

To: RFS Governing Council
From: Pratistha Koirala, MD PhD
Date: 5/24/2021
Subject: American Medical Association Political Action Committee (AMPAC)

Accomplishments

- Over the past year there was a significant amount of 'action' from AMPAC. During the 2020 Election AMPAC contributed to a wide range of candidates in a bipartisan manner.
- We are especially proud of our efforts of promote Cameron Webb, who was a candidate for VA-5, a current physician, and an active AMA member. We will continue to support medicine friendly candidates in the future.
- After the insurrection attempt and riots on January 6th, AMPAC responded to the calls to suspend donations to members of congress who voted not to certify the 2020 election. The Resident and Fellow Section was a loud, clear voice and leader in making this call. Your action helped the AMPAC Board of Directors make this critical decision.
- If you are interested in donating to AMPAC and continuing your support of this organization, please do so at ampaconline.org and by clicking on 'Contribute'.

Your strong convictions and willingness to stand up for what is right has allowed me to have a strong voice on the AMPAC Board of Directors. As always, thank you for your passion and the work that each of you has done to move forward health policy.
