

Delegate

Angela Wu MD, MPH

Residency/Fellowship Program: George Washington University

Expected Graduation Date: 06/30/2024

Specialty: Emergency Medicine

Dear friends and colleagues of the Resident and Fellow Section, it has been an incredible two years serving as one of your sectional delegates and I would be honored if you were to elect me for one more year. This upcoming year will be my last in the RFS and it is very bittersweet to be excited for attending life but also having to leave this section that has felt like home. I have been your Committee on Legislation and Advocacy chair, team lead for resolution review, and continued advocate for your voice in both my state, the District of Columbia, and my specialty of emergency medicine. In building on the consistent policy acumen and organization our section is known for, I have been able to further demonstrate the value of trainees and carve out a space for us in my other organizations. The Medical Society of DC is making a special effort to train and include residents/fellows in their upcoming visit to DC Council, and the Emergency Medicine Section Council of the AMA included residents/fellows in their resolution review process for the first time at the 2023 Annual meeting. I plan to finish out this last year strong with service on an HOD reference committee, ongoing commitment to advancing RFS policy priorities, leading resolution review, and mentoring new residents to continue the representation of trainees in my state and specialty society. Thank you so much for your consideration!
