

AMERICAN MEDICAL ASSOCIATION RESIDENT AND FELLOW SECTION (A-21)

Report of Reference Committee

Amar Kelkar, MD, Chair

1 Your Reference Committee recommends the following consent calendar for acceptance:
2

3 **RECOMMENDED FOR ADOPTION**
4

- 5 1. Resolution 1 – Gonad Shields: Regulatory and Legislation Advocacy to Oppose
6 Routine Use
7
8 2. Resolution 16 – Accountable Organizations to Resident and Fellow Trainees
9

10 **RECOMMENDED FOR ADOPTION AS AMENDED**
11

- 12 3. Report A – The Effect of the COVID-19 Pandemic on Graduate Medical Education
13
14 4. Report B – Improving Access to Physician Health Programs for Physician Trainees
15
16 5. Report C – “Residents’ and Fellows’ Bill of Rights” Update
17
18 6. Resolution 2 – Disaggregation of Demographic Data for Individuals of Middle Eastern
19 and North African (MENA) Descent
20
21 7. Resolution 6 – Preserving Appropriate Physician Supervision of Midlevel Providers
22 and Ensuring Patient Awareness of the Qualifications of Physicians vs. Midlevel
23 Providers
24
25 8. Resolution 7 – Physician Opposition to the Coordinated Effort by Corporations and
26 Midlevel Providers to Undermine the Physician-Patient Relationship and Safe Quality
27 Care
28
29 9. Resolution 9 – The Impact of Private Equity on Medical Training
30
31 10. Resolution 10 – Reducing Overall Fees and Making Costs for Licensing, Exam Fees,
32 Application Fees, etc. Equitable for IMGs
33
34 11. Resolution 13 – COVID-19 Vaccination Rollout to Emergency Departments and
35 Urgent Cares
36
37 12. Resolution 15 – Fulfilling Medicine’s Social Contract with Humanity in the Face of the
38 Climate Health Crisis
39

40 **RECOMMENDED FOR ADOPTION IN LIEU OF**
41

- 42 13. Resolution 4 – Opposition to Mid-level Provider Bias Against Physicians and
43 Physician-Led Care

1 Resolution 5 – Non-Physician Continued Education, Specialty and Subspecialty
2 Training

3
4 14. Resolution 12 – Addressing Gaps in Patient and Provider Knowledge to Increase
5 HPV Vaccine Uptake and Prevent HPV-Associated Oropharyngeal Cancer

6
7 15. Resolution 14 – Expanding the AMA’s Study on the Economic Impact of COVID-19

8

9 **RECOMMENDED FOR REFERRAL**

10

11 16. Resolution 11 – Increasing Musculoskeletal Education in Primary Care Specialties
12 and Medical School Education through Inclusion of Osteopathic Manual Therapy
13 Education

14

15 **RECOMMENDED FOR NOT ADOPTION**

16

17 17. Resolution 3 – Title Change to HOD Policy D-383.996 “Impact of the NLRB Ruling in
18 the Boston Medical Center Case”

19

20 18. Resolution 8 – Revising the CMS Definition of “Physician”

21

22 19. Resolution 17 – Residency Program Social Media Presence to Increase Information
23 Available to Applicants

RECOMMENDED FOR ADOPTION

- (1) RESOLUTION 1 – GONAD SHIELDS: REGULATORY AND LEGISLATION ADVOCACY TO OPPOSE ROUTINE USE

RECOMMENDATION:

Resolution 1 be adopted.

RFS ACTION: Resolution 1 adopted.

RESOLVED, That our AMA oppose mandatory use of gonad shields in medical imaging considering the risks far outweigh the benefits; and be it further

RESOLVED, That our AMA advocate that the FDA amend the code of federal regulations to oppose the routine use of gonad shields in medical imaging; and be it further

RESOLVED, That our AMA, in conjunction with state medical societies, support model state and national legislation to oppose or repeal mandatory use of gonad shields in medical imaging.

Your Reference Committee heard only supportive testimony of Resolution 1, and while we feel that such a resolution may be more appropriate coming through a specialty society, we applaud the authors for their passion and advocacy on this topic and recommend adoption. Additionally, your Reference Committee questions the necessity of the third resolved clause, given that repealing the use of gonad shields can be made through changes to local, state, and federal regulations, thus, model legislation would not be necessary. However, given the lack of testimony to this last point, we elected to retain this resolved clause. Therefore, your Reference Committee recommends that Resolution 1 be adopted.

- (2) RESOLUTION 16 – ACCOUNTABLE ORGANIZATIONS TO RESIDENT AND FELLOW TRAINEES

RECOMMENDATION:

Resolution 16 be adopted.

RFS ACTION: Resolution 16 adopted.

RESOLVED, That our AMA work with relevant stakeholders to: (1) determine which organizations or governmental entities are best suited for being permanently responsible for resident and fellow interests without conflicts of interests; (2) determine how organizations can be held accountable for fulfilling their duties to protect the rights and wellbeing of resident and fellow trainees as detailed in the Residents and Fellows' Bill of Rights; (3) determine methods of advocating for residents and fellows that are timely and effective without jeopardizing trainees' current and future employability; (4) study and report back by A-22 on how such an organization may be created, in the event that no organizations or entities are identified that meet the above criteria; and (5) determine transparent methods to communicate available residency positions to displaced residents.

1 Your Reference Committee heard only supportive testimony regarding this resolution calling
2 for a study by the AMA to determine the best way to build an Accountable Organization for
3 Resident and Fellow Trainees. Given the complexity of this topic, the study called for by this
4 resolution will allow our AMA to consider the many intertwined interests including finance,
5 health & safety, employment benefits, and professional education, and make thoughtful
6 recommendations on how to address this chronic issue for trainees, including defining the
7 scope of responsibility of those organizations who are already engaged, identifying specific
8 gaps, and planning how to best address them. Therefore, your Reference Committee
9 recommends that Resolution 16 be adopted.

RECOMMENDED FOR ADOPTION AS AMENDED

- 1
2
3 (3) REPORT A – THE EFFECT OF THE COVID-19 PANDEMIC
4 ON GRADUATE MEDICAL EDUCATION

5
6 **RECOMMENDATION A:**

7
8 **Report A be amended by addition to read as follows:**

9
10 **4. That this resolution be immediately forwarded to the**
11 **AMA House of Delegates at the June 2021 Special**
12 **Meeting of the HOD.**

13
14 **RECOMMENDATION B:**

15
16 **Report A be adopted as amended and the remainder of the**
17 **report be filed.**

18
19 **RFS ACTION: Recommendations in Report A**
20 **adopted as amended and the remainder of the**
21 **Report filed.**

22
23 **RECOMMENDATIONS:**

24
25 Based on the report prepared by the RFS Committees on Education and Quality and Patient
26 Safety, your RFS Governing Council recommends the following:

- 27
28 1. That our AMA work with the ACGME and other relevant stakeholders to provide additional
29 benefits for compensation, such as moonlighting, hazard pay, and/or additional
30 certifications for residents and fellows who are redeployed to fulfill service needs that are
31 outside the scope of their specialty training.
32
33 2. That our AMA urge ACGME to work with relevant stakeholders including residency and
34 fellowship programs to ensure each graduating resident or fellow is provided with
35 documentation explicitly stating his/her board eligibility and identifying areas of training
36 that have been impacted by COVID-19 that can be presented to the respective board
37 certifying committee.
38
39 3. That our AMA urge ACGME and specialty boards to consider replacing minimums on case
40 numbers and clinic visits with more holistic measures to indicate readiness for graduation
41 and board certification eligibility, especially given the drastic educational barriers
42 confronted during the COVID-19 pandemic.

43
44 Your Reference Committee heard limited, but unanimous testimony supporting this Report.
45 Of note, testimony highlighted that prior RFS Governing Council advocacy resulted in the
46 publication of the "Guiding principles to protect resident & fellow physicians responding to
47 COVID-19" on the AMA website and recommended immediate forwarding to the AMA House
48 of Delegates due to timeliness of the issue and importance of AMA advocacy to the ACGME,
49 despite the challenges of obtaining approval from the Resolution Committee.

1 According to the Report, most specialty boards have left case numbers and other quotas to
2 the determination of individual programs, which will result in incongruent impact on trainees.
3 Your Reference Committee agrees with testimony recommending immediate forwarding,
4 given the timeliness of this Report, as current graduating trainees will not have adequate time
5 to advocate to specialty boards and ACGME. Therefore, your Reference Committee
6 recommends that Report A be adopted as amended and the remainder of the report be filed.

7
8 (4) REPORT B – IMPROVING ACCESS TO PHYSICIAN
9 HEALTH PROGRAMS FOR PHYSICIAN TRAINEES

10
11 **RECOMMENDATION A:**

12
13 **Report B be amended by addition and deletion to read as**
14 **follows:**

15
16 ~~1. That our AMA amend AMA Model Bill: Physician~~
17 ~~Health Programs Act, Section 4 by addition to read as~~
18 ~~follows:~~

19
20 ~~(3) The AMA supports the early detection,~~
21 ~~evaluation and treatment of licensed physicians,~~
22 ~~physicians in training, and other licensed healthcare~~
23 ~~professionals suffering from a substance use~~
24 ~~disorder, mental health condition, or other medical~~
25 ~~disease or potentially impairing conditions.~~
26 ~~Appropriate evaluation and treatment of these~~
27 ~~physicians at programs experienced with the~~
28 ~~treatment of professionals in a safety sensitive~~
29 ~~environment will ultimately enhance the health of~~
30 ~~the provider and better protect the public~~

31
32 ~~2. That our AMA amend AMA Model Bill: Physician~~
33 ~~Health Programs Act, Section 6 by addition and deletion~~
34 ~~to read as follows:~~

35
36 ~~(h) “Participant” shall mean a licensed~~
37 ~~physician, physician in training, or other~~
38 ~~licensed health care professional or those in~~
39 ~~training enrolled in a PHP pursuant to an~~
40 ~~agreement between the health care~~
41 ~~professional and the PHP.~~

42
43 ~~3. That our AMA support the widespread use of~~
44 ~~physician health programs by physicians in training~~
45 ~~including residents and fellows in ACGME and AOA~~
46 ~~accredited training programs, and be it further~~

47
48 ~~4. 1. That our AMA work with the ACGME, AOA, and~~
49 ~~other relevant stakeholders to ensure physician health~~
50 ~~programs (PHPs) are promoted by training programs~~

1 and transparent information is disseminated by
2 programs to their trainees about PHP reporting
3 requirements, benefits of participation, and limitations
4 of such programs; and be it further
5

6 ~~5 2. That our AMA recognize PHPs physician health~~
7 ~~programs~~ as one of many resources available to
8 support physician trainee mental health.
9

10 **RECOMMENDATION B:**

11
12 **Report B be adopted as amended and the remainder of the**
13 **report be filed.**
14

15 **RFS ACTION: Recommendations in Report B**
16 **adopted as amended and the remainder of the**
17 **Report filed.**
18

19 **RECOMMENDATIONS:**

20
21 Based on the report and recommendations prepared by the AMA-RFS Committee on
22 Legislation and Advocacy, your AMA-RFS Governing Council recommends the following:
23

- 24 1. That our AMA amend AMA Model Bill: Physician Health Programs Act, Section 4 by
25 addition to read as follows:
26

27 (3) The AMA supports the early detection, evaluation and treatment of licensed physicians,
28 physicians in training, and other licensed healthcare professionals suffering from a
29 substance use disorder, mental health condition, or other medical disease or potentially
30 impairing conditions. Appropriate evaluation and treatment of these physicians at
31 programs experienced with the treatment of professionals in a safety sensitive
32 environment will ultimately enhance the health of the provider and better protect the
33 public.”
34

- 35 2. That our AMA amend AMA Model Bill: Physician Health Programs Act, Section 6 by
36 addition and deletion to read as follows:
37

38 (h) “Participant” shall mean a licensed physician, physician in training, or other licensed
39 health care professional ~~or those in training~~ enrolled in a PHP pursuant to an agreement
40 between the health care professional and the PHP.
41

- 42 3. That our AMA support the widespread use of physician health programs by physicians in
43 training including residents and fellows in ACGME and AOA accredited training programs;
44 and be it further
45

- 46 4. That our AMA work with the ACGME, AOA, and other relevant stakeholders to ensure
47 physician health programs are promoted by training programs and transparent information
48 is disseminated by programs to their trainees about PHP reporting requirements, benefits
49 of participation, and limitations of such programs; and be it further
50

1 5. That our AMA recognize physician health programs as one of many resources available
2 to support physician trainee mental health.
3

4 Your Reference Committee heard supportive testimony with calls for amendments. Overall,
5 your Reference Committee appreciates the importance of increased access to physician
6 health programs for physician trainees, however, offers the following approach. Your
7 Reference Committee acknowledges that the AMA House of Delegates is not the correct
8 forum to recommend changes to AMA Model Bills, and that this ask would be better carried
9 out through the AMA Advocacy Resource Center. For this reason, your Reference Committee
10 recommends striking the first and second recommendations from this report. Additionally, your
11 Reference Committee recommends striking the third recommendation, as this is carried out
12 by the fourth and fifth recommendations. Finally, your reference committee recommends
13 striking the word “AOA” from the fourth recommendation, as the American Osteopathic
14 Association no longer accredits residency programs. Therefore, your Reference Committee
15 recommends that Report B be adopted as amended and the remainder of the report be filed.
16

17 (5) REPORT C – “RESIDENTS’ AND FELLOWS’ BILL OF
18 RIGHTS” UPDATE
19

20 **RECOMMENDATION A:**

21
22 **Recommendation 1.E(1)c of Report C be amended by**
23 **addition to read as follows:**
24

25 **...E. ;and c. Recognition as full-time workers and a right to**
26 **unionize, granting residents and fellows the ability to**
27 **advocate collectively to employers and lawmakers on**
28 **behalf of patients and themselves as workers, not only as**
29 **learners.**
30

31 **RECOMMENDATION B:**

32
33 **Report C be adopted as amended and the remainder of the**
34 **report be filed.**
35

36 **RFS ACTION: Recommendations in Report C**
37 **adopted as amended and the remainder of the**
38 **Report filed.**
39

40 **RECOMMENDATIONS:**

41
42 Based on the report and recommendations prepared by the AMA-RFS Committee on
43 Education, your AMA-RFS Governing Council recommends the following:
44

45 1. That our AMA-RFS amend the Residents’ and Fellows’ Bill of Rights by addition and
46 deletion to read as follows:
47

48 291.009R Resident and Fellow Bill of Rights:

49 That our AMA-RFS support: a *Residents’ and Fellows’ Bill of Rights* that will serve as a
50 testament to the organization’s support for and commitment to the education and training of

1 competent, conscientious residents and fellows by illuminating their rights and advocating for
2 provisions that it believes all residents should be afforded, and that have not yet been
3 designated as rights, and that residents and fellows have a right to:

4
5 A. An education that fosters professional development, takes priority over service, and leads
6 to independent practice.

7 With regard to education, residents and fellows should expect: (1) A graduate medical
8 education experience that facilitates their professional and ethical development, to include
9 regularly scheduled didactics for which they are released from clinical duties. Service
10 obligations should not interfere with educational opportunities and clinical education should
11 be given priority over service obligations; (2) Faculty who devote sufficient time to the
12 educational program to fulfill their teaching and supervisory responsibilities; (3) Adequate
13 clerical and clinical support services that minimize the extraneous, time-consuming work that
14 draws attention from patient care issues and offers no educational value; (4) 24-hour per day
15 access to information resources to educate themselves further about appropriate patient care,
16 including but not limited to membership to medical libraries, remote access to medical
17 journals, and other online or mobile resources; and (5) Resources that will allow them to
18 pursue scholarly activities to include financial support and education leave to attend
19 professional meetings; (6) Financial support or reimbursement for board certification, medical
20 licensing examinations (such as the USMLE STEP 3 or specialty-specific testing), and
21 educational conferences, to reduce the financial burden residents and fellows face; and (7)
22 Opportunities to advance career development, such as access to leadership roles on hospital
23 committees and adequate paid time off for job and fellowship interviews.

24
25 B. Appropriate supervision by qualified faculty with progressive resident responsibility toward
26 independent practice.

27 With regard to supervision, residents and fellows should expect supervision by physicians and
28 non-physicians who are adequately qualified and which allows them to assume progressive
29 responsibility appropriate to their level of education, competence, and experience. It is neither
30 feasible nor desirable to develop universally applicable and precise requirements for
31 supervision of residents.

32
33 C. Regular and timely feedback and evaluation based on valid assessments of resident
34 performance.

35 With regard to evaluation and assessment processes, residents and fellows should expect:
36 (1) Timely and substantive evaluations during each rotation in which their competence is
37 objectively assessed by faculty who have directly supervised their work; (2) To evaluate the
38 faculty and the program confidentially and in writing at least once annually and expect that the
39 training program will address deficiencies revealed by these evaluations in a timely fashion;
40 (3) Access to their training file and to be made aware of the contents of their file on an annual
41 basis; and (4) Training programs to complete primary verification/credentialing forms and
42 recredentialing forms, apply all required signatures to the forms, and then have the forms
43 permanently secured in their educational files at the completion of training or a period of
44 training and, when requested by any organization involved in credentialing process, ensure
45 the submission of those documents to the requesting organization within thirty days of the
46 request.

47
48 D. A safe and supportive workplace with appropriate facilities.

49 With regard to the workplace, residents and fellows should have access to: (1) A safe
50 workplace that enables them to fulfill their clinical duties and educational obligations; (2)

1 Secure, clean, and comfortable on-call rooms and parking facilities which are secure and well-
2 lit; (3) Opportunities to participate on committees whose actions may affect their education,
3 patient care, workplace, or contract.

4
5 E. Adequate compensation and benefits that provide for resident well-being and health.

6 (1) With regard to contracts, residents and fellows should receive: a. Information about the
7 interviewing residency or fellowship program including a copy of the currently used contract
8 clearly outlining the conditions for (re)appointment, details of remuneration, specific
9 responsibilities including call obligations, and a detailed protocol for handling any grievance;
10 ~~and~~ b. At least four months advance notice of contract non-renewal and the reason for non-
11 renewal; and c. Recognition as full-time workers and a right to unionize, granting residents
12 and fellows to advocate collectively to employers and lawmakers on behalf of patients and
13 themselves as workers, not only as learners.

14 (2) With regard to compensation, residents and fellows should receive: a. Compensation for
15 time at orientation; and b. Salaries commensurate with their level of training and experience.
16 Compensation should enable trainees to support their families and pay educational debts,
17 reflect cost of living differences based on local economic factors, such as housing,
18 transportation, and energy costs (which affect the purchasing power of wages), and include
19 appropriate adjustments for changes in the cost of living and differences based on
20 geographical location.

21 (3) With Regard to Benefits, Residents and Fellows Must Be Fully Informed of and Should
22 Receive: a. Quality and affordable comprehensive medical, mental health, dental, and vision
23 care for residents and their families, as well as professional liability insurance and disability
24 insurance to all residents for disabilities resulting from activities that are part of the educational
25 program; b. An institutional written policy on and education in the signs of excessive fatigue,
26 clinical depression, substance abuse and dependence, and other physician impairment
27 issues; c. Confidential access to mental health and substance abuse services; d. A
28 guaranteed, predetermined amount of paid vacation leave, sick leave, family and medical
29 leave and educational/professional leave during each year in their training program, the total
30 amount of which should not be less than six weeks without pressure to leave it unused or
31 penalization for its use; e. Leave in compliance with the Family and Medical Leave Act; and f.
32 The conditions under which sleeping quarters, meals and laundry or their equivalent are to be
33 provided.

34
35 F. Clinical and educational work hours that protect patient safety and facilitate resident well-
36 being and education.

37 With regard to clinical and educational work hours, residents and fellows should experience:
38 (1) A reasonable work schedule that is in compliance with clinical and educational work hour
39 requirements set forth by the ACGME; ~~and~~ (2) At-home call that is not so frequent or
40 demanding such that rest periods are significantly diminished or that clinical and educational
41 work hour requirements are effectively circumvented; and (3) Adequate hospital staffing and
42 support, including the maintenance of back-up call schedules for every residency program.

43
44 G. Due process in cases of allegations of misconduct or poor performance.

45 With regard to the complaints and appeals process, residents and fellows should have the
46 opportunity to defend themselves against any allegations presented against them by a patient,
47 health professional, or training program in accordance with the due process guidelines
48 established by the AMA.

49

1 H. Access to and protection by institutional and accreditation authorities when reporting
2 violations.

3 With regard to reporting violations to the ACGME, residents and fellows should: (1) Be
4 informed by their program at the beginning of their training and again at each semi-annual
5 review of the resources and processes available within the residency program for addressing
6 resident concerns or complaints, including the program director, Residency Training
7 Committee, and the designated institutional official; (2) Be able to file a formal complaint with
8 the ACGME to address program violations of residency training requirements without fear of
9 recrimination and with the guarantee of due process; and (3) Have the opportunity to address
10 their concerns about the training program through confidential channels, including the
11 ACGME concern process and/or the annual ACGME Resident Survey.
12

13 2. That our AMA-RFS review and update the Residents' and Fellows' Bill of Rights at a
14 minimum every ten years.
15

16 Your Reference Committee heard unanimous supportive testimony regarding these updates
17 to the Residents' and Fellows' Bill of Rights. We appreciate the thoughtful report put forward
18 by the AMA-RFS Committee on Medical Education and commend them for what we felt were
19 very important changes and in keeping with the benefits and protections that should be
20 afforded to all trainees. Your Reference Committee offered an editorial change to clarify one
21 of the statements and recommends that Report C be adopted as amended and the remainder
22 of the report be filed.
23

24 (6) RESOLUTION 2 – DISAGGREGATION OF DEMOGRAPHIC
25 DATA FOR INDIVIDUALS OF MIDDLE EASTERN AND
26 NORTH AFRICAN (MENA) DESCENT
27

28 **RECOMMENDATION A:**

29
30 **The Second and Third Resolve of Resolution 2 be amended**
31 **by deletion.**
32

33 **~~RESOLVED, That our AMA advocate for the use of “Middle~~**
34 **~~Eastern/North African (MENA)” as a separate demographic~~**
35 **~~identifier in all medical records; and be it further~~**
36

37 **~~RESOLVED, That our AMA work with relevant stakeholders~~**
38 **~~to promote the inclusion of “Middle Eastern/North African~~**
39 **~~(MENA)” as a demographic identifying category in the U.S.~~**
40 **~~Census and for all federally-funded research using~~**
41 **~~racial/ethnic categories.~~**
42

43 **RECOMMENDATION B:**

44
45 **Resolution 2 be amended by addition of a new Second**
46 **Resolve to read as follows:**
47

48 **RESOLVED, That our AMA advocate for the use of “Middle**
49 **Eastern/North African (MENA)” as a separate race category**
50 **in all uses of demographic data including but not limited to**

1 medical records, government data collection and research,
2 and within medical education.

3
4 **RECOMMENDATION C:**

5
6 **Resolution 2 be adopted as amended.**

7
8 **RFS ACTION: Resolution 2 adopted as**
9 **amended.**

10
11 RESOLVED, That our AMA add “Middle Eastern/North African (MENA)” as a separate racial
12 category on all AMA demographics forms; and be it further

13
14 RESOLVED, That our AMA advocate for the use of “Middle Eastern/North African (MENA)”
15 as a separate demographic identifier in all medical records; and be it further

16
17 RESOLVED, That our AMA work with relevant stakeholders to promote the inclusion of
18 “Middle Eastern/North African (MENA)” as a demographic identifying category in the U.S.
19 Census and for all federally-funded research using racial/ethnic categories.

20
21 Your Reference Committee heard largely supportive testimony for this resolution and
22 determined it to be a novel policy. In effort to be all-encompassing and including MENA as a
23 separate race category in all uses of demographic data, combined with the redundancies
24 noted between the second and third resolve clauses and the potential for other sites of
25 demographic data collection being unintentionally omitted by the list format, we recommend
26 a new resolve clause be adopted in its place. In this new clause, all the content of the
27 second and third resolve clauses was included, as well as the author-submitted amendment
28 for the use of the term “race category”. Therefore, your Reference Committee recommends
29 Resolution 2 be adopted as amended.

30
31 (7) RESOLUTION 6 – PRESERVING APPROPRIATE
32 PHYSICIAN SUPERVISION OF MIDLEVEL PROVIDERS
33 AND ENSURING PATIENT AWARENESS OF THE
34 QUALIFICATIONS OF PHYSICIANS VS. MIDLEVEL
35 PROVIDERS

36
37 **RECOMMENDATION A:**

38
39 **The First Resolve of Resolution 6 be amended by addition**
40 **and deletion to read as follows:**

41
42 **RESOLVED, That our AMA reaffirm policies H-160.947 and**
43 **H-160.950 ~~advocate that midlevel providers practicing~~**
44 **~~independently without physician supervision be required~~**
45 **~~to obtain informed consent from patients acknowledging~~**
46 **~~and understanding that they are not being treated by a~~**
47 **~~physician; and be it further~~**
48

1 **RECOMMENDATION B:**

2
3 **The Third Resolve of Resolution 6 be amended by deletion.**

4
5 ~~**RESOLVED, That our AMA advocate for the appropriate**~~
6 ~~**supervision of midlevel providers by physicians as**~~
7 ~~**opposed to “collaboration,” which falsely equates non-**~~
8 ~~**physician training to that of physicians; and be it further**~~

9
10 **RECOMMENDATION C:**

11
12 **Resolution 6 be adopted as amended.**

13
14 **RFS ACTION: Resolution 6 adopted as**
15 **amended.**

16
17 RESOLVED, That our AMA advocate that midlevel providers practicing independently without
18 physician supervision be required to obtain informed consent from patients acknowledging
19 and understanding that they are not being treated by a physician; and be it further

20
21 RESOLVED, That our AMA work with relevant regulatory agencies to ensure physicians are
22 notified in writing when their license is being used to “supervise” midlevel providers; and be it
23 further

24
25 RESOLVED, That our AMA advocate for the appropriate supervision of midlevel providers by
26 physicians as opposed to “collaboration,” which falsely equates non-physician training to that
27 of physicians; and be it further

28
29 RESOLVED, That our AMA oppose mandatory physician supervision of midlevel providers as
30 a condition for physician employment and in physician employment contracts, especially when
31 physicians are not provided adequate resources and time for this responsibility; and be it
32 further

33
34 RESOLVED, That our AMA advocate for the right of physicians to deny “supervision” to any
35 midlevel provider whom they deem a danger to patient safety and the ability to report unsafe
36 care provided by mid-levels to the appropriate regulatory board with whistleblower protections
37 for physician employment.

38
39 Your Reference Committee heard mixed, but largely supportive testimony for this resolution
40 including from the authors and the AMA-RFS Committee on Legislation and Advocacy.
41 Testimony noted the lack of evidence of benefit of any informed consent process for midlevel
42 providers practicing independently and the potential increased burden to patients. Your
43 Reference Committee would also like to highlight existing AMA policies H-160.947(8) and H-
44 160.950(9) that directly address how midlevel providers should inform patients of their
45 responsibility and level of training. Therefore, we recommend reaffirming these policies which
46 cover the asks in the first resolve clause. Testimony also noted the lack of functional change
47 to existing AMA policy and practice in the third resolve clause by the "Stop the Scope Creep"
48 campaign, and thus we recommended removal of this resolve clause. The remaining resolve
49 clauses received general support without any explicit testimony and are therefore

1 recommended for adoption as written. Therefore, your Reference Committee recommends
2 Resolution 6 be adopted as amended.

- 3
4 (8) RESOLUTION 7 – PHYSICIAN OPPOSITION TO THE
5 COORDINATED EFFORT BY CORPORATIONS AND
6 MIDLEVEL PROVIDERS TO UNDERMINE THE PHYSICIAN-
7 PATIENT RELATIONSHIP AND SAFE QUALITY CARE
8

9 **RECOMMENDATION A:**

10
11 **Resolution 7 be amended by addition and deletion to read**
12 **as follows:**

13
14 ~~**RESOLVED, That our AMA acknowledge that the corporate**~~
15 ~~**practice of medicine has led to diminished quality of**~~
16 ~~**patient care, erosion of the physician-patient relationship,**~~
17 ~~**erosion of physician-driven care, physician burnout, and**~~
18 ~~**created a conflict of interest between profit and training the**~~
19 ~~**next generation of physicians needed for our nations**~~
20 ~~**physician shortage; and be it further**~~

21
22 ~~**RESOLVED, That our AMA study the impact that individual**~~
23 ~~**physician scope of practice advocacy has had on**~~
24 ~~**physician employment and contract terminations work with**~~
25 ~~**relevant stakeholders to support and provide legal**~~
26 ~~**resources to physicians who are terminated from**~~
27 ~~**employment for speaking out about scope of practice**~~
28 ~~**issues; and be it further**~~

29
30 ~~**RESOLVED, That our AMA study the views of patients on**~~
31 ~~**physician and non-physician care to identify best practices**~~
32 ~~**in educating the general population on the value of**~~
33 ~~**physician-led care lead a national campaign to educate**~~
34 ~~**patients on the value of physician-led care and about the**~~

36 ~~**campaigns by midlevel providers/non-physicians; and be it**~~
37 ~~**further**~~

38
39 ~~**RESOLVED, That our AMA study the utility of work with**~~
40 ~~**relevant stakeholders to create a physician-reported**~~
41 ~~**database to track and report institutions that replace**~~
42 ~~**physicians with midlevel providers and develop a platform**~~
43 ~~**in order to aid patients in seeking physician-led medical**~~
44 ~~**care as opposed to care by midlevel providers practicing**~~
45 ~~**without physician supervision.**~~

46
47 **RECOMMENDATION B:**

48
49 **Resolution 7 be adopted as amended.**
50

RFS ACTION: Resolution 7 adopted as amended.

RESOLVED, That our AMA acknowledge that the corporate practice of medicine has led to diminished quality of patient care, erosion of the physician-patient relationship, erosion of physician-driven care, physician burnout, and created a conflict of interest between profit and training the next generation of physicians needed for our nations physician shortage; and be it further

RESOLVED, That our AMA work with relevant stakeholders to support and provide legal resources to physicians who are terminated from employment for speaking out about scope of practice issues; and be it further

RESOLVED, That our AMA lead a national campaign to educate patients on the value of physician-led care and about the Dunning-Kruger effect in order to combat the false campaigns by midlevel providers/non-physicians; and be it further

RESOLVED, That our AMA work with relevant stakeholders to create a physician-reported database to track and report institutions that replace physicians with midlevel providers and develop a platform to aid patients in seeking physician-led medical care as opposed to care by midlevel providers practicing without physician supervision.

Your Reference Committee heard mixed testimony on this resolution. Testimony on the first resolve clause noted its similarities to AMA policy H-215.981, and though the authors believed it went beyond the original language, we felt as though this still functionally similar to the past policy, as well as the detailed issue brief published in 2019 on the subject (<https://www.ama-assn.org/system/files/2019-12/issue-brief-corporate-investors.pdf>) and would thus result in reaffirmation in the AMA House of Delegates.

The subsequent resolve clauses ask for several items that we are recommending for further study based on testimony. The second resolve clause asks for legal resources for physicians facing termination; however, there is a paucity of data on the extent of this problem, nor are there examples of legal solutions. Testimony on the third resolve clause generally expressed support for the spirit of the resolve clause and the AMA-RFS Committee on Legislation and Advocacy recommended that ongoing AMA campaigns such as “Stop the Scope Creep” and “Ask for a Physician” address this request. The lack of evidence supporting such a novel, costly national campaign is notable, without even a pilot study, thus, studying the issue first may be a more cost-effective approach. Similar sentiments were expressed regarding the fourth resolve clause and therefore we recommend amending this clause for further study. Your Reference Committee would like to point out that the AMA policy compendium contains numerous policies on scope of practice that are detailed, firm, evidence-based, and respectful, and any new policy that we put forward should meet parallel standards. These policies include D-35.985, H-160.949, H-35.988, H-405.969, H-330.992, D-35.982, H-35.970, H-35.989, H-35.973, H-35.974, H-360.987, H-35.992, H-35.993, H-160.929, and D-35.988. Therefore, your Reference Committee recommends that Resolution 7 be adopted as amended.

1 (9) RESOLUTION 9 – THE IMPACT OF PRIVATE EQUITY ON
2 MEDICAL TRAINING

3
4 **RECOMMENDATION A:**

5
6 **The First Resolve of Resolution 9 be amended by addition**
7 **and deletion to read as follows:**

8
9 **RESOLVED, That our AMA work with relevant**
10 **stakeholders including specialty societies and the**
11 **ACGME to study the level of financial involvement and**
12 **influence ~~on medical practice and education of private~~**
13 **equity firms have in graduate medical education training**
14 **programs and report back at I-21 with concurrent**
15 **publication of their findings in a peer-reviewed journal;**
16 **and be it further**

17
18 **RECOMMENDATION B:**

19
20 **Resolution 9 be adopted as amended.**

21
22 **RFS ACTION: Resolution 9 adopted as**
23 **amended.**

24
25 RESOLVED, That our AMA work with relevant stakeholders including specialty societies and
26 the ACGME to study the level of financial involvement and influence on medical practice and
27 education of private equity firms in graduate medical education training programs and report
28 back at I-21 with concurrent publication of their findings in a peer-reviewed journal; and be it
29 further

30
31 RESOLVED, That this resolution be immediately forwarded to the AMA House of Delegates
32 at the June 2021 Special Meeting of the HOD.

33
34 Your Reference Committee heard mostly supportive testimony for this resolution, with some
35 concerns regarding urgency for immediate forwarding to the June 2021 Special Meeting of
36 the HOD and reporting back for I-21. Additionally, your Reference Committee appreciated
37 comments from AMA staff, which recommended amendment by removing the word “medical
38 practice” from the first resolve clause, as to focus the resolution solely on the impact of private
39 equity on medical education, which will avoid overlap with an ongoing AMA Council on Medical
40 Service study focused on private equity in medical practice.

41
42 Regarding the elements of timing, your Reference Committee had a robust discussion which
43 echoed comments from the authors on the Virtual Reference Committee regarding the
44 urgency of this issue and how it is presently affecting graduating residents in fields that are
45 becoming oversaturated, such as emergency medicine. Finally, your Reference Committee
46 heard additional concerns from AMA staff regarding the call for publication of the study results
47 in a peer-reviewed journal; however, your Reference Committee agrees with the author’s
48 commentary that the results of these findings deserve a more widespread audience beyond
49 the AMA policy compendium, and as such, calls for publication are in line with the goals of

1 our RFS. Therefore, your Reference Committee recommends Resolution 9 be adopted as
2 amended.

- 3
4 (10) RESOLUTION 10 – REDUCING OVERALL FEES AND
5 MAKING COSTS FOR LICENSING, EXAM FEES,
6 APPLICATION FEES, ETC. EQUITABLE FOR IMGs

7
8 **RECOMMENDATION A:**

9
10 **The First Resolve of Resolution 10 be amended by addition**
11 **and deletion to read as follows:**

12
13 **RESOLVED, That our AMA work with the ~~ACGME, NBME,~~**
14 **~~ECFMG, FSMB, and other~~ all relevant stakeholders to**
15 **reduce application, exam, licensing fees and related**
16 **financial burdens for IMGs to ensure cost equity with US**
17 **MD and DO trainees.**

18
19 **RECOMMENDATION B:**

20
21 **Resolution 10 be amended by addition of a new Second**
22 **Resolve to read as follows:**

23
24 **RESOLVED, that our AMA amend current policy H-255.966**
25 **“Abolish Discrimination in Licensure of IMGs” by addition**
26 **to read as follows:**

27
28 **“2. Our AMA will continue to work with the Federation**
29 **of State Medical Boards to encourage parity in**
30 **licensure requirements, and associated costs, for all**
31 **physicians, whether U.S. medical school graduates**
32 **or international medical graduates.”**

33
34 **RECOMMENDATION C:**

35
36 **Resolution 10 be adopted as amended.**

37
38 **RFS ACTION: Resolution 10 adopted as**
39 **amended.**

40
41 **RESOLVED, That our AMA work with the ACGME, NBME, ECFMG, FSMB, and other relevant**
42 **stakeholders to reduce application, exam, licensing fees and related financial burdens for**
43 **IMGs.**

44
45 Your Reference Committee heard limited but unanimous testimony supporting this Resolution
46 and suggested amendments. Testimony highlighted the negative impact of seemingly subtle
47 financial incentives, for example, noting the favoring of trainees on J1 visas over those on
48 H1B visas. Your Reference Committee made changes that reflect these friendly amendments.
49 Therefore, your Reference Committee recommends Resolution 10 be adopted as amended.

1 (11) RESOLUTION 13 – COVID-19 VACCINATION ROLLOUT TO
2 EMERGENCY DEPARTMENTS AND URGENT CARES
3

4 **RECOMMENDATION A:**
5

6 **Resolution 13 be amended by addition and deletion to read**
7 **as follows:**
8

9 **RESOLVED, That our AMA acknowledge that our**
10 **nation's COVID-19 vaccine rollout is not yet optimized, and**
11 **we have a duty to vaccinate as many people in an effective**
12 **manner; and be it further**
13

14 **RESOLVED, That our AMA work with other relevant**
15 **organizations and stakeholders to lobby the current**
16 **Administration for the distribution of COVID-19**
17 **vaccinations to our nation's emergency departments and**
18 **urgent ~~cares~~ care facilities; and be it further**
19

20 **RESOLVED, That our AMA advocate for additional funding**
21 **to be directed towards increasing COVID-19 vaccine**
22 **ambassador programs in emergency departments and**
23 **urgent care facilities; and be it further**
24

25 **RESOLVED, That this resolution be immediately forwarded**
26 **to the AMA House of Delegates at the June 2021 Special**
27 **Meeting of the HOD.**
28

29 **RECOMMENDATION B:**
30

31 **The title of Resolution 13 be changed to read as follows:**
32 **COVID-19 VACCINATION ROLLOUT TO EMERGENCY**
33 **DEPARTMENTS AND URGENT CARE FACILITIES**
34

35 **RECOMMENDATION C:**
36

37 **Resolution 13 be adopted as amended with a change in**
38 **title.**
39

40 **RFS ACTION: Resolution 13 adopted as**
41 **amended with a change in title.**
42

43 **RESOLVED, That our AMA acknowledge that our nation's vaccine rollout is not yet optimized,**
44 **and we have a duty to vaccinate as many people in an effective manner; and be it further**
45

46 **RESOLVED, That our AMA lobby the current Administration for the distribution of vaccinations**
47 **to our nation's emergency departments and urgent cares; and be it further**
48

49 **RESOLVED, That this resolution be immediately forwarded to the AMA House of Delegates**
50 **at the June 2021 Special Meeting of the HOD.**

1 Your Reference Committee heard testimony largely in support of this resolution with proposals
2 for amendments. Overall, your Reference Committee recognizes the importance of the
3 COVID-19 vaccination campaign and the unique role that emergency departments and urgent
4 care facilities play in treating the underserved which have been disproportionately affected by
5 the COVID-19 pandemic. Testimony recommended the addition of “COVID-19” before the
6 words “vaccine” and “vaccinations” to maintain focus on this specific vaccination campaign.
7 Additionally, your Reference Committee felt it important to include the language of “other
8 relevant organizations and stakeholders” for the AMA to partner with to bolster its lobbying
9 efforts to the current Administration in combatting COVID-19.

10
11 Further, the AMA-RFS Committee on Legislation and Advocacy proposed a friendly
12 amendment to add a resolve clause focusing on the funding and allocation of resources
13 devoted to education of the COVID-19 vaccination campaign in emergency departments,
14 which we felt germane to the author’s original intent of this resolution. Finally, to avoid
15 syntactical confusion, your Reference Committee recommends change the term “urgent
16 cares” to “urgent care facilities” in both the resolve clauses and title of the original resolution.
17 We appreciate the timely nature of this topic and support immediate forwarding to the AMA
18 House of Delegates. Therefore, your Reference Committee recommends Resolution 13 be
19 adopted as amended.

20
21 (12) RESOLUTION 15 – FULFILLING MEDICINE’S SOCIAL
22 CONTRACT WITH HUMANITY IN THE FACE OF THE
23 CLIMATE HEALTH CRISIS

24
25 **RECOMMENDATION A:**

26
27 **Resolution 15 be amended by addition and deletion to read**
28 **as follows:**

29
30 **~~RESOLVED, that our AMA advocate at all levels of~~**
31 **~~government for equitable policies to transition rapidly~~**
32 **~~away from the use of coal, oil and natural gas to clean, safe,~~**
33 **~~and renewable energy and energy efficiency; and be it~~**
34 **~~further~~**

35
36 **RESOLVED, that our AMA reaffirm policy H-135.949**
37 **“Support of Clean Air and Reduction in Power Plant**
38 **Emissions”;** and be it further
39

1 **RESOLVED, that our AMA establish a climate crisis**
2 **campaign that will distribute evidence-based information**
3 **on the relationship between climate change and human**
4 **health, determine high-yield advocacy and leadership**
5 **opportunities for physicians, and centralize our**
6 **AMA's efforts towards environmental justice and an**
7 **equitable transition to a net-zero carbon create an**
8 **appropriate climate health crisis-focused longitudinal body**
9 **or center for the purpose of determining the highest-yield**
10 **advocacy leadership opportunities for our AMA in this**
11 **public health crisis and for coordinating, strengthening**
12 **and centralizing efforts toward advocating for an equitable**
13 **and inclusive transition to a climate-neutral society by**
14 **2050.**

15
16 **RECOMMENDATION B:**

17
18 **Resolution 15 be adopted as amended.**

19
20 **RFS ACTION: Resolution 15 adopted as**
21 **amended.**

22
23 RESOLVED, that our AMA advocate at all levels of government for equitable policies to
24 transition rapidly away from the use of coal, oil and natural gas to clean, safe, and renewable
25 energy and energy efficiency; and be it further

26
27 RESOLVED, that our AMA create an appropriate climate health crisis-focused longitudinal
28 body or center for the purpose of determining the highest-yield advocacy leadership
29 opportunities for our AMA in this public health crisis and for coordinating, strengthening and
30 centralizing efforts toward advocating for an equitable and inclusive transition to a climate-
31 neutral society by 2050.

32
33 Your Reference Committee heard mixed testimony on this resolution. The authors offered a
34 friendly amendment to clarify language to the second resolve clause and add a third resolve
35 clause with an immediate forward to the HOD. Overall, there was significant testimony
36 opposing the first and proposed third resolve clauses, due to the redundancy of the first
37 resolve clause as repetitive of H-135.949 Support of Clean Air and Reduction in Power Plant
38 Emissions, and due to the presumed difficulty in passage of such a complex, expensive
39 resolution in a virtual format.

40
41 There was testimony in support of the spirit of the amended second resolve clause, but the
42 language remained vague. Your Reference Committee took all testimony under consideration
43 and elected to recommend reaffirmation of the existing policy H-135.949 in lieu of the first
44 resolve clause and offered amended language to try and capture the intention of the authors'
45 request for a Center or longitudinal body in the second resolve clause, considering this to be
46 a campaign similar in design to the AMA's "Scope of Practice Partnership" and "Save GME"
47 campaigns. Your Reference Committee did not hear compelling testimony supporting
48 immediate forwarding and elected to exclude this proffered amendment in its final
49 recommended language. Therefore, your Reference Committee recommends Resolution 15
50 be adopted as amended.

RECOMMENDED FOR ADOPTION IN LIEU OF

- 1
2
3 (13) RESOLUTION 4 – OPPOSITION TO MID-LEVEL PROVIDER
4 BIAS AGAINST PHYSICIANS AND PHYSICIAN-LED CARE
5 RESOLUTION 5 – NON-PHYSICIAN CONTINUED
6 EDUCATION, SPECIALTY AND SUBSPECIALTY TRAINING
7

8 **RECOMMENDATION A:**
9

10 **Alternate Resolution 4 be adopted in lieu of Resolutions 4**
11 **and 5.**
12

13 THE IMPACT OF MIDLEVEL PROVIDERS ON MEDICAL
14 EDUCATION
15

16 **RESOLVED, That our AMA study, using surveys among**
17 **other tools that protect identities, how commonly bias**
18 **against physician-led healthcare is experienced within**
19 **undergraduate medical education and graduate medical**
20 **education, interprofessional learning and team building**
21 **work and publish these findings in peer-reviewed journals**
22 **methods to regulate and ensure non-physician post-**
23 **graduate education is rigorous and adequate to maintain**
24 **the ability to practice within the intended field of practice**
25 **with physician oversight; and be it further**
26

27 **RESOLVED, That our AMA work with the LCME and**
28 **ACGME to ensure all physician undergraduate and**
29 **graduate training programs recognize and teach**
30 **physicians that they are the leaders of the healthcare team**
31 **and are adequately equipped to diagnose and treat patients**
32 **independently only because of the intensive, regulated and**
33 **standardized education they receive; and be it further**
34

35 **RESOLVED, That our AMA study the harms and benefits of**
36 **establishing mandatory postgraduate clinical training for**
37 **Nurse Practitioners and Physician Assistants prior to**
38 **working within a specialty or subspecialty field; and be it**
39 **further**
40

41 **RESOLVED, That our AMA study the harms and benefits of**
42 **establishing national requirements for structured and**
43 **regulated continued education for Nurse Practitioners and**
44 **Physician Assistants in order to maintain licensure to**
45 **practice.**
46

1 **RECOMMENDATION B:**

2
3 **Alternate Resolution 4 be adopted.**

4
5 **RFS ACTION: Alternate Resolution 4 adopted as**
6 **amended.**

7
8 Resolution 4

9 RESOLVED, That our AMA work with the Liaison Committee on Medical Education (LCME)
10 and Accreditation Council for Graduate Medical Education (ACGME) to ensure all physician
11 undergraduate and graduate training programs recognize and teach physicians that they are
12 the leaders of the healthcare team and are adequately equipped to diagnose and treat patients
13 independently only because of the intensive, regulated, and standardized education they
14 receive; and be it further

15
16 RESOLVED, That our AMA work with the LCME and ACGME to recognize and eliminate any
17 bias against physician-led healthcare in all physician training, inter-professional learning and
18 team building work; and be it further

19
20 RESOLVED, That our AMA oppose the false narrative that physicians that seek to protect
21 patients by preserving physician-led healthcare are being “disrespectful” or “not team players”
22 and that the only way to “respect” mid-level providers is to equate their training to that of
23 physicians and support their push for independent practice.

24
25 Resolution 5

26 RESOLVED, That our AMA study methods to regulate and ensure non-physician post-
27 graduate training and continued education requirements are rigorous and adequate for the
28 intended field of practice with physician oversight and to maintain the ability to continue to
29 practice; and be it further

30
31 RESOLVED, That our AMA amend policy H-160.949, “Practicing Medicine by Non-
32 Physicians” by addition to read as follows:

33
34 (7) work with relevant stakeholders and regulatory agencies to support the
35 requirement of mandatory postgraduate clinical training for Nurse Practitioners and
36 Physician Assistants prior to working within a specialty or subspecialty field.

37
38 (8) work with relevant stakeholders and regulatory agencies to support the
39 requirement of structured and regulated continued education for Nurse Practitioners
40 and Physician Assistants in order to continue to maintain certification to practice; and
41 be it further

42
43 RESOLVED, That this resolution be immediately forwarded to the AMA House of Delegates
44 at the June 2021 Special Meeting of the HOD.

45
46 Your Reference Committee heard extensive, mixed testimony on both Resolutions 4 and 5,
47 with similar sentiments expressed on each from several individuals, our RFS Committee on
48 Legislation and Advocacy, and the Massachusetts delegation. The two resolutions have been
49 combined here for expediency in the House of Delegates and because of their overlapping
50 focus on the impact of midlevel providers on medical education. Supportive testimony agreed

1 with the spirit of the resolve clauses while also noting the lack of evidence on these issues
2 and the potential for unintended consequences from implementing solutions without clear
3 evidence for benefit or pilot study. Unfortunately, the only source utilized in these two
4 resolutions is a book, and we are unable to verify whether the Whereas clauses are supported
5 by anecdotes, case reports, clinical trials, or other forms of research. No results from peer-
6 reviewed literature are directly quoted so the existence and extent of the problems that are
7 outlined in these resolutions are unknown and therefore should be studied before solutions
8 are implemented.

9
10 Your Reference Committee proposes Alternate Resolution 4 that consolidates these two
11 items. The first through third resolve clauses from Resolution 4 are replaced with the first
12 resolve clause in Alternate Resolution 4, which asks our AMA to study the impact of bias
13 against physician-led healthcare in undergraduate and graduate medical education. Then, the
14 first and second resolve clauses from Resolution 5 are replaced with the second through
15 fourth resolve clauses in Alternate Resolution 4, which asks our AMA to study the ways in
16 which non-physician post-graduate training and continued medical education could be
17 implemented. Lastly, the third resolve clause from Resolution 5 was removed because this
18 item does not meet any criteria to justify immediate forwarding as evidenced by several
19 individuals' testimonies. Therefore, your Reference Committee recommends Alternate
20 Resolution 4 be adopted in lieu of Resolutions 4 and 5.

21
22 (14) RESOLUTION 12 – ADDRESSING GAPS IN PATIENT AND
23 PROVIDER KNOWLEDGE TO INCREASE HPV VACCINE
24 UPTAKE AND PREVENT HPV-ASSOCIATED
25 OROPHARYNGEAL CANCER

26
27 **RECOMMENDATION A:**

28
29 **Alternate Resolution 12 be adopted in lieu of Resolution 12.**

30
31 ADDRESSING GAPS IN PATIENT AND PROVIDER
32 KNOWLEDGE TO INCREASE HPV VACCINE UPTAKE AND
33 PREVENT HPV-ASSOCIATED OROPHARYNGEAL
34 CANCER

35
36 **RESOLVED, that our AMA amend current policy H-440.872**
37 **“HPV Vaccine and Cervical Cancer Prevention Worldwide”**
38 **by addition and deletion to read as follows:**

- 39
40 1. **Our AMA (a) urges physicians to educate themselves**
41 **and their patients about all HPV-mediated and**
42 **~~associated~~ diseases, HPV vaccination, as well as**
43 **routine cervical cancer screening; and (b) encourages**
44 **the development and funding of programs targeted at**
45 **HPV vaccine introduction and cervical cancer**
46 **screening in countries without organized cervical**
47 **cancer screening programs.**
48
49 2. **Our AMA will intensify efforts to improve awareness**
50 **and understanding about all HPV-mediated and**

1 associated diseases, the availability and efficacy of
2 HPV vaccinations, and the need for routine cervical
3 cancer screening in the general public.
4

- 5 3. Our AMA (a) encourages the integration of HPV
6 vaccination and routine cervical cancer screening into
7 all appropriate health care settings and visits for
8 adolescents and young adults, (b) supports the
9 availability of the HPV vaccine and routine cervical
10 cancer screening to appropriate patient groups that
11 benefit most from preventive measures, including but
12 not limited to low-income and pre-sexually active
13 populations, and (c) recommends HPV vaccination for
14 all groups for whom the federal Advisory Committee on
15 Immunization Practices recommends HPV vaccination.
16
- 17 4. Our AMA supports efforts (a) to enhance awareness in
18 the general public regarding the association between
19 HPV infection and oropharyngeal squamous cell
20 carcinoma, and (b) to further develop oropharyngeal
21 squamous cell carcinoma screening tools.
22

23 RESOLVED, that our AMA amend current policy H-440.872
24 “HPV Vaccine and Cervical Cancer Prevention Worldwide”
25 by title change to “HPV Vaccine and Cervical HPV-
26 mediated Cancer Prevention Worldwide”; and be it further
27

28 RESOLVED, that our AMA reaffirm policies D-170.995
29 “Human Papillomavirus (HPV) Inclusion in our School
30 Education Curricula” and D-440.955 “Insurance Coverage
31 for HPV Vaccine”.
32

33 RECOMMENDATION B:
34

35 Alternate Resolution 12 be adopted.
36

37 **RFS ACTION: Alternate Resolution 12 adopted.**
38

39 RESOLVED, That our AMA-RFS support efforts to increase rates of HPV vaccination among
40 males and females; and be it further
41

42 RESOLVED, That our AMA-RFS support efforts to increase physician awareness of HPV-
43 associated OPSCC and to develop comprehensive training in HPV vaccine counseling
44 relevant to all stakeholders; and be it further
45

46 RESOLVED, That our AMA support efforts to enhance awareness in the general public
47 regarding the association between HPV infection and OPSCC; and be it further
48

49 RESOLVED, That our AMA support increased efforts for the development of OPSCC
50 screening tools.

1 Your Reference Committee heard unanimous testimony supporting the spirit of this resolution,
2 but mixed testimony regarding tactics to achieve its intended goals. Several individuals and
3 members of the RFS Committee on Legislation and Advocacy pointed out the similarities of
4 the first and second resolve clauses with existing AMA policy H-440.872 “HPV Vaccine and
5 Cervical Cancer Prevention Worldwide” and suggested amending the existing resolution. To
6 minimize redundancy and build on existing policy, your Reference Committee wrote an
7 alternate resolution using the framework of H-440.872 and substituting in language from
8 Resolution 12. Furthermore, your Reference Committee clarified the need for broader
9 awareness of "all HPV-mediated diseases" as recommended by testimony. Finally, your
10 Reference Committee recommended a title change to H-440.872 to reflect the
11 aforementioned amendments and reaffirmation of other relevant HPV vaccine policies (D-
12 170.995 “Human Papillomavirus (HPV) Inclusion in our School Education Curricula” and D-
13 440.955 “Insurance Coverage for HPV Vaccine”) to re-emphasize the importance of AMA
14 advocacy on these issues. Therefore, your Reference Committee recommends Alternate
15 Resolution 12 be adopted in lieu of Resolution 12.

16
17 (15) RESOLUTION 14 – EXPANDING THE AMA’S STUDY ON
18 THE ECONOMIC IMPACT OF COVID-19

19
20 **RECOMMENDATION A:**

21
22 **Alternate Resolution 14 be adopted in lieu of Resolution 14.**

23
24 EXPANDING THE AMA’S STUDY ON THE ECONOMIC
25 IMPACT OF COVID-19

26
27 **RESOLVED, That our AMA work with relevant**
28 **organizations and stakeholders to study the economic**
29 **impact and long-term recovery of the COVID-19 pandemic**
30 **on healthcare institutions in order to identify and better**
31 **understand which groups of physicians, patients and**
32 **organizations may have been disproportionately affected**
33 **by the financial burdens of the COVID-19 pandemic; and be**
34 **it further**

35
36 **RESOLVED, that our AMA work with relevant organizations**
37 **and stakeholders to study the overall economic impact of**
38 **office closures, cancellations of elective surgeries and**
39 **interruptions in patient care, as well as the economic**
40 **impact of utilizing telemedicine for an increasing**
41 **percentage of patient care.**

42
43 **RECOMMENDATION B:**

44
45 **Alternate Resolution 14 be adopted.**

46
47 **RFS ACTION: Alternate Resolution 14 adopted.**

48
49

1 RESOLVED, That our AMA study the economic impact of the COVID-19 pandemic in order
2 to identify and better understand groups of physicians and patients that may have been
3 disproportionately affected by the financial burdens of the COVID-19 pandemic; and be it
4 further

5
6 RESOLVED, that our AMA work with relevant organizations and stakeholders to study the
7 long-term economic recovery of healthcare institutions including how the financial solvency
8 and existential security of public, private, and other healthcare institutions across the country
9 have been affected by lost revenues and unanticipated costs incurred during the COVID-19
10 pandemic.

11
12 Your Reference Committee heard limited, but overall supportive testimony for the proposals
13 of this resolution. We recognize the importance of studying the economic impact of the
14 COVID-19 pandemic on healthcare institutions and discrepancies in the financial burden
15 experienced by different organizations across the nation. However, the proposals in the first
16 and second resolve clauses were unclear in terms of their timelines on when data should be
17 examined, and we as a Reference Committee were unsure if one or multiple studies were
18 being proposed by the authors. We also felt that the two resolve clauses were redundant and
19 recommend an alternate resolved clause lieu of the original two resolve clauses to adequately
20 cover the questions asked in the original resolution. We also commend the AMA-RFS
21 Committee on Legislation and Advocacy for their proposal of a separate resolve clause
22 specifically focusing on the impact of office closures, cancelled surgeries and utilization of
23 telemedicine and as such, included it in our final recommendation. Therefore, your Reference
24 Committee recommends Alternate Resolution 14 be adopted in lieu of Resolution 14.

RECOMMENDED FOR REFERRAL

- 1
2
3 (16) RESOLUTION 11 – INCREASING MUSCULOSKELETAL
4 EDUCATION IN PRIMARY CARE SPECIALTIES AND
5 MEDICAL SCHOOL EDUCATION THROUGH INCLUSION
6 OF OSTEOPATHIC MANUAL THERAPY EDUCATION
7

8 **RECOMMENDATION:**

9
10 **Resolution 11 be referred.**

11
12 **RFS ACTION: Resolution 11 referred.**

13
14 RESOLVED, That our American Medical Association advocate to the Liaison Committee on
15 Medical Education and other relevant stakeholders for the incorporation of Osteopathic
16 Manual Therapy into the education curriculum of allopathic schools in the United States; and
17 be it further

18
19 RESOLVED, That our AMA advocate to the Accreditation Council for Graduate Medical
20 Education and other relevant stakeholders for the incorporation of Osteopathic Manual
21 Therapy into the education curriculum of all primary care residency training programs in the
22 United States; and be it further

23
24 RESOLVED, That our AMA continue to support equal treatment of osteopathic students,
25 trainees and physicians in the residency application cycle and workplace through continued
26 education on the training of Osteopathic physicians.

27
28 Your Reference Committee heard mixed testimony, largely opposing the passage of this
29 resolution due to concerns regarding curricular mandates and some of the practices used in
30 the Osteopathic Manual Therapy curriculum. However, the authors' testimony and proposed
31 amended language focusing on applications in the treatment of musculoskeletal disorders
32 suggest that a study on areas to improve understanding and usage of Osteopathic Manual
33 Therapy could be useful to guide future policy recommendations. Therefore, your Reference
34 Committee recommends that Resolution 11 be referred for study.

RECOMMENDED FOR NOT ADOPTION

- 1
2
3 (17) RESOLUTION 3 – TITLE CHANGE TO HOD POLICY D-
4 383.996 “IMPACT OF THE NLRB RULING IN THE BOSTON
5 MEDICAL CENTER CASE”
6

7 **RECOMMENDATION:**

8
9 **Resolution 3 not be adopted.**

10
11 **RFS ACTION: Resolution 3 not adopted.**

12
13 RESOLVED, That AMA Policy D-383.996 be amended by title change to read as follows:
14 “Impact of the NLRB Ruling in the Boston Medical Center Case” “AMA Resources, Advocacy,
15 and Leadership Efforts to Secure Labor Protections for Physicians in Training.”
16

17 Your Reference Committee appreciates the authors in alerting staff and your Reference
18 Committee of this very necessary and important title change, to inform of the content of this
19 policy and to avoid future sunseting without our awareness. After discussion with the House
20 of Delegates office, it was determined that this title change can be done through a Speaker’s
21 Policy Reconciliation Report at I-21, which we feel is appropriate and avoids a potential debate
22 that may result in substantial changes to the policy that do not appear to be the intention of
23 the authors. Therefore, your Reference Committee recommends Resolution 3 not be adopted.
24

- 25 (18) RESOLUTION 8 – REVISING THE CMS DEFINITION OF
26 “PHYSICIAN”
27

28 **RECOMMENDATION:**

29
30 **Resolution 8 not be adopted.**

31
32 **RFS ACTION: Resolution 8 not adopted.**

33
34 RESOLVED, That our AMA advocate to restrict the CMS definition of “Physician” to only
35 Allopathic (MD) and Osteopathic (DO) physicians and the international equivalents of these
36 degrees.
37

38 Your Reference Committee heard mixed testimony on this resolution, with an overall
39 consensus that existing AMA policy H-330.992 provides broad enough language to
40 accomplish the ask in this resolution. Your Reference Committee entertained the idea of
41 substituting the word “advocacy” for “support” in AMA policy H-330.992, however, ultimately
42 felt that this change would be semantic and would still result in reaffirmation in the AMA House
43 of Delegates. As an alternative, we recommend the authors submit an action request to the
44 AMA-RFS GC to work with the AMA Board of Trustees on stronger advocacy to limit the
45 definition of the term physician under the Medicare program. Therefore, your Reference
46 Committee recommends that Resolution 8 not be adopted.

1 (19) RESOLUTION 17 – RESIDENCY PROGRAM SOCIAL MEDIA
2 PRESENCE TO INCREASE INFORMATION AVAILABLE TO
3 APPLICANTS

4
5 **RECOMMENDATION:**

6
7 **Resolution 17 not be adopted.**

8
9 **RFS ACTION: Resolution 17 not adopted.**

10
11 RESOLVED, That our AMA study existing communication practices during the residency
12 application process; and be it further

13
14 RESOLVED, That our AMA develop best practices for the use of social media by residency
15 programs; and be it further

16
17 RESOLVED, That our AMA support residency programs' social media presence as a means
18 to share updated information with applicants.

19
20 Your Reference Committee heard limited testimony on this resolution without any clear
21 support. Testimony indicated that social media management for residency and fellowship
22 programs was beyond the scope of the AMA. While we would hope that all programs have a
23 strong social media presence to showcase their outstanding trainees, faculty, and facilities,
24 there is simply insufficient manpower to achieve this in some cases. As a result, our AMA
25 supporting and guiding all programs' social media presence would not be the most optimal
26 use of resources for the organization. Instead, specialty societies may be the best resources
27 for providing social media tips, especially given that the recruiting process is so varied among
28 specialties, and some specialties have already started trending in this direction. Therefore,
29 your Reference Committee recommends Resolution 17 not be adopted.
