

AMERICAN MEDICAL ASSOCIATION HOUSE OF DELEGATES (A-22)

Preliminary Document of Reference Committee on Amendments to Constitution and Bylaws

Nicole Riddle, MD, Chair

Pursuant to Policy D-600.956, adopted at the November 2021 Special Meeting, commentary submitted to the online member forums will be used to generate a preliminary document to inform the discussion at the in-person reference committee hearings.

1 The following items are under consideration for Reference Committee on Amendments
2 to Constitution and Bylaws:

- 3
- 4 1. BOT Report 02 - New Specialty Organizations Representation in the House of
5 Delegates
- 6 2. BOT Report 13 - Use of Psychiatric Advance Directives
- 7 3. BOT Report 14 - Amendment to Truth and Transparency in Pregnancy
8 Counseling Centers, H-420.954
- 9 4. BOT Report 21 - Opposition to Requirements for Gender-Based Treatments for
10 Athletes
- 11 5. CCB Report 01 - Clarification to the Bylaws: Delegate Representation
- 12 6. CEJA Report 01 - Short-Term Medical Service Trips
- 13 7. CEJA Report 02 - Amendment to Opinion 10.8, Collaborative Care
- 14 8. CEJA Report 03 - Amendment to E-9.3.2, Physician Responsibilities to
15 Colleagues with Illness, Disability or Impairment
- 16 9. CEJA Report 04 - CEJA's Sunset Review of 2012 House Policies
- 17 10. Resolution 001 – Increasing Public Umbilical Cord Blood-Donations in Transplant
18 Centers
- 19 11. Resolution 002 - Opposition to Discriminatory Treatment of Haitian Asylum
20 Seekers
- 21 12. Resolution 003 - Gender Equity and Female Physician Work Patterns During the
22 Pandemic
- 23 13. Resolution 004 - Recognizing LGBTQ+ Individuals as Underrepresented in
24 Medicine
- 25 14. Resolution 005 - Supporting the Study of Reparations as a Means to Reduce
26 Racial Inequalities
- 27 15. Resolution 006 - Combating Natural Hair and Cultural Headwear Discrimination
28 in Medicine and Medical Professionalism
- 29 16. Resolution 007 - Equal Access for Adoption in the LGBTQ Community
- 30 17. Resolution 008 - Student-Centered Approaches for Reforming School
31 Disciplinary Policies
- 32 18. Resolution 009 - Privacy Protection and Prevention of Further Trauma for Victims
33 of Distribution of Intimate Videos and Images Without Consent
- 34 19. Resolution 010 - Improving the Health and Safety of Sex Workers
- 35 20. Resolution 011 - Evaluating Scientific Journal Articles for Racial and Ethnic Bias

- 1 21. Resolution 012 – Expanding the Definition of Iatrogenic Infertility to Include
- 2 Gender Affirming Interventions
- 3 22. Resolution 013 – Recognition of National Anti-Lynching Legislation as a Public
- 4 Health Initiative
- 5 23. Resolution 014 – Healthcare Equity Through Informed Consent and a
- 6 Collaborative Healthcare Model for the Gender Diverse Population
- 7 24. Resolution 015 – Increasing Mental Health Screenings by Refugee Resettlement
- 8 Agencies and Improving Mental Health Outcomes for Refugee Women
- 9 25. Resolution 016 – Addressing and Banning Unjust and Invasive Medical
- 10 Procedures Among Migrant Women at the Border
- 11 26. Resolution 017 – Humanitarian and Medical Aid Support to Ukraine
- 12 27. Resolution 018 – Hardship for International Medical Graduates from Russia and
- 13 Belarus
- 14 28. Resolution 019 – Hardship for International Medical Graduates from Ukraine
- 15 29. Resolution 020 – Council on Ethical and Judicial Affairs Guidelines for Treating
- 16 Unvaccinated Individuals
- 17 30. Resolution 021 – National Cancer Research Patient Identifier
- 18 31. Resolution 022 – Organ Transplant Equity for Persons with Disabilities
- 19 32. Resolution 023 – Promoting and Ensuring Safe, High Quality, and Affordable
- 20 Elder Care Through Examining and Advocating for Better Regulation of and
- 21 Alternatives to the Current, Growing For-Profit Long Term Care Options
- 22 33. Resolution 024 – Pharmaceutical Equity for Pediatric Populations
- 23 34. Resolution 025 – Use of Social Media for Product Promotion and Compensation

24
25
26

27 (1) BOARD OF TRUSTEES REPORT 02 - NEW SPECIALTY ORGANIZATIONS
28 REPRESENTATION IN THE HOUSE OF DELEGATES

29
30
31
32
33
34

Therefore, the Board of Trustees recommends that the American Contact Dermatitis Society, American Society of Regional Anesthesia and Pain Medicine, Americas Hernia Society, and the Outpatient Endovascular and Interventional Society be granted representation in the AMA House of Delegates and that the remainder of the report be filed. (Directive to Take Action)

35
36
37
38

Online forum testimony for this report is supportive. Individual testimony supports inclusion of these new specialty groups to help strengthen the voice of members.

39
40
41
42
43
44

(2) BOARD OF TRUSTEETS REPORT 13 – USE OF PSYCHIATRIC ADVANCE DIRECTIVES

45
46
47
48

Your Board of Trustees recommends that the following be adopted in lieu of Resolution 1-I-19 and the remainder of this report be filed:
That our AMA:

1 1. Recognizes the potential for advance care planning to promote the autonomy of
2 patients with mental illness; (New HOD Policy) and

3
4 2. Urges the mental health community to continue to study the role of advance care
5 planning in therapeutic relationships and the use of psychiatric advance directives to
6 promote the interests and well-being of patients. (New HOD Policy)

7
8 **Online forum testimony for this report is supportive. Individual testimony notes that the**
9 **report is thoughtful and important, noting the value of such advance directives and how**
10 **one state medical society also supports similar directives.**

11
12
13 (3) BOARD OF TRUSTEES REPORT 14 – AMENDMENT TO TRUTH AND
14 TRANSPARENCY IN PREGNANCY COUNSELING CENTERS, H-420.954

15
16
17 For the reasons discussed above, your Board of Trustees recommends that Policy H-
18 420.954 be amended by insertion and deletion to read as follows in lieu of Resolution 8-
19 N-21 and that the remainder of this report be filed:

20
21 H-420.954, “Truth and Transparency in Pregnancy Counseling Centers”

22
23 1. It is AMA’s position that any entity that represents itself as offering health-related
24 services should uphold the standards of truthfulness, transparency, and confidentiality
25 that govern health care professionals.

26
27 2. Our AMA urges the development of effective oversight for entities offering pregnancy-
28 related health services and counseling.

29
30 3. Our AMA supports ~~advocates~~ that any entity offering crisis pregnancy services
31 disclose information

32
33 a. truthfully describe the services they offer or for which they refer—including prenatal
34 care, family planning, termination, or adoption services—in communications on site, and
35 in its their advertising, and before any services are provided to an individual patient; and
36 concerning medical services, contraception, termination of pregnancy or referral for such
37 services, adoption options or referral for such services that it provides;

38
39 b. be transparent with respect to their funding and sponsorship relationships.

40
41 4. Our AMA advocates that any entity licensed to provide ~~providing~~ medical or health
42 services to pregnant women ~~that markets medical or any clinical services abide by~~
43 ~~licensing and have the~~

44
45 a. ensure that care is provided by appropriately qualified, licensed personnel; ~~to do so~~
46 and

47
48 b. abide by federal health information privacy laws.
49

1 5. Our AMA urges that public funding only support programs that provide complete,
2 medically accurate, health information to support patients' informed, voluntary decisions.
3 (Modify Current HOD Policy)

4
5 Online forum testimony for this report is supportive. The authors of the resolution that
6 initiated the report find that the amendments offered in the report adequately address the
7 original concerns of the resolution and urge support for this report.
8

9
10 (4) BOARD OF TRUSTEES REPORT 21 – OPPOSITION TO REQUIREMENTS
11 FOR GENDER-BASED TREATMENTS FOR ATHLETES
12

13
14 In view of these considerations, your Board of Trustees recommends that the following
15 recommendations be adopted in lieu of Resolution 19-A-19 and the remainder of this
16 report be filed:

- 17 1. That our American Medical Association (AMA) oppose mandatory medical treatment
18 or surgery for athletes with Differences of Sex Development (DSD) to be allowed to
19 compete in alignment with their identity; (New HOD Policy)
20 2. That our AMA oppose use of specific hormonal guidelines to determine gender
21 classification for athletic competitions. (New HOD Policy)
22

23
24 Online forum testimony for this report is supportive. Individual testimony notes that the
25 report is timely in light of recent legislative endeavors regarding transgender medical
26 care and is aligned with other relevant AMA policy while also responding more
27 specifically to the issue of mandatory treatment or surgery for purposes of allowing
28 athletes to compete.
29

30
31 (5) COUNCIL ON CONSTITUTION AND BYLAWS REPORT 01 – CLARIFICATION
32 TO THE BYLAWS: DELEGATE REPRESENTATION
33

34 The Council on Constitution and Bylaws recommends that the following amendments to
35 the AMA Bylaws be adopted and that the remainder of this report be filed. Adoption
36 requires the affirmative vote of two-thirds of the members of the House of Delegates
37 present and voting.

38 **2.0.1 Composition and Representation.** The House of Delegates is composed of
39 delegates selected by recognized constituent associations and specialty societies, and
40 other delegates as provided in this bylaw.

41 **2.0.1.1 Qualification of Members of the House of Delegates.** Members of the House
42 of Delegates must be active members of the AMA and of the entity they represent.

43 **2.8 Alternate Delegates.** Each organization represented in the House of Delegates
44 may select an alternate delegate for each of its delegates entitled to be seated in the
45 House of Delegates.

46 **2.8.1 Qualifications.** Alternate delegates must be active members of the AMA and of
47 the entity they represent.

48 ***

49 **2.3 Medical Student Regional Delegates.** In addition to the delegate and alternate
50 delegate representing the Medical Student Section, ~~regional~~ medical student regional

1 delegates and regional alternate delegates shall be apportioned and elected as provided
2 in this bylaw.

3 **2.3.1 Qualifications.** Medical Sstudent Rregional delegates and alternate delegates
4 must be active medical student members of the AMA. In addition, medical student
5 regional delegates and alternate delegates must be members of their endorsing
6 constituent association. The region in which the endorsing society is located determines
7 the student's region, and a medical student may serve as a regional delegate, alternate
8 delegate or any form of substitute (pursuant to Bylaws 2.8.5 or 2.10.4) only for that
9 region.

10 ***

11 **2.3.3** Medical Sstudent Rregional delegates and alternates shall be elected by the
12 Medical Student Section in accordance with procedures adopted by the Section. Each
13 elected delegate and alternate delegate must receive written endorsement from ~~the~~ their
14 ~~constituent association representing the jurisdiction within which the medical student's~~
15 ~~educational program is located,~~ in accordance with procedures adopted by the Medical
16 Student Section and approved by the Board of Trustees. Delegates and alternate
17 delegates shall be elected at the Business Meeting of the Medical Student Section prior
18 to the Interim Meeting of the House of Delegates. Delegates and alternate delegates
19 shall be seated at the next Annual Meeting of the House of Delegates.

20 **2.4 Delegates from the Resident and Fellow Section.** In addition to the delegate and
21 alternate delegate representing the Resident and Fellow Section, resident and fellow
22 physician delegates and alternate delegates shall be apportioned and elected in a
23 manner as provided in this bylaw.

24 **2.4.1 Qualifications.** Delegates and alternate delegates from the Resident and Fellow
25 Section must be active members of the Resident and Fellow Section of the AMA. In
26 addition, resident and fellow physician delegates and alternate delegates must be
27 members of their endorsing society or organization currently seated in the HOD.

28 **2.4.2 Apportionment.** The apportionment of delegates from the Resident and Fellow
29 Section is one delegate for each 2,000 active resident and fellow physician members of
30 the AMA, as recorded by the AMA on December 31 of each year.

31 ***

32 **2.4.3 Election.** Delegates and alternate delegates shall be elected by the Resident and
33 Fellow Section in accordance with procedures adopted by the Section. Each delegate
34 and alternate delegate must receive written endorsement from ~~his or her~~ a society or
35 organization currently seated in the House of Delegates and a constituent association or
36 ~~national medical specialty society,~~ in accordance with procedures adopted by the
37 Resident and Fellow Section and approved by the Board of Trustees.

38 ***

39 **2.10.8 Medical Student Seating.** Each Mmedical Sstudent Rregional delegate shall be
40 seated with the student's endorsing constituent association ~~representing the jurisdiction~~
41 ~~within which such delegate's educational program is located.~~ Alternate or substitute
42 delegates shall be assigned to the original regional delegate's seat location during the
43 time they are seated for the original delegate.

44 **2.10.9 Resident and Fellow Seating.** Each delegate from the Resident and Fellow
45 Section shall be seated with the physician's endorsing society or organization ~~constituent~~
46 ~~association or specialty society.~~ In the case where a delegate has been endorsed by
47 multiple entities ~~both a constituent association and specialty society,~~ the delegate must
48 choose, prior to the election, with which delegation the delegate wishes to be seated.
49 Alternate or substitute delegates shall be assigned to the original delegate's seat location
50 during the time they are seated for the original delegate.

1
2 Online forum testimony is minimal and neutral. Individual testimony expresses confusion
3 as to the total number of MSS delegates and alternates and believes the report should
4 more clearly express this number. The report author testifies that the report is focusing
5 on the “general issue of representation in the AMA House of Delegates, with clarifying
6 language regarding the medical student regional delegates and the delegates from the
7 Resident and Fellow Section.”
8
9

10 (6) COUNCIL ON ETHICAL AND JUDICIAL AFFAIRS REPORT 01 – SHORT-
11 TERM MEDICAL SERVICE TRIPS
12

13 In light of these deliberations, the Council on Ethical and Judicial Affairs recommends
14 that the following be adopted and the remainder of this report be filed:
15

16 Short-term medical service trips, which send physicians and physicians in training from
17 wealthier countries to provide care in resource-limited settings for a period of days or
18 weeks, have been promoted as a strategy to provide needed care to individual patients
19 and, increasingly, as a means to address global health inequities. To the extent that
20 such service trips also provide training and educational opportunities, they may offer
21 benefit both to the communities that host them and the medical professionals and
22 trainees who volunteer their time and clinical skills.
23

24 By definition, short-term medical service trips take place in contexts of scarce resources
25 and in the shadow of colonial histories. These realities define fundamental ethical
26 responsibilities for volunteers, sponsors, and hosts to jointly prioritize activities to meet
27 mutually agreed-on goals; navigate day-to-day collaboration across differences of
28 culture, language, and history; and fairly allocate host and team resources in the local
29 setting. Participants and sponsors must focus not only on enabling good health
30 outcomes for individual patients, but on promoting justice and sustainability, minimizing
31 burdens on host communities, and respecting persons and local cultures. Responsibly
32 carrying out short-term medical service trips requires diligent preparation on the part of
33 participants and sponsors in collaboration with host communities.
34

35 Physicians and trainees who are involved with short-term medical service trips should
36 ensure that the trips with which they are associated:
37

38 (a) Focus prominently on promoting justice and sustainability by collaborating with the
39 host community to define mission parameters, including identifying community needs,
40 mission goals, and how the volunteer medical team will integrate with local health care
41 professionals and the local health care system. In collaboration with the host community,
42 short-term medical service trips should identify opportunities for and priority of efforts to
43 support the community in building health care capacity. Trips that also serve secondary
44 goals, such as providing educational opportunities for trainees, should prioritize benefits
45 as defined by the host community over benefits to members of the volunteer medical
46 team.
47

48 (b) Seek to proactively identify and minimize burdens the trip may place on the host
49 community, including not only direct, material costs of hosting volunteers, but on
50 possible disruptive effects the presence of volunteers could have for local practice and

1 practitioners as well. Sponsors and participants should ensure that team members
2 practice only within their skill sets and experience, and that resources are available to
3 support the success of the trip, including arranging for appropriate supervision of
4 trainees, local mentors, translation services, and volunteers' personal health needs as
5 appropriate.

6
7 (c) Seek to become broadly knowledgeable about the communities in which they will
8 work and take advantage of resources to begin to cultivate the "cultural sensitivity" they
9 will need to provide safe, respectful, patient-centered care in the context of the specific
10 host community. Members of the volunteer medical team are expected to uphold the
11 ethics standards of their profession and volunteers should insist that strategies are in
12 place to address ethical dilemmas as they arise. In cases of irreducible conflict with local
13 norms, volunteers may withdraw from care of an individual patient or from the mission
14 after careful consideration of the effect that will have on the patient, the medical team,
15 and the mission overall, in keeping with ethics guidance on the exercise of conscience.

16
17 Sponsors of short-term medical service trips should:

18
19 (d) Ensure that resources needed to meet the defined goals of the trip will be in place,
20 particularly resources that cannot be assured locally.

21
22 (e) Proactively define appropriate roles and permissible range of practice for members of
23 the volunteer team, including the training, experience, and oversight of team members
24 required to provide acceptable safe, high-quality care in the host setting. Team members
25 should practice only within the limits of their training and skills in keeping with the
26 professional standards of the sponsor's country.

27
28 (f) Put in place a mechanism to collect data on success in meeting collaboratively defined
29 goals for the trip in keeping with recognized standards for the conduct of health services
30 research and quality improvement activities in the sponsor's country.

31
32
33 **Online forum testimony is uniformly and strongly supportive. Several individual**
34 **testimonies express that it is a good report and are supportive of the report's expressed**
35 **guidelines.**

36
37
38 (7) COUNCIL ON ETHICAL AND JUDICIAL AFFAIRS REPORT 02 – AMENDMENT
39 TO OPINION 10.8, COLLABORATIVE CARE

40
41
42 In light of the foregoing, the Council on Ethical and Judicial Affairs recommends that
43 Opinion 10.8, Collaborative Care be amended as follows and the remainder of this report
44 be filed:

45
46 In health care, teams that collaborate effectively can enhance the quality of care for
47 individual patients. By being prudent stewards and delivering care efficiently, teams also
48 have the potential to expand access to care for populations of patients. Such teams are
49 defined by their dedication to providing patient-centered care, protecting and promoting
50 the integrity of the patient-professional physician relationship, sharing mutual respect

1 and trust, communicating effectively, sharing accountability and responsibility, and
2 upholding common ethical values as team members.

3
4 Health care teams often include members of multiple health professions, including
5 physicians, nurse practitioners, physician assistants, pharmacists, physical therapists,
6 and care managers among others. To foster the trust essential to patient-professional
7 relationships, all members of the team should be candid about their professional
8 credentials, their experience, and the role they will play in the patient's care.

9
10 An effective team requires the vision and direction of an effective leader. In medicine,
11 this means having a clinical leader who will ensure that the team as a whole functions
12 effectively and facilitates decision-making. Physicians are uniquely situated to serve as
13 clinical leaders. By virtue of their thorough and diverse training, experience, and
14 knowledge, physicians have a distinctive appreciation of the breadth of health issues
15 and treatments that enables them to synthesize the diverse professional perspectives
16 and recommendations of the team into an appropriate, coherent plan of care for the
17 patient.

18
19 As clinical leaders within health care teams, physicians individually should:

20
21 (a) Model ethical leadership by:

22
23 (i) Understanding the range of their own and other team members' skills and expertise
24 and roles in the patient's care

25 (ii) Clearly articulating individual responsibilities and accountability

26 (iii) Encouraging insights from other members and being open to adopting them and

27 (iv) Mastering broad teamwork skills

28
29 (b) Promote core team values of honesty, discipline, creativity, humility and curiosity
30 and commitment to continuous improvement.

31
32 (c) Help clarify expectations to support systematic, transparent decision making.

33
34 (d) Encourage open discussion of ethical and clinical concerns and foster a team culture
35 in which each member's opinion is heard and considered and team members share
36 accountability for decisions and outcomes.

37
38 (e) Communicate appropriately with the patient and family, including being forthright
39 when describing their profession and role, and respecting the unique relationship of
40 patient and family as members of the team.

41
42 As leaders within health care institutions, physicians individually and collectively should:

43
44 (f) Advocate for the resources and support health care teams need to collaborate
45 effectively in providing high-quality care for the patients they serve, including education
46 about the principles of effective teamwork and training to build teamwork skills.

47
48 (g) Encourage their institutions to identify and constructively address barriers to
49 effective collaboration.

50

1 (h) Promote the development and use of institutional policies and procedures, such as
2 an institutional ethics committee or similar resource, to address constructively conflicts
3 within teams that adversely affect patient care.

4
5 (i) Promote a culture of respect, collegiality and transparency among all health care
6 personnel.

7
8
9 Online forum testimony for this report expresses a concern that the report needs more
10 work and clarification. Testimony expresses concern that the report shifts language from
11 the “patient-physician relationship” to “patient-professional relationship” and that the term
12 “professional” is ambiguous and potentially may undercut the “sacred” aspect of the
13 patient-physician relationship and therefore demands greater clarity. With regards to the
14 language “all health care personnel”, individual testimony raises the question: “Should
15 not the patient and family be part of the culture of respect, collegiality and transparency
16 CEJA calls for the physician leader to foster?”

17
18
19 (8) COUNCIL ON ETHICAL AND JUDICIAL AFFAIRS REPORT 03 – AMENDMENT
20 TO E-9.3.2, PHYSICIAN RESPONSIBILITIES TO COLLEAGUES WITH
21 ILLNESS, DISABILITY OR IMPAIRMENT

22
23 The Council believes that a more general formulation that did not delineate specific
24 actors would better emphasize the importance of fairness whenever and by whomever
25 such assessment is sought and would help ensure that guidance remains evergreen.
26 The Council therefore proposes to amend Opinion 9.3.2 by insertion as follows:

27
28 E-9.3.2 – Physician Responsibilities to Colleagues with Illness, Disability or Impairment

29
30 Providing safe, high-quality care is fundamental to physicians’ fiduciary obligation to
31 promote patient welfare. Yet a variety of physical and mental health conditions—
32 including physical disability, medical illness, and substance use—can undermine
33 physicians’ ability to fulfill that obligation. These conditions in turn can put patients at
34 risk, compromise physicians’ relationships with patients, as well as colleagues, and
35 undermine public trust in the profession.

36
37 While some conditions may render it impossible for a physician to provide care safely,
38 with appropriate accommodations or treatment many can responsibly continue to
39 practice, or resume practice once those needs have been met. In carrying out their
40 responsibilities to colleagues, patients, and the public, physicians should strive to
41 employ a process that distinguishes conditions that are permanently incompatible with
42 the safe practice of medicine from those that are not and respond accordingly.

43
44 As individuals, physicians should:

45
46 (a) Maintain their own physical and mental health, strive for self-awareness, and
47 promote recognition of and resources to address conditions that may cause impairment.

48
49 (b) Seek assistance as needed when continuing to practice is unsafe for patients, in
50 keeping with ethics guidance on physician health and competence.

1
2 (c) Intervene with respect and compassion when a colleague is not able to practice
3 safely. Such intervention should strive to ensure that the colleague is no longer
4 endangering patients and that the individual receive appropriate evaluation and care to
5 treat any impairing conditions.

6
7 (d) Protect the interests of patients by promoting appropriate interventions when a
8 colleague continues to provide unsafe care despite efforts to dissuade them from
9 practice.

10
11 (e) Seek assistance when intervening, in keeping with institutional policies, regulatory
12 requirements, or applicable law.

13
14 Collectively, physicians should nurture a respectful, supportive professional culture by:

15
16 (f) Encouraging the development of practice environments that promote collegial mutual
17 support in the interest of patient safety.

18
19 (g) Encouraging development of inclusive training standards that enable individuals with
20 disabilities to enter the profession and have safe, successful careers.

21
22 (h) Eliminating stigma within the profession regarding illness and disability.

23
24 (i) Advocating for supportive services, including physician health programs, and
25 accommodations to enable physicians and physicians-in-training who require assistance
26 to provide safe, effective care.

27
28 (j) Advocating for respectful and supportive, evidence-based peer review policies and
29 practices to ensure fair, objective, and independent assessment of potential impairment
30 whenever and by whomever assessment is deemed appropriate to~~that will~~ ensure patient
31 safety and practice competency. (II)

32
33 **Online forum testimony is strongly supportive of this report. Testimony describes the**
34 **report amendments as timely and relevant and that they capture the “spirit of the**
35 **changes requested in Policy D-140.952.”**

36
37
38 (9) COUNCIL ON ETHICAL AND JUDICIAL AFFAIRS REPORT 04 – CEJA'S
39 SUNSET REVIEW OF 2012 HOUSE POLICIES

40
41 The Council on Ethical and Judicial Affairs recommends that the House of Delegates
42 policies that are listed in the Appendix to this report be acted upon in the manner indicated
43 and the remainder of this report be filed. (Directive to Take Action)

44
45
46 **There is no online forum testimony for this report.**

47
48
49 (10) RESOLUTION 001 – INCREASING PUBLIC UMBILICAL CORD BLOOD-
50 DONATIONS IN TRANSPLANT CENTERS

1
2
3 RESOLVED, That our American Medical Association encourage all hospitals with
4 obstetrics programs to make available to patients and reduce barriers to public
5 (altruistic) umbilical cord blood donation (Directive to Take Action); and be it further
6 RESOLVED, That our AMA encourage the availability of altruistic cord blood donations in
7 all states. (Directive to Take Action)
8

9 Online forum testimony for this resolution is strongly supportive. Testimony notes that
10 the AMA already has policy acknowledging “umbilical cord transplants as an alternative
11 to bone marrow transplants” and the need for “a larger and more diverse bank”, but that
12 the AMA currently “lacks any methodology to bring this life-saving donation and
13 treatment to fruition”. Additionally, testimony reflects that the AMA Code of Ethics
14 “already states that obstetricians should encourage women to donate to cord banks” and
15 that this resolution helps provide the “next step in the advancement of umbilical cord
16 transplants.” Testimony further notes the current accessibility issues associated with
17 cord blood donation and appreciate the resolution’s aims in tackling this issue.
18

19
20 (11) RESOLUTION 002 – OPPOSITION TO DISCRIMINATORY TREATMENT OF
21 HAITIAN ASYLUM SEEKERS
22

23
24 RESOLVED, That our American Medical Association oppose discrimination against
25 Haitian asylum seekers which denies them the same opportunity to attain asylum status
26 as individuals from other nations. (New HOD Policy)
27

28
29 Online forum testimony for this resolution is largely supportive. Testimony notes that
30 AMA already has policies “addressing refugee, asylee, and migrant health disparities”
31 and further “in line with our ethical duty and responsibility to protect and promote the
32 health of the public” and is aligned with the AMA’s “commitment to addressing immigrant
33 health disparities and refugee health.”
34

35
36 (12) RESOLUTION 003 – GENDER EQUITY AND FEMALE PHYSICIAN WORK
37 PATTERNS DURING THE PANDEMIC
38

39 RESOLVED, That our American Medical Association advocate for research on
40 physician-specific data analyzing changes in work patterns and employment outcomes
41 among female physicians during the pandemic including, but not limited to,
42 understanding potential gaps in equity, indications for terminations and/or furloughs,
43 gender differences in those who had unpaid additional work hours, and issues related to
44 intersectionality (Directive to Take Action); and be it further
45 RESOLVED, That our AMA collaborate with relevant organizations to evaluate obstacles
46 affecting female physicians and medical students during the pandemic. (Directive to Take
47 Action)
48
49

1 Online forum testimony for this resolution is supportive. Testimony from one group notes
2 that their section has “a number of policies affirming our opposition against gender
3 disparities in physician salaries, professional development, and gender disparities” which
4 are all in alignment with the values of this resolution. Additionally, some testimony
5 reflects a desire to see the resolution go further or be broader in scope.
6

7
8 (13) RESOLUTION 004 – RECOGNIZING LGBTQ+ INDIVIDUALS AS
9 UNDERREPRESENTED IN MEDICINE

10
11 RESOLVED, That our American Medical Association advocate for the creation of
12 targeted efforts to recruit sexual and gender minority students in efforts to increase
13 medical student, resident, and provider diversity(Directive to Take Action); and be it
14 further

15 RESOLVED, That our AMA encourage the inclusion of sexual orientation and gender
16 identity data in all surveys as part of standard demographic variables, including but not
17 limited to governmental, AMA, and the Association of American Medical Colleges
18 surveys, given respondent confidentiality and response security can be ensured (New
19 HOD Policy); and be it further

20 RESOLVED, That our AMA work with the Association of American Medical Colleges to
21 disaggregate data of LGBTQ+ individuals in medicine to better understand the
22 representation of the unique experiences within the LGBTQ+ communities and their
23 overlap with other identities. (Directive to Take Action)
24

25 Online forum testimony is supportive along with some testimony voicing concerns.
26 Testimony from one group reflects that the resolution is aligned with their section’s goals
27 “supporting and advocating for increased diversity” in the AMA and in the “medical
28 profession at large.” Additionally, individual testimony in opposition to this resolution
29 finds that it supports giving a group preferential treatment and is thereby discriminatory
30 to other groups. Testimony also expresses concern about data to support whether
31 LGBTQ+ individuals are actually underrepresented in medicine. Individual testimony also
32 expresses concern that data only be collected with proper privacy protections.
33 Responding to some of these concerns, another group testifies that this resolution “is not
34 intended to create any new groups, nor favor one group over another, but rather provide
35 actionable groundwork” to fulfil existing AMA policy.
36

37
38 (14) RESOLUTION 005 – SUPPORTING THE STUDY OF REPARATIONS AS A
39 MEANS TO REDUCE RACIAL INEQUALITIES

40
41
42 RESOLVED, That our American Medical Association study potential mechanisms of
43 national economic reparations that could improve inequities associated with
44 institutionalized, systematic racism and report back to the House of Delegates (Directive
45 to Take Action); and be it further

46 RESOLVED, That our AMA study the potential adoption of a policy of reparations by the
47 AMA to support the African American community currently interfacing with, practicing
48 within, and entering the medical field and report back to the House of Delegates
49 (Directive to Take Action); and be it further

1 RESOLVED, That our AMA support federal legislation that facilitates the study of
2 reparations. (New HOD Policy)

3
4 Online testimony for this resolution was uniformly and strongly supportive. Multiple
5 testimony notes that this resolution only asks for the AMA to study the issue and “does
6 not call for the AMA to support reparations”. Testimony notes that this resolution “gives
7 our AMA the opportunity to lend a powerful voice, at an extremely timely and important
8 juncture, towards true health equity.”

9
10
11 (15) RESOLUTION 006 – COMBATING NATURAL HAIR AND CULTURAL
12 HEADWEAR DISCRIMINATION IN MEDICINE AND MEDICAL
13 PROFESSIONALISM

14
15 RESOLVED, That our American Medical Association recognize that discrimination
16 against natural hair/hairstyles and cultural headwear is a form of racial, ethnic and/or
17 religious discrimination (New HOD Policy); and be it further
18 RESOLVED, That our AMA oppose discrimination against individuals based on their hair
19 or cultural headwear in health care settings (New HOD Policy); and be it further
20 RESOLVED, That our AMA acknowledge the acceptance of natural hair/hairstyles and
21 cultural headwear as crucial to professionalism in the standards for the health care
22 workplace (New HOD Policy); and be it further
23 RESOLVED, That our AMA encourage medical schools, residency and fellowship
24 programs, and medical employers to create policies to oppose discrimination based on
25 hairstyle and cultural headwear in the interview process, medical education, and the
26 workplace. (New HOD Policy)

27
28 Online forum testimony for this resolution is largely supportive. Testimony explains that
29 the resolution “builds upon recent update to AMA anti-discrimination policies” and
30 addresses an important gap. The author of the resolution testifies that “as the workplace
31 becomes increasingly diverse, residency program leadership should encourage trainees
32 to bring their ‘whole selves’ to work” and further testimony argues that the AMA should
33 “take a stand and protect attendings, trainees, medical students from this form of
34 discrimination.” Additionally, limited testimony notes that there should be clarification that
35 “hair or head gear will not cause sterility problems in operating and/or procedure rooms”
36 or “interfere while working with MRI.”

37
38
39 (16) RESOLUTION 007 – EQUAL ACCESS FOR ADOPTION IN THE LGBTQ
40 COMMUNITY

41
42
43 RESOLVED, That our American Medical Association advocate for equal access to
44 adoption services for LGBTQ individuals who meet federal criteria for adoption
45 regardless of gender identity or sexual orientation (Directive to Take Action); and be it
46 further
47 RESOLVED, That our AMA encourage allocation of government funding to licensed child
48 welfare agencies that offer adoption services to all individuals or couples including those
49 with LGBTQ identity. (New HOD Policy)

50

1 Online forum testimony for this resolution is strongly supportive. Testimony was
2 uniformly positive and notes the importance of the issue that there should be no
3 discrimination. The resolution authors testify AMA already has policy aligned with the
4 goals of this resolution and that “we need to support equal access to adoption for
5 members of this LGBTQ community to improve equality and the outcomes of children
6 within the foster-care system.”
7
8

9 (17) RESOLUTION 008 – STUDENT-CENTERED APPROACHES FOR
10 REFORMING SCHOOL DISCIPLINARY POLICIES
11
12

13 RESOLVED, That our American Medical Association support evidence-based
14 frameworks in K-12 schools that focus on school-wide prevention and intervention
15 strategies for student misbehavior (New HOD Policy); and be it further
16 RESOLVED, That our AMA support the inclusion of school-based mental health
17 professionals in the student discipline process. (New HOD Policy)
18
19

20 Online forum testimony for this resolution is supportive. The resolution authors note this
21 resolution encourages interventions that “would advance health equity, since school-
22 related arrests and juvenile justice referrals disproportionately target Black students,
23 Latinx students, and students with physical or mental disabilities.” The authors further
24 note that this resolution “focuses on interventions that can help prevent student
25 misbehavior and prioritize children’s behavioral and mental health outcomes.”
26
27

28 (18) RESOLUTION 009 – PRIVACY PROTECTION AND PREVENTION OF
29 FURTHER TRAUMA FOR VICTIMS OF DISTRIBUTION OF INTIMATE VIDEOS
30 AND IMAGES WITHOUT CONSENT
31
32

33 RESOLVED, That our American Medical Association amend policy H-515.967,
34 “Protection of the Privacy of Sexual Assault Victims,” by addition to read as follows:
35 Protection of the Privacy of Sexual Assault Victims H-515.967
36 The AMA opposes the publication or broadcast of sexual assault victims’ names,
37 addresses, images or likenesses without the explicit permission of the victim. The AMA
38 additionally opposes the publication (including posting) or broad cast of videos, images,
39 or recordings of any illicit activity of the assault. The AMA opposes the use of such
40 video, images, or recordings for financial gain and/or any form of benefit by any entity.
41 (Modify Current HOD Policy)
42

43 RESOLVED, That our AMA research issues related to the distribution of intimate videos
44 and images without consent to find ways to protect these victims to prevent further harm
45 to their mental health and overall well-being. (Directive to Take Action)
46

47 There is no online forum testimony for this resolution.
48
49

1 (19) RESOLUTION 010 – IMPROVING THE HEALTH AND SAFETY OF SEX
2 WORKERS
3
4

5 RESOLVED, That our American Medical Association recognize the adverse health
6 outcomes of criminalizing consensual sex work (New HOD Policy); and be it further
7 RESOLVED, That our AMA: 1) support legislation that decriminalizes individuals who
8 offer sex in return for money or goods; 2) oppose legislation that decriminalizes sex
9 buying and brothel keeping; and 3) support the expungement of criminal records of
10 those previously convicted of sex work, including trafficking survivors (New HOD Policy);
11 and be it further
12 RESOLVED, That our AMA support research on the long-term health, including mental
13 health, impacts of decriminalization of the sex trade. (New HOD Policy)
14

15 Online forum testimony for this resolution is supportive. The resolution authors testify
16 that “there is strong evidence demonstrating that the criminalization of sex work is
17 harmful to the health and well-being of sex workers” and that it is “our job to help
18 cultivate better health conditions for all people.”
19
20

21 (20) RESOLUTION 011 – EVALUATING SCIENTIFIC JOURNAL ARTICLES FOR
22 RACIAL AND ETHNIC BIAS
23
24

25 RESOLVED, That our American Medical Association support major journal publishers
26 issuing guidelines for interpreting previous research which define race and ethnicity by
27 outdated means (New HOD Policy); and be it further
28 RESOLVED, That our AMA support major journal publishers implementing a screening
29 method for future research submission concerning the incorrect use of race and ethnicity.
30 (New HOD Policy)
31

32 Online forum testimony for this resolution is mixed and outlines concerns. Several
33 individual testimonies note that, while the intent of the language is important, the
34 language is vague and “lack direction in process for achieving the goals”, and that such
35 vagueness opens up the possibility for censorship. The authors of the resolution testify
36 that “research in medicine has historically used race and ethnicity inconsistently and
37 inaccurately contributing to disparities in medical care and adverse health impacts” and
38 that “as the basis of evidence-based guidelines, major journal publications have a duty
39 to be critical of inappropriate or misuse of race and ethnicity in research when evaluating
40 submissions in order to promote consistency and equity in healthcare.”
41
42

43 (21) RESOLUTION 012 – EXPANDING THE DEFINITION OF IATROGENIC
44 INFERTILITY TO INCLUDE GENDER AFFIRMING INTERVENTIONS
45
46

47 RESOLVED, That our American Medical Association amend policy H-185.990, “Infertility
48 and Fertility Preservation Insurance Coverage.” by addition to read as follows:
49 Infertility and Fertility Preservation Insurance Coverage H-185.990

1 It is the policy of the AMA that (1) Our AMA encourages third party payer health
2 insurance carriers to make available insurance benefits for the diagnosis and treatment
3 of recognized male and female infertility; (2) Our AMA supports payment for fertility
4 preservation therapy services by all payers when iatrogenic infertility may be caused
5 directly or indirectly by necessary medical treatments as determined by a licensed
6 physician, and will lobby for appropriate federal legislation requiring payment for fertility
7 preservation therapy services by all payers when iatrogenic infertility may be caused
8 directly or indirectly by necessary medical treatments as determined by a licensed
9 physician; and (3) Our AMA encourages the inclusion of impaired fertility as a
10 consequence of gender-affirming hormone therapy and gender-affirming surgery within
11 legislative definitions of iatrogenic infertility. (Modify Current HOD Policy); and be it
12 further

13 RESOLVED, That our AMA amend policy H-185.950, "Removing Financial Barriers to
14 Care for Transgender Patients," by addition to read as follows:

15 Removing Financial Barriers to Care for Transgender Patients H-185.950

16 Our AMA supports public and private health insurance coverage for medically necessary
17 treatment of gender dysphoria as recommended by the patient's physician, including
18 gender-affirming hormone therapy and gender-affirming surgery. (Modify Current HOD
19 Policy)

20
21 **Online forum testimony for this resolution is mixed. One group testified that the AMA**
22 **currently does not have policy on gender affirming care and that "this topic is important**
23 **enough that it should not be dealt with piecemeal" and that a comprehensive report**
24 **should first be developed that also analyzes the issue of gender affirming care. The**
25 **report authors testify that the resolution "revisions align with existing MSS and AMA**
26 **policy calling for the removal of barriers to care, including fertility preservation care, for**
27 **transgender individuals and would work to cultivate the delivery of equitable healthcare**
28 **to diverse patient populations."**

29
30
31 (22) RESOLUTION 013 – RECOGNITION OF NATIONAL ANTI-LYNCHING
32 LEGISLATION AS A PUBLIC HEALTH INITIATIVE
33
34

35 RESOLVED, That our American Medical Association support national legislation that
36 recognizes lynching and mob violence towards an individual or group of individuals as a
37 hate crimes (New HOD Policy); and be it further

38 RESOLVED, That our AMA work with relevant stakeholders to support medical students,
39 trainees and physicians receiving education on the inter-generational health outcomes
40 related to lynching and its impact on the health of vulnerable populations (Directive to
41 Take Action); and be it further

42 RESOLVED, That our current AMA policy H-65.965, Support of Human Rights and
43 Freedom, be amended by addition to read as follows:

44 Our AMA: (1) continues to support the dignity of the individual, human rights and the
45 sanctity of human life, (2) reaffirms its long-standing policy that there is no basis for the
46 denial to any human being of equal rights, privileges and responsibilities commensurate
47 with his or her individual capabilities and ethical character because of an individual's
48 sex, sexual orientation, gender, gender identity or transgender status, race, religion,
49 disability, ethnic origin, national origin or age; (3) opposes any discrimination based on
50 an individual's sex, sexual orientation, gender identity, race, phenotypic appearance,

1 religion, disability, ethnic origin, national origin or age and any other such reprehensible
2 policies; (4) recognizes that hate crimes pose a significant threat to the public health and
3 social welfare of the citizens of the United States, urges expedient passage for
4 appropriate hate crimes prevention legislation in accordance with our AMA's policy
5 through letters to members of Congress; and registers support for hate crimes
6 prevention legislation, via letter, to the President of the United States (Modify Current
7 HOD Policy); and be it further
8 RESOLVED, That our AMA reaffirm policy H-65.952 "Racism as a Public Health Threat".
9 (Reaffirm HOD Policy)

10
11 Online forum testimony for this resolution is strongly supportive. The authors testify that
12 "the overall goal of this resolution is to ask physicians, trainees and medical students to
13 receive education on such harms of lynching and the intergenerational impact it leaves
14 on health of individuals and communities." Further testimony states that "the impacts of
15 lynching on generational trauma are steep and requires acknowledgement as part of our
16 antiracism framework. Moreover, it is imperative that our organization recognize lynching
17 and other acts of mob violence as hate crimes, lending our voices to the national
18 conversation." Additionally, there is some criticism of the use of the language
19 "phenotypic appearance" in the resolution and the authors of the resolution testify in
20 support of removal of this language.
21

22
23 (23) RESOLUTION 014 – HEALTHCARE EQUITY THROUGH INFORMED
24 CONSENT AND A COLLABORATIVE HEALTHCARE MODEL FOR THE
25 GENDER DIVERSE POPULATION
26

27
28 RESOLVED, That our American Medical Association support shared decision making
29 between gender diverse individuals, their families, their primary care physician, and a
30 multidisciplinary team of physicians and other health care professionals including, but not
31 limited to, those in clinical genetics, endocrinology, surgery, and behavioral health, to
32 support informed consent and patient personal autonomy, increase access to beneficial
33 gender affirming care treatment options and preventive care, avoid medically unnecessary
34 surgeries, reduce long term patient dissatisfaction or regret following gender affirming
35 treatments, and protect federal civil rights of sex, gender identity, and sexual orientation.
36 (New HOD Policy)
37

38
39 Online forum testimony for this resolution is strongly supportive. Testimony notes that
40 the resolution helps further informed consent and patient autonomy and that the "AMA
41 has supported methods to increase access to gender-affirming care and protect patient
42 autonomy in the past" and such support is aligned with the goals of this resolution.
43

44
45 (24) RESOLUTION 015 – INCREASING MENTAL HEALTH SCREENINGS BY
46 REFUGEE RESETTLEMENT AGENCIES AND IMPROVING MENTAL HEALTH
47 OUTCOMES FOR REFUGEE WOMEN
48

1 RESOLVED, That our American Medical Association advocate for increased research
2 funding to create rapid, accessible, and patient centered mental health screening tools
3 pertaining to refugee and migrant populations (Directive to Take Action); and be it further
4 RESOLVED, That our AMA advocate for increased funding to the National Institutes of
5 Health for more research on evidence-based designs on delivery of mental health
6 services to refugees and migrant populations (Directive to Take Action); and be it further
7 RESOLVED, That our AMA advocate for increased mental health funding to increase the
8 number of trained mental health providers to carry out mental health screenings and
9 treatment (Directive to Take Action); and be it further
10 RESOLVED, That our AMA advocate for and encourage culturally responsive mental
11 health counseling specifically. (Directive to Take Action)

12
13 Online forum testimony for this resolution is supportive. One group testifies that their
14 section has a number of “number of policies addressing refugee, asylee, and migrant
15 health disparities which are in alignment with the policies proposed in this resolution, and
16 we appreciate the authors' work on this topic.” Individual testimony shares a desire to
17 see this resolution broadened in scope beyond only refugees and migrants.

18
19
20 (25) RESOLUTION 016 – ADDRESSING AND BANNING UNJUST AND INVASIVE
21 MEDICAL PROCEDURES AMONG MIGRANT WOMEN AT THE BORDER

22
23
24 RESOLVED, That our American Medical Association condemn the performance of
25 nonconsensual, unnecessary, invasive medical procedures (Directive to Take Action);
26 and
27 RESOLVED, That our AMA advocate against forced sterilizations of any kind, including
28 against migrant women in detention facilities, and advocate for appropriate associated
29 disciplinary action (including license revocation) (Directive to Take Action); and
30 RESOLVED, That our AMA advocate for safer medical practices and protections for
31 migrant women. (Directive to Take Action)

32
33
34 Online testimony for this resolution is supportive and offer some amendment for
35 clarification. Testimony is uniformly supportive for the spirit and intent of the resolution.
36 Testimony notes that “bodily autonomy and informed consent should be minimum
37 standards in all healthcare settings, and that all practitioners should abide by medically
38 indicated, evidence-based care. Several amendments have been offered to improve the
39 clarity of this resolution.

40
41
42 (26) RESOLUTION 017 – HUMANITARIAN AND MEDICAL AID SUPPORT TO
43 UKRAINE

44
45 RESOLVED, That our American Medical Association advocate for continuous support of
46 organizations providing humanitarian missions and medical care to Ukrainian refugees in
47 Ukraine, at the Polish-Ukrainian border, in nearby countries, and/or in the US; (Directive
48 to Take Action) and be it further
49 RESOLVED, That our AMA advocate for an early implementation of mental health
50 measures and address war-related trauma and post-traumatic stress disorder when

1 dealing with Ukrainian refugees with special attention to vulnerable populations including
2 but not limited to young children, mothers, and pregnant women (Directive to Take
3 Action); and be it further
4 RESOLVED, That our AMA advocate for educational measures to enhance the
5 understanding of war-related trauma in war survivors and promote efforts to increase
6 resilience in war-affected people targeting vulnerable categories of people. (Directive to
7 Take Action)

8
9 Online testimony for this resolution is minimal and specifies strong support.

10
11
12 (27) RESOLUTION 018 – HARDSHIP FOR INTERNATIONAL MEDICAL
13 GRADUATES FROM RUSSIA AND BELARUS
14

15
16 RESOLVED, That our American Medical Association study the impact of the current
17 political crisis on international medical graduates with medical degrees from Russia and
18 Belarus who are already in the U.S. either in training or practicing in regards to their ability
19 to obtain primary source verification and report back during the 2022 Interim House of
20 Delegates meeting. (Directive to Take Action)

21
22 Online forum testimony for this resolution is supportive. Testimony notes that they
23 “appreciate the sponsors for bringing attention to this issue that medical graduates from
24 Russia and Belarus may be facing, and are curious to learn how many of our trainees
25 are affected by this political crisis.”
26

27
28 (28) RESOLUTION 019 – HARDSHIP FOR INTERNATIONAL MEDICAL
29 GRADUATES FROM UKRAINE
30

31
32 RESOLVED, That our American Medical Association advocate with relevant stakeholders
33 that advise state medical boards to grant hardship waiver for primary source verification
34 of medical education for all licensing requirements for physicians who graduated from
35 medical schools in Ukraine until the current humanitarian crisis in Ukraine is resolved.
36 (Directive to Take Action)

37
38 Online forum testimony is strongly supportive. Testimony notes that “there are several
39 physicians who have matched in upcoming residency slots but cannot get primary
40 source verification as many of the Hospitals have been bombed.”
41

42
43
44 (29) RESOLUTION 020 – COUNCIL ON ETHICAL AND JUDICIAL AFFAIRS
45 GUIDELINES FOR TREATING UNVACCINATED INDIVIDUALS
46

47 RESOLVED, That our American Medical Association and the Council on Ethical and
48 Judicial Affairs issue new ethical guidelines for medical professionals for care
49 of individuals who have not been vaccinated for COVID-19. (Directive to Take Action)
50

1
2 Online testimony for this resolution is mixed. Testimony from one group notes that they
3 oppose the resolution “as being unnecessary and not helpful”, highlighting the current
4 ethical guidance of Opinion 8.3 – Physicians Responsibilities in Disaster Response and
5 Preparedness”, which states that “physicians first and primary obligation is to provide
6 care for those in need, even in the face of greater than usual risk to their own safety,
7 health or life”. The resolution’s authors testify that more specific ethical guidelines are
8 needed, namely ethical guidelines that speak specifically to the issue of physician
9 refusal to care for patients who have not been vaccinated for COVID. The authors testify
10 that such ethical guidelines would carry greater weight than policy statements from the
11 AMA.

12
13
14 (30) RESOLUTION 021 – NATIONAL CANCER RESEARCH PATIENT IDENTIFIER

15
16
17 RESOLVED, That in order to increase the power of medical research, our American
18 Medical Association propose a novel approach to linking medical information while still
19 maintaining patient confidentiality through the creation of a National Cancer Research
20 Identifier (NCRI) (Directive to Take Action); and be it further
21 RESOLVED, That our AMA encourage the formation of an organization or organizations
22 to oversee the NCRI process, specific functions, and engagement of interested parties to
23 improve care for patients with cancer. (Directive to Take Action)

24
25 Online forum testimony is not supportive. Testimony reflects concerns that the data in
26 today’s world is not secure, so that patient confidentiality is always at risk. Additional,
27 testimony notes that the endeavor to oversee the NCRI process is so complex that it
28 should be led by the AMA and not other organizations. Testimony also notes that the
29 resolution should be opposed until more groundwork is completed, as outstanding
30 issues - like hacking and lack of a tested implementation plan – remain.

31
32
33 (31) RESOLUTION 022 – ORGAN TRANSPLANT EQUITY FOR PERSONS WITH
34 DISABILITIES

35
36
37 RESOLVED, That our American Medical Association support equitable inclusion of
38 people with Intellectual and Developmental Disabilities (IDD) in eligibility for transplant
39 surgery (New HOD Policy); and be it further
40 RESOLVED, That our AMA support individuals with IDD having equal access to organ
41 transplant services and protection from discrimination in rendering these services (New
42 HOD Policy); and be it further
43 RESOLVED, That our AMA support the goal of the Organ Procurement and
44 Transplantation Network (OPTN) in adding disability status to their Nondiscrimination
45 policy under the National Organ Transplant Act of 1984 (New HOD Policy); and be it
46 further
47 RESOLVED, That our AMA work with relevant stakeholders to distribute antidiscrimination
48 education materials for healthcare providers related to equitable inclusion of people with
49 IDD in eligibility for transplant surgery. (Directive to Take Action)

1 Online forum testimony for this resolution was mixed. While some testimony expresses
2 support, other testimony recommends referral. Testimony supporting referral argue that
3 the resolution should also “include discussion of blood and marrow transplantation” while
4 also noting that the “post-transplant regimens are highly complex” and that
5 “antidiscrimination rules need to be paired with reimbursement reform so that transplant
6 centers are not penalized for potentially worse outcomes in these higher-risk patients.”
7 Additional testimony in opposition states “that these donated organs must be available
8 to any individual processing or having reliable guardians possessing the ability to follow
9 the protocols of after transplant care from follow-up visits”.

10
11
12 (32) RESOLUTION 023 – PROMOTING AND ENSURING SAFE, HIGH QUALITY,
13 AND AFFORDABLE ELDER CARE THROUGH EXAMINING AND
14 ADVOCATING FOR BETTER REGULATION OF AND ALTERNATIVES TO THE
15 CURRENT, GROWING FOR-PROFIT LONG TERM CARE OPTIONS
16
17

18 RESOLVED, That our American Medical Association advocate for business models in
19 long term care for the elderly which incentivize and promote the ethical use of resources
20 to maximize care quality, staff and resident safety, and resident quality of life, and which
21 hold patients’ interests as paramount over maximizing profit (Directive to Take Action);
22 and be it further

23 RESOLVED, That our AMA, in collaboration with other stakeholders, advocate for further
24 research into alternatives to current options for long term care to promote the highest
25 quality and value long term care services and supports (LTSS) models as well as functions
26 and structures which best support these models for care. (Directive to Take Action)
27

28 Online forum testimony for this resolution is supportive. Individual testimony notes that it
29 is “very timely”. Additional testimony supporting the resolution notes concern “about for
30 profit entities who are in business to maximize stockholder profits, rather than give
31 appropriate care to patients.”
32
33

34 (33) RESOLUTION 024 – PHARMACEUTICAL EQUITY FOR PEDIATRIC
35 POPULATIONS
36

37 RESOLVED, That our American Medical Association amend Policy H-100.987,
38 “Insufficient Testing of Pharmaceutical Agents in Children,” by addition to read as
39 follows:

40 Insufficient Testing of Pharmaceutical Agents in Children H-100.987

41 1. The AMA supports the FDA's efforts to encourage the development and
42 testing of drugs in the pediatric age groups in which they are used.

43 2. The AMA supports collaboration between stakeholders, including but not limited to the
44 FDA, the American Academy of Pediatrics, and nonprofit organizations such as the
45 Institute for Advanced Clinical Trials for Children, to improve the efficiency and safety of
46 pediatric pharmaceutical trials in pursuit of pharmaceutical equity for pediatric populations.

47 (Modify Current HOD Policy)
48

49 There is no online forum testimony for this resolution.
50

1
2 (34) RESOLUTION 025 - USE OF SOCIAL MEDIA FOR PRODUCT PROMOTION
3 AND COMPENSATION
4

5 RESOLVED, That our American Medical Association study the ethical issues of medical
6 students, residents, fellows, and physicians endorsing non-health related products
7 through social and mainstream media for personal or financial gain. (Directive to Take
8 Action)

9
10 Online forum testimony for this resolution is mixed. Individual testimony find that “ask is
11 far too broad” as “many professionals use social media to promote their approach to
12 care or promote products that are within the broad array of "acceptable" alternatives for
13 conditions that are challenging to treat.” The authors of the resolution testify that in the
14 context of social-medial influencing, “the financial conflict of interest may lead to the
15 promotion of non-evidence backed products and has the potential to decrease the trust
16 patients have in the medical profession”, and hence believe that “the AMA should get in
17 front of this new ethical dilemma.”
18

19
20 This concludes the Preliminary Document of the Reference Committee on Amendments
21 to Constitution and Bylaws.
