How to speak during the virtual meeting

To maintain order, we will use a speaker queue. Think of this as a virtual way to line up at the microphone during an in-person meeting. To join the speaker queue, follow these steps:

Step 1: Click the messaging icon in the upper menu bar
Step 2: Use the text box to indicate what you wish to speak about
In the text box at the bottom of the left-hand side of your screen, enter one of the action terms shown on the screen and hit the “send” arrow icon to send your message into the queue.

- For example, if you want to speak in favor of an item, type the word “PRO” followed by the item number. Another example: if you wish to raise a point of order, simply type the word “POINT.”
- Note: Using the action terms will help your Chair/Speaker as they sort through the requests to speak.

**Need help before or during the meeting?**
Email HODMeetingSupport@ama-assn.org or call 800-337-1599.
Step 3: Enable/unmute your microphone and speak

(a) **WHEN** you are called upon to speak by the Chair/Speaker, raise your hand by clicking on the Raise Hand icon found in the lower portion of the right hand screen.

(b) Once the production staff have enabled your microphone, you will be prompted to click “ALLOW” on the pop up from your web browser to give your browser access to your microphone, (you only need to do this the first time you speak).

Need help before or during the meeting?
Email HODMeetingSupport@ama-assn.org or call 800-337-1599.
If you do not receive a pop up from your web browser to allow your audio and microphone, you can click on the padlock icon in the browser bar right before the web address to bring up your microphone and sound settings for your browser. Make sure both say ALLOW.

(c) Next, you will unmute your microphone in the popup window that appears in the right-hand screen:

Need help before or during the meeting?
Email [HODMeetingSupport@ama-assn.org](mailto:HODMeetingSupport@ama-assn.org) or call 800-337-1599.
(d) You may begin speaking. Once your turn to speak is over, the production team will mute your microphone for you.

How to vote during the virtual meeting

- When a motion / election is put before the meeting, the voting will automatically pop up within the virtual platform in the left-hand screen. To vote, click on your selection to cast your vote. (Note: voting is only available to voting delegates; if you are logged in as a guest/alternate delegate you will not see the voting screen).

- To change your vote, click on another selection. You may change your vote at any time while the voting period is open.

- Once the voting period has closed, your last selected vote will be submitted.

Where to go for help
