

CORRECTED SECOND REPORT OF THE RESOLUTION COMMITTEE
June 2021 Special Meeting of the House of Delegates

This Second Report of the Resolution Committee lists resolutions in two groups: those that have met the threshold of priority at this Special Meeting and those that have not met the priority threshold.

Any resolution from the second group, those not meeting the priority threshold, may be extracted for consideration by the House of Delegates, which will determine, by majority vote, those items that will be considered as business. There is no need to extract items that have been listed by the Committee as meeting the priority threshold, as they will be considered during the meeting.

Any delegate may extract an item by sending an email to HOD@ama-assn.org with a request for extraction. The email should specify the resolution number and title (to avoid any confusion) and may include an “extraction statement” of up to 150 words noting why the item should be considered a priority item at the Special Meeting. **Requests for extraction must be received not later than midnight, Wednesday, June 9.** No extractions will be accepted after that deadline, and no extractions will be accepted by any other method.

The Final Report from the Committee will be issued Thursday, June 10 and list resolutions in three groups:

- items recommended for consideration,
- items that have not met the priority threshold and have not been extracted, and
- extracted items, which will be presented to the House for a decision regarding their consideration.

The Final Report will be handled as a consent calendar on Friday evening, June 11, during the Opening Session. Each extracted item will be put to a vote to either sustain the recommendation of the Resolution Committee or to overrule its recommendation, without further debate. Additional comments, pro and con, regarding the priority may be posted in the Online Forum. The House by majority vote will decide which items become the business of the HOD.
