

2024 Annual Meeting of the AMA Senior Physicians Section (SPS)

Friday, June 7, 2024, 2:30 – 5:30 p.m. Central Daylight Time (CDT)
Hyatt Regency Chicago

Friday, June 7

2:30 p.m. – 3:00 p.m.	<p>Education Program</p> <p>Title: Confronting Ageism in Medicine</p> <p>Program Description: Research has shown that there is a strong link between ageism, in the form of negative stereotypes, prejudice and discrimination, combined with power imbalances, and risks for one's physical and mental health. Ageism can be implicit, intersect with structures marginalizing other identities, and exist at multiple levels, from the individual to the institutional or societal. This session will examine how ageism developed as a concept and is expressed in health care today, the disparate impacts on older physicians and patients, and what strategies health care professionals might use to address ageism in the health care system at different levels, in the pursuit of optimal health and health work for older people.</p> <p>Learning Objectives</p> <ul style="list-style-type: none"> • Define ageism and its disparate impact on older physicians and patients • Describe resources and strategies for patients and physicians to address ageism <p>Speakers: (1) William (Bill) Jordan, MD, MPH, Director, AMA Health Equity Policy & Transformation Director (2) Emily Cleveland Manchanda, MD, MPH, Director, AMA Social Justice Education & Implementation</p> <p>Moderator: Edward T. Bope, MD, AMA-SPS Governing Council, Chair-Elect and Education Program Chair</p>	Crystal Ballroom A (West Tower, Lobby Level)
3:00 p.m. – 4:00 p.m.	<p>SPS Assembly Business Meeting (welcome introductions program overview)</p> <p>Virginia (Ginny) E. Hall, MD, AMA-SPS Delegate Douglas M. DeLong, MD, AMA-SPS Alternate Delegate</p>	Crystal Ballroom A (West Tower, Lobby Level)
4:00 p.m. – 5:30 p.m.	<p>Education Program</p> <p>Title: Bone Health and Osteoporosis: A Comprehensive Look</p>	Crystal Ballroom A (West Tower, Lobby Level)

	<p>from Causes to Treatment</p> <p>Program Description: Osteoporosis is a preventable disease, and can often be reduced, eliminated, or prevented by following healthy lifestyle guidelines. As we age, our bones become less dense and can lose strength, which increases the risk of breaks or fractures. The health care costs associated with osteoporosis are expected to grow as life expectancy increases. This program will include information on diets that support bone health, review imaging and bone density studies, and provide differentiated recommendations for women and men. We will also cover the impact and types of exercise required for optimal bone health.</p> <p>Learning Objectives</p> <ul style="list-style-type: none"> • Review the causes and symptoms of osteoporosis • Determine the appropriate type of bone scan for specific age groups for optimal bone health • Explore treatment options for osteoporosis, including lifestyle modifications • Examine dietary and weight-bearing exercise strategies to prevent osteoporosis <p>Speakers: (1) Jade Anderson, MD, Assistant Professor, Department of Radiology; University of Wisconsin School of Medicine and Public Health (2) Pauline M. Camacho, MD, Professor of Medicine, Loyola University Medical Center; Director, Loyola University Osteoporosis and Metabolic Bone Disease Center (3) Prakash Jayabalan, MD, PhD, Associate Professor, Northwestern Feinberg School of Medicine; Director of Clinical Musculoskeletal Research & Attending Physician Scientist, Shirley Ryan AbilityLab</p> <p>Moderator: Edward T. Bope, MD, AMA-SPS Governing Council, Chair-Elect and Education Program Chair</p>	
5:30 p.m. – completed	HOD Opening Session	
Saturday, June 8		
12:30 p.m. – 1:00 p.m.	HOD Second Opening Session	
1:00 p.m. – completed	Reference Committee Hearings
