent, and relevant. Policy G-600.010 reads as follows, laying out the parameters for  
4 review and specifying the procedures to follow:  
5
- 6 1. As the House of Delegates adopts policies, a maximum ten-year time horizon shall exist. A  
7 policy will typically sunset after ten years unless action is taken by the House of Delegates to  
8 retain it. Any action of our AMA House that reaffirms or amends an existing policy position  
9 shall reset the sunset “clock,” making the reaffirmed or amended policy viable for another ten  
10 years.  
11
  - 12 2. In the implementation and ongoing operation of our AMA policy sunset mechanism, the  
13 following procedures shall be followed: (a) Each year, the Speakers shall provide a list of  
14 policies that are subject to review under the policy sunset mechanism; (b) Such policies shall  
15 be assigned to the appropriate AMA councils for review; (c) Each AMA council that has been  
16 asked to review policies shall develop and submit a report to the House of Delegates  
17 identifying policies that are scheduled to sunset; (d) For each policy under review, the  
18 reviewing council can recommend one of the following actions: (i) retain the policy; (ii) sunset  
19 the policy; (iii) retain part of the policy; or (iv) reconcile the policy with more recent and like  
20 policy; (e) For each recommendation that it makes to retain a policy in any fashion, the  
21 reviewing council shall provide a succinct, but cogent justification (f) The Speakers shall  
22 determine the best way for the House of Delegates to handle the sunset reports.  
23
  - 24 3. Nothing in this policy shall prohibit a report to the HOD or resolution to sunset a policy earlier  
25 than its ten-year horizon if it is no longer relevant, has been superseded by a more current  
26 policy, or has been accomplished.  
27
  - 28 4. The AMA councils and the House of Delegates should conform to the following guidelines for  
29 sunset: (a) when a policy is no longer relevant or necessary; (b) when a policy or directive has  
30 been accomplished; or (c) when the policy or directive is part of an established AMA practice  
31 that is transparent to the House and codified elsewhere such as the AMA Bylaws or the AMA  
32 House of Delegates Reference Manual: Procedures, Policies and Practices.  
33
  - 34 5. The most recent policy shall be deemed to supersede contradictory past AMA policies.  
35
  - 36 6. Sunset policies will be retained in the AMA historical archives.

1 RECOMMENDATION

3 The Council on Medical Service recommends that the House of Delegates policies that are listed in  
 4 the appendix to this report be acted upon in the manner indicated and the remainder of this report  
 5 be filed.

APPENDIX – Recommended Actions

Policy #	Title	Text	Recommendation
D-125.992	Opposition to Prescription Prior Approval	Our AMA will urge public and private payers who use prior authorization programs for prescription drugs to minimize administrative burdens on prescribing physicians. (Sub. Res. 529, A-05; Reaffirmation A-06; Reaffirmation A-08; Reaffirmed in lieu of Res. 822, I-11)	Retain. Still relevant.
D-165.985	Evolving Internet-Based Health Insurance Marts	Our AMA will continue to monitor the evolution of the Internet-based health benefits industry and report to the House of Delegates on important developments. (CMS Rep. 5, A-01; Reaffirmed: CMS Rep. 7, A-11)	Rescind. Superseded by Policy <a href="#">H-165.839</a> , which states:  1. Our American Medical Association adopts the following principles for the operation of health insurance exchanges: A) Health insurance exchanges should maximize health plan choice for individuals and families purchasing coverage. Health plans participating in the exchange should provide an array of choices, in terms of benefits covered, cost-sharing levels, and other features. B) Any benefits standards implemented for plans participating in the exchange and/or to determine minimum creditable coverage for an individual mandate should be designed with input from patients and actively practicing physicians. C) Physician and patient decisions should drive the treatment of individual patients. D) Actively practicing physicians should be significantly involved in the development of any regulations addressing physician payment and practice in the exchange environment, which would include any regulations addressing physician payment by participating public, private or non-profit health insurance options.

Policy #	Title	Text	Recommendation
			<p>E) Regulations addressing physician participation in public, private or non-profit health insurance options in the exchange that impact physician practice should ensure reasonable implementation timeframes, with adequate support available to assist physicians with the implementation process.</p> <p>F) Any necessary federal authority or oversight of health insurance exchanges must respect the role of state insurance commissioners with regard to ensuring consumer protections such as grievance procedures, external review, and oversight of agent practices, training and conduct, as well as physician protections including state prompt pay laws, protections against health plan insolvency, and fair marketing practices.</p> <p>2. Our AMA: (A) supports using the open marketplace model for any health insurance exchange, with strong patient and physician protections in place, to increase competition and maximize patient choice of health plans, (B) will advocate for the inclusion of actively practicing physicians and patients in health insurance exchange governing structures and against the categorical exclusion of physicians based on conflict of interest provisions; (C) supports the involvement of state medical associations in the legislative and regulatory processes concerning state health insurance exchanges; and (D) will advocate that health insurance exchanges address patient churning between health plans by developing systems that allow for real-time patient eligibility information.</p>
D-385.960	Appropriate Payments for Vaccine Price Increases	Our AMA will work with national specialty societies to educate physicians to include language in their health insurer contracts to provide for regular updating of vaccine prices and payment levels, which should include	Retain. 		real-time adjustments in vaccine pricing. (Res. 807, I-11)	
D-390.958	The Impact of National Physician Payment Reductions on the National Unemployment Rate	Our AMA will expand its previous studies on the economic impact on the medical practice for the purpose of developing data on the negative economic impact on physician practice employees and communities of incremental SGR cuts and will include in future communications with the US Congress, other stakeholders, and the American people, data-driven information on the national economic impact, including the impact from potential loss of employment of medical practice employees and others, due to payment decreases for physician practices. (Res. 218, I-11)	Rescind. The SGR was repealed in 2015. Moreover, the AMA regularly conducts economic analyses that inform AMA advocacy on behalf of physician practices, including a <a href="#">COVID-19 Physician Practice Financial Impact Survey</a> and <a href="#">Changes in Medicare Physician Spending During the COVID-19 Pandemic</a> .
D-400.991	CPT Modifiers	<p>(1) Our AMA will continue to actively collect information, through existing processes, including the semi-annual study of non-Medicare use of the Medicare RBRVS conducted by the AMA Department of Physician Payment Policy and Systems and the recently unveiled AMA Private Sector Advocacy (PSA) Health Plan Complaint Form, and solicit input and assistance in this data collection from other interested members of the Federation on the acceptance of CPT modifiers by third party payers.</p> <p>(2) Pertinent information collected by our AMA through existing methods and collected through the AMA PSA Health Plan Complaint Form about acceptance of CPT modifiers by third party payers be shared with applicable state, county and national medical specialty societies in order to promote a greater understanding of third party payer payment policies related to CPT modifiers.</p> <p>(3) Our AMA use the available information to engage in discussions with payers.</p> <p>(4) Aggregate information collected through existing methods and collected through the AMA PSA Health Plan Complaint Form on acceptance for payment of CPT modifiers by third party payers be disseminated to state and federal regulators and legislators. (Sub. Res. 808, I-01; Modified: CMS Rep. 7, A-11)</p>	<p>Rescind. Superseded by Policy <a href="#">D-70.971</a> which states:</p> <p>(1) Our AMA Private Sector Advocacy Group will continue to collect information on the use and acceptance of CPT modifiers, particularly modifier -25, and that it continue to advocate for the acceptance of modifiers and the appropriate alteration of payment based on CPT modifiers.</p> <p>(2) The CPT Editorial Panel in coordination with the CPT/HCPAC Advisory Committee will continue to monitor the use and acceptance of CPT Modifiers by all payers and work to improve coding methods as appropriate.</p> <p>(3) Our AMA will collect information on the use and acceptance of modifier -25 among state Medicaid plans and use this information to advocate for consistent acceptance and appropriate payment adjustment for modifier -25 across all Medicaid plans.</p> <p>(4) Our AMA will encourage physicians to pursue, in their negotiations with third party payers, contract provisions that will require such payers to adhere to CPT rules concerning modifiers.</p> <p>(5) Our AMA will include in its model managed care contract, provisions that will require</p>

Policy #	Title	Text	Recommendation
			<p>managed care plans to adhere to CPT rules concerning modifiers.</p> <p>(6) Our AMA will continue to educate physicians on the appropriate use of CPT rules concerning modifiers.</p> <p>(7) Our AMA will actively work with third party payers to encourage their disclosure to physician providers any exceptions by those payers to CPT guidelines, rules and conventions.</p> <p>(8) Our AMA will include in CPT educational publications (i.e. CPT Assistant) examples of commonly encountered situations where the -25 modifier would and would not apply.</p>
D-400.994	Conscious Sedation	<p>Our AMA will support the efforts of the CPT Editorial Panel and the AMA/Specialty Society RVS Update Committee (RUC) as they review the coding and valuation issues related to procedures that are performed using moderate sedation/analgesia (i.e., “conscious sedation”). (Res. 107, A-01; Reaffirmed: CMS Rep. 7, A-11)</p>	<p>Rescind. Directive accomplished. New CPT codes for moderate sedation were implemented and RUC recommendations were adopted by CMS in 2017.</p>
D-435.996	Malpractice Insurance Rate Increases and Physician Reimbursement	<p>Our AMA will: (1) call upon the CMS to use current data in calculating the malpractice insurance portion of the Resource-Based Relative Value Scale and that this calculation take into account inter-specialty and geographic variances; and (2) study the calculated malpractice insurance portion of the RBRVS to determine the effect increasing malpractice insurance costs have on physician reimbursement. (Res. 109, A-01; Reaffirmed: CMS Rep. 7, A-11)</p>	<p>Retain. Still relevant.</p>
D-70.983	Inappropriate Bundling of Medical Services by Third Party Payers	<p>Our AMA will: (1) continue to promote its Private Sector Advocacy activities and initiatives associated with the collection of information on third party payer modifier acceptance and inappropriate bundling practices; (2) use the data collected as part of its Private Sector Advocacy information clearinghouse to work, in a legally appropriate manner, with interested state medical associations and national medical specialty societies to identify and address inappropriate third party payer coding and reimbursement practices, including inappropriate</p>	<p>Retain. Still relevant.</p>

		<p>bundling of services, rejection of CPT modifiers, and denial and delay of payment;</p> <p>(3) continue to monitor the class action lawsuits of state medical associations, and provide supportive legal and technical resources, as appropriate;</p> <p>(4) develop model state legislation to prohibit third party payers from bundling services inappropriately by encompassing individually coded services under other separately coded services unless specifically addressed in CPT guidelines, or unless a physician has been specifically advised of such bundling practices at the time of entering into a contractual agreement with the physician;</p> <p>(5) urge state medical associations to advocate the introduction and enactment of AMA model state legislation on claims bundling by their state legislatures; and.</p> <p>(6) highlight its Private Sector Advocacy document on bundling and downcoding, the related section of the AMA Model Managed Care Contract, and its advocacy initiatives on its web site and other communications measures to assure that physicians are aware of the AMA's advocacy on this issue. (CMS Rep. 6, I-01; Reaffirmed: CMS Rep. 7, A-11)</p>	
H-100.964	Drug Issues in Health System Reform	<p>The AMA: (1) consistent with AMA Policy H-165.925, supports coverage of prescription drugs, including insulin, in the AMA standard benefits package. (2) supports consumer choice of at least two options for their pharmaceutical benefits program. This must include a fee-for-service option where restrictions on patient access and physician autonomy to prescribe any FDA-approved medication are prohibited. (3) reaffirms AMA Policy H-110.997, supporting the freedom of physicians to use either generic or brand name pharmaceuticals in prescribing drugs for their patients and encourage physicians to supplement medical judgments with cost considerations in making these choices. (4) reaffirms AMA Policies H-120.974 and H-125.992, opposing the</p>	<p>Retain-in-part. The following subsections should be rescinded for the reasons provided below. Policy H-100.964 should otherwise be retained as still relevant.</p> <p>(4) Policies H-120.974 and H-125.992 have since sunsetted.</p> <p>(8) Superseded by Policy <a href="#">H-35.999</a>.</p> <p>(9) Policies H-115.995 and H-115.997 have since sunsetted.</p> <p>(10) Superseded by Policy <a href="#">H-125.989</a>.</p> <p>(15) Superseded by Policy <a href="#">H-120.988</a>.</p> <p>(17) Policy H-120.983 has since sunsetted.</p>

		<p>substitution of FDA B-rated generic drug products.</p> <p>(5) supports a managed pharmaceutical benefits option with market-driven mechanisms to control costs, provided cost control strategies satisfy AMA criteria defined in AMA Policy H-110.997 and that drug formulary systems employed are consistent with standards defined in AMA Policy H-125.991.</p> <p>(6) supports prospective and retrospective drug utilization review (DUR) as a quality assurance component of pharmaceutical benefits programs, provided the DUR program is consistent with Principles of Drug Use Review defined in AMA Policy H-120.978.</p> <p>(7a) encourages physicians to counsel their patients about their prescription medicines and when appropriate, to supplement with written information; and supports the physician’s role as the “learned intermediary” about prescription drugs.</p> <p>(7b) encourages physicians to incorporate medication reviews, including discussions about drug interactions and side effects, as part of routine office-based practice, which may include the use of medication cards to facilitate this process. Medication cards should be regarded as a supplement, and not a replacement, for other information provided by the physician to the patient via oral counseling and, as appropriate, other written information.</p> <p>(8) recognizes the role of the pharmacist in counseling patients about their medicines in order to reinforce the message of the prescribing physician and improve medication compliance.</p> <p>(9) reaffirms AMA Policies H-115.995 and H-115.997, opposing FDA-mandated patient package inserts for all marketed prescription drugs.</p> <p>(10) opposes payment of pharmacists by third party payers on a per prescription basis when the sole purpose is to convince the prescribing physician to switch to a less expensive “formulary” drug because economic</p>

H-130.945	Overcrowding and Hospital EMS Diversion	<p>It is the policy of the AMA:</p> <p>(1) that the overall capacity of the emergency health care system needs to be increased through facility and emergency services expansions that will reduce emergency department overcrowding and ambulance diversions; incentives for recruiting, hiring, and retaining more nurses; and making available additional hospital beds;</p> <p>(2) to advocate for increased public awareness as to the severity of the emergency department crisis, as well as the development and distribution of patient-friendly educational materials and a physician outreach campaign to educate patients as to when it is appropriate to go to the emergency department;</p> <p>(3) to support the establishment of local, multi-organizational task forces, with representation from hospital medical staffs, to devise local solutions to the problem of emergency department overcrowding, ambulance diversion, and physician on-call coverage, and encourage the exchange of information among these groups;</p> <p>(4) that hospitals be encouraged to establish and use appropriate criteria to triage patients arriving at emergency departments so those with simpler medical needs can be redirected to other appropriate ambulatory facilities;</p> <p>(5) that hospitals be encouraged to create nurse-staffed and physician-supervised telephone triage programs to assist patients by guiding them to the appropriate facility; and</p> <p>(6) to work with the American Hospital Association and other appropriate organizations to encourage hospitals and their medical staffs to develop diversion policy that includes the criteria for diversion; monitor the frequency of diversion; identify the reasons for diversion; and develop plans to resolve and/or reduce emergency department overcrowding and the number of diversions.</p> <p>Citation: (CMS Rep. 1, A-02; Reaffirmed: BOT Rep. 3, I-02;</p>	Retain. H-155.974	Excessive Regulatory Costs	Our AMA will: (1) support actively seeking reduction in regulatory requirements such as record review, length-of-stay review, insurance requirements and form completion, and diagnosis coding for physicians and hospitals, (2) vigorously oppose future regulatory requirements for physicians and hospitals that are not compensated; (3) seek through appropriate legislative channels support for an Economic Impact Statement requirement for all legislation and regulation affecting the delivery of medical care and that the increased cost be reflected in the RBRVS value; and (4) advocate that all governmental health care cost containment activities must simultaneously evaluate and report the total costs associated with their activities, and that government, federal, state and local, join the medical profession and hospitals in their efforts to contain the cost of health care, by reducing the number of regulations, reports, and forms. (Res. 125, A-79; Reaffirmed: CLRPD Rep. B, I-89; Res. 54, I-90; Res. 147, I-90; Res. 135, A-92; CMS Rep. 12, A-95; Reaffirmation A-00; Reaffirmed: BOT Rep. 25, I-01; Reaffirmation A-02; Reaffirmed: BOT Rep. 7, A-11)	Retain. Still relevant.
H-165.862	Evolving Internet-Based Health Insurance Marts	Our AMA endorses the concept and use of Internet-based health insurance marts and health benefits systems as mechanisms for employers and individuals to select and purchase health insurance. (CMS Rep. 5, A-01; Reaffirmed: CMS Rep. 7, A-11)	Rescind. Superseded by Policy <a href="#">H-165.839</a> , which states:  1. Our American Medical Association adopts the following principles for the operation of health insurance exchanges: A) Health insurance exchanges should maximize health plan choice for individuals and families purchasing coverage. 			of physicians based on conflict of interest provisions; (C) supports the involvement of state medical associations in the legislative and regulatory processes concerning state health insurance exchanges; and (D) will advocate that health insurance exchanges address patient churning between health plans by developing systems that allow for real-time patient eligibility information.
H-180.948	Opposition to Incentives for Care in Non-Physician Clinics	Our AMA will communicate with large insurance companies that providing incentives to patients toward non-physician clinics outside the primary care physician relationship can lead to decisions made on limited information, duplication of testing and procedures, ultimately higher health care costs and a reduction in the quality of health care for the patients of America. (Res. 708, A-11)	Retain. Still relevant.
H-185.943	Health Insurance Differences Contribute to Health Care Disparities and Poorer Outcomes	Our AMA affirms its support for elimination of health care disparities caused by differential treatment based on insurance status of Americans. (Res. 119, A-11)	Retain. Still relevant.
H-185.985	Internal Guidelines Used by Third Party Payers to Determine Coverage	Our AMA calls upon all third party payers and appropriate federal regulatory agencies to make all guidelines related to patient coverage a matter of public information and easily obtainable by both patients and physicians. (Res. 126, A-91; Modified: Sunset Report, I-01; Reaffirmed: CMS Rep. 7, A-11)	Rescind. Superseded by Policy <a href="#">H-185.984</a> , which supports 24-hour-a-day access to patient coverage and benefits information.
H-200.995	Federally Funded Clinic Programs	Our AMA supports the following policy statements regarding federally funded clinics: (1) Physician services should be available in underserved areas and should be provided in a manner which ensures continuity of patient care, integration with the existing health system, and retention of the health providers. (2) Physicians should be sensitive and responsive to indicators of need for additional health personnel or accessibility of health care. Through their component medical society, physicians should seek involvement in the designation process for Health Manpower Shortage Areas and	Retain. Still relevant.

		<p>Medically Underserved Areas. The medical community and local residents are in an excellent position to ascertain the need for additional health providers in the community, and to support appropriate decisions in that regard.</p> <p>(3) Where need is clearly identified, through a federal designation process or other means, the local medical community should explore alternatives for responding appropriately to meet the need.</p> <p>(4) Where physicians have responded appropriately to needs identified through the designation process, the component medical society should work with the local planning groups to remove the area's designation, so that federal resources are not called on to duplicate services.</p> <p>(5) Where identified needs cannot be met by the local medical community, and all local public and private financial assistance options are determined to be inadequate, federal assistance should be sought. In such cases, the local medical community should assume the responsibility of working with the agency applying for federal funds to facilitate the placement of health personnel with long range service potential.</p> <p>(6) Where inappropriate designations were made leading to capacity which exceeds the need, the patient volume is likely to be low, and the unit costs excessive. In such situations, constructive consultation between the local medical community and the federally funded clinic program should explore options for a resolution of the problem. (Res. 125, A-81; Reaffirmed: Sunset Report, I-98; Reaffirmation A-01; Reaffirmed: CMS Rep. 7, A-11)</p>	
H-215.964	Patient Identification Wrist Bands	<p>Our AMA (1) supports the concept of uniform patient identification wrist bands at all hospitals and other health care facilities where wrist bands are used; (2) encourages the adoption of uniquely colored patient identification wrist bands for specific patient information, such as, patient's name, allergies and those with identified greater fall risk; and (3) will actively pursue national standardization of</p>	Retain. H-215.971	Standardization of Emergency Paging Nomenclature	Our AMA urges the development of standardized emergency paging nomenclature for hospitals. (Sub. Res. 805, A-00; Reaffirmation A-09; Reaffirmation A-11)	Retain. Still relevant.
H-215.984	Duplicate Bureaucratic Regulations	Our AMA encourages the identification of duplicate regulatory activities and inspection in hospitals and nursing homes so that these matters may be brought to the attention of legislators, governors and regulatory agencies. It is AMA policy that such information be made available nationally via the AMA and the AHA in an attempt to eliminate duplicate bureaucratic bodies and unnecessary regulations. (Res. 53, I-90; Reaffirmed: Sunset Report, I-00; Reaffirmed: CMS Rep. 6, A-10; Reaffirmed: BOT Rep. 7, A-11)	Retain. Still relevant.
H-215.994	Subrogation by Hospitals	Our AMA urges hospitals to insist that contracts for hospital professional liability insurance require that the carrier obtain the consent of the policy holder prior to initiating legal action against a physician in the name of the hospital. (Res. 2, I-81; Reaffirmed: CLRPD Rep. F, I-91; Reaffirmed: Sunset Report, I-01; Reaffirmed: CMS Rep. 7, A-11)	Retain. Still relevant.
H-215.996	Compensation for Service on Government Mandated and Funded Hospital Committees	Our AMA believes that federal or third party funds provided for reimbursement of physicians serving on mandated hospital review committees should not be diverted by the hospital for other purposes. (CMS Rep. H, A-81; Reaffirmed: CLRPD Rep. F, I-91; Reaffirmed: Sunset Report, I-01; Reaffirmed: CMS Rep. 7, A-11)	Retain. Still relevant.
H-220.930	Regulatory Standards Should be Evidence-Based	Our AMA will work through its representatives on the Joint Commission and with other deeming authorities and the Centers for Medicare & Medicaid Services to: (1) ensure that clinical standards imposed on health care institutions and providers be evidence-based with significant efficacy and value, as demonstrated by best available evidence; and (2) require that appropriate citations(s) from the peer reviewed scientific literature be	Retain. H-220.950	<p>Medical Staff Involvement in Hospital Compliance With Accrediting Organization Standards Plans of Action to Correct Deficiencies</p>	<p>Our AMA: (1) adopts the policy that a hospital medical staff must be appropriately involved in a surveyed organization's development of a plan of action to correct a deficiency and that such involvement be consistent with existing medical staff bylaws, rules and regulations; (2) encourages hospital medical staffs to amend their bylaws, if necessary, to establish processes to ensure appropriate medical staff input into the development of a plan of action to correct a deficiency; and (3) urges accrediting organizations to work to ensure that these principles are part of their accreditation standards. (Res. 810, I-91; Reaffirmed: Sunset Report, I-01; Modified: CMS Rep. 7, A-11)</p>	<p>Retain. Still relevant.</p>
H-220.953	<p>Quality Improvement Requirements for Leadership Structures of Health Care Organizations</p>	<p>Our AMA supports the following concepts for incorporation in The Joint Commission's accreditation programs for health care organizations:</p> <ul style="list-style-type: none"> <li>(1) establish accreditation programs with greater emphasis on the assessment of the effect that actions and decisions of the administrative and governing bodies of health care organizations have on the quality of patient care;</li> <li>(2) establish the requirement that management efforts must be made in concert with those of physicians, nurses and other health care professionals pursuant to the needs of the patients served by these professionals and the prevailing standards of practice;</li> <li>(3) establish the requirement of assessing major processes in the health care organization with the goal of continuous improvement rather than intensely focusing on individual persons or services;</li> <li>(4) establish the requirement that risk management processes be established that will emphasize prevention of problems rather than policies that call for taking action only after a problem has arisen;</li> <li>(5) establish accountability of the management and governance elements</li> </ul>	<p>Retain. (Res. 822, I-91; Reaffirmed: Sunset Report, I-01; Modified: CMS Rep. 7, A-11)</p>	
H-220.995	Hospital Guidelines Impact Statement	<p>Our AMA recommends that when guidelines, rules and specific recommendations to hospitals and other medical facilities are originated by accreditation, certification or regulatory agencies, they include a proof of impact statement to include (1) actual or estimated costs of implementation (as a total cost or cost per bed). Included in the costs should be estimates of volunteer medical staff time required to implement the policy; (2) a brief statement of the expected benefit, goal or improvement in health care or reduction in health care costs; (3) a brief outline of the data tending to prove that the guidelines and rules will actually and significantly improve patient care, not have an adverse impact, and will accomplish the intended goal stated in the benefit statement; and (4) cost estimates of implementation and ongoing compliance, for small, medium, and large hospitals, and/or other health care facilities. (Res. 37, A-79; Reaffirmed: CLRPD Rep. B, I-89; Reaffirmed in lieu of Res. 816, I-93; Amended: Sub. Res. 805, I-01; Modified: CMS Rep. 7, A-11)</p>	Retain. Still relevant.
H-225.952	The Physician's Right to Exercise Independent Judgement in All Organized Medical Staff Affairs	<p>Our AMA supports the unfettered right of a physician to exercise his/her personal and professional judgment in voting, speaking and advocating on any matter regarding: [i] patient care interests; [ii] the profession; [iii] health care in the community; [iv] medical staff matters; [v] the independent</p>	Retain. (BOT Rep. 2, I-11)</p>	
H-225.972	<p>AMA Sponsored Leadership Training for Hospital Medical Staff Officers and Committee Chairs</p>	<p>It is the policy of the AMA (1) to offer, both regionally and locally, extensive training and skill development for emerging medical staff leaders to assure that they can effectively perform the duties and responsibilities associated with medical staff self-governance; and (2) that training and skill development programs for medical staff leaders be as financially self-supporting as feasible. (Res. 808, I-91; Reaffirmed: Sunset Report, I-01; Reaffirmed: CMS Rep. 7, A-11)</p>	<p>Retain. Still relevant.</p>
H-235.974	<p>Autonomy of the Hospital Medical Staff</p>	<p>Our AMA (1) believes strongly in the autonomy of the hospital medical staff and does not support automatic inclusion of the medical staff in hospital personnel policies and programs; (2) believes hospital medical staffs should develop personnel policies and programs for members of the hospital medical staff and incorporate these policies in the medical staff bylaws or rules and regulations; and (3) understands that there are physicians who are not members of the medical staff but who are employees of the hospital and their participation in hospital programs should be dictated by their employment agreements. H-25.989	<p>Long-Term Care Prescribing of Atypical Antipsychotic Medications</p>	<p>Our AMA: (1) will collaborate with appropriate national medical specialty societies to create educational tools and programs to promote the broad and appropriate implementation of non-pharmacological techniques to manage behavioral and psychological symptoms of dementia in nursing home residents and the cautious use of medications; (2) supports efforts to provide additional research on other medications and non-drug alternatives to address behavioral problems and other issues with patients with dementia; and (3) opposes the proposed requirement that physicians who prescribe medications with “black box warnings on an off-label basis certify in writing that the drug meets the minimum criteria for coverage and reimbursement by virtue of being listed in at least one of the authorized drug compendia used by Medicare.” (Res. 819, I-11)</p>	<p>Retain. Still relevant.</p>
H-285.920	<p>Criteria for Level of Care Status</p>	<p>(1) Our AMA support the development and use of level of care guidelines that meet the following criteria: (a) Level of care guidelines should function as guidelines only, and should not be used as requirements for all instances and cases. That is, level of care guidelines must allow for appropriate physician autonomy in making responsible medical decisions;                      (b) Level of care guidelines should acknowledge the complexity of care for each patient under the particular set of clinical circumstances;                      (c) Level of care guidelines should apply to all facility support systems so that patients are not assigned a level of care that slows or stalls their treatment;                      (d) Level of care guidelines should be developed under the direction of actively practicing physicians;                      (e) Level of care guidelines should be developed based on individual patient severity of illness and intensity of service;</p>	<p>Retain. (CMS Rep. 5, I-01; Reaffirmed: CMS Rep. 7, A-11)</p>	
H-285.921	Managed Behavioral Health Organizations (MBHOs)	<p>It is the policy of our AMA that, when requested, Managed Behavioral Health Organizations (MBHOs) should share their written disease management protocols with primary care and other treating physicians. When a patient is receiving treatment for mental illness and/or chemical dependency through an MBHO, with the patient's permission and in accordance with relevant legal requirements, the primary care physician should be notified immediately; and, if requested, be kept apprised of the patient's treatment (including all medications prescribed) and progress, so that the primary care and other treating physicians can coordinate the patient's health care needs in optimal fashion. (Res. 702, I-01; Reaffirmed: CMS Rep. 7, A-11)</p>	Retain. Still relevant.
H-290.981	Out-of-State Medicaid Patients	<p>The AMA encourages the CMS to propose regulations that prohibit state Medicaid programs from requiring physicians and other providers to be credentialed in the patient's state of residency, as long as the physician or provider is credentialed where the care is rendered. (Res. 136, A-98; Reaffirmed: BOT Rep. 23, A-09; Reaffirmation A-11)</p>	Retain. Still relevant.
H-330.891	Payment and Coverage for Voluntary Discussions of End-of-Life Issues	<p>Our AMA encourages the Centers for Medicare &amp; Medicaid Services to designate voluntary discussions of end-of-life issues as covered services as part of the 2012 Medicare Physician Fee Schedule rule. H-385.916	Reimbursement for Office-Based Surgery Facility Fees	Our AMA urges third party payers to include facility fee payments for procedures using more than local anesthesia in accredited office-based surgical facilities. (Res. 716, A-11)	Retain. Still relevant.
H-385.917	Interpreter Services and Payment Responsibilities	Our AMA supports efforts that encourage hospitals to provide and pay for interpreter services for the follow-up care of patients that physicians are required to accept as a result of that patient's emergency room visit and Emergency Medical Treatment and Active Labor Act (EMTALA)-related services. (CMS Rep. 5, A-11)	Retain. Still relevant.
H-385.925	Selective Revenue Taxation of Physicians and Other Health Care Providers	Our AMA: (1) strongly opposes the imposition of a selective revenue tax on physicians and other health care providers; (2) will continue to work with state medical societies on issues relating to physician and other provider taxes, providing assistance and information as appropriate; (3) strongly opposes the use of provider taxes or fees to fund health care programs or to accomplish health system reform; and (4) believes that the cost of taxes which apply to medical services should not be borne by physicians, but through adequate broad-based taxes for the appropriate funding of Medicaid and other government health care programs. (Sub. Res. 258, A-92; Reaffirmed: Res. 134, A-93; Res. 207, I-93; Reaffirmation A-99; Reaffirmation A-00; Appended Res. 132, A-01; Reaffirmation A-05; Consolidated and Renumbered: CMS Rep. 7, I-05; Reaffirmed: CMS Rep. 6, I-11)	Retain. H-465.997	Access to and Quality of Rural Health Care	(1) Our AMA believes that solutions to access problems in rural areas should be developed through the efforts of voluntary local health planning groups, coordinated at the regional or state level by a similar voluntary health planning entity. Regional or statewide coordination of local efforts will not only help to remedy a particular community's problems, but will also help to avoid and, if necessary, resolve existing duplication of health care resources. (2) In addition to local solutions, our AMA believes that on a national level, the implementation of Association policy for providing the uninsured and underinsured with adequate protection against health care expense would be an effective way to help maintain and improve access to care for residents of economically depressed rural areas who lack adequate health insurance coverage. Efforts to place National Health Service Corps physicians in underserved areas of the country should also be continued. (CMS Rep. G, A-87; Modified: Sunset Report, I-97;	Retain. Still relevant.
