

Delegate

Angela Wu, MD MPH

Residency/Fellowship Program: George Washington University

Expected Graduation Date: 06/30/2024

Specialty: Emergency Medicine

I am a 3rd year emergency medicine resident at George Washington University and an active AMA member since 2015. From my first forays into the AMA and the world of health policy as a fresh first year medical student, I have been motivated by the belief that positive change comes from within an organization when everyone has a seat at the table. Going forward as a section it is important that we continue to defend democratic process in the AMA and demonstrate the resiliency, insight, and unique perspectives of residents and fellows.

Towards this end, I bring leadership and policy experience from my time as a lead reviewer in the MSS House Coordinating Committee, the chair of the RFS Committee on Legislation and Advocacy, and as an RFS sectional delegate team lead for reference committee B coordinating testimony about our resolutions on scope of practice. Having completed the requirement for being a delegate for a year, I plan to apply for a HOD reference committee at annual 2023 and continue the fantastic work done by previous RFS representatives. I have also been a voice for residents in my state medical society as co-chair of our newly developed Early Career Physicians Section where I have made mentorship and leadership opportunities for trainees a priority.

I love this incredible community and value the ideas and passion we share to care for our patients and for each other. I promise to be available, to listen, and to always advocate for you. I would be honored if you selected me once again to represent you as a sectional delegate from the Resident and Fellow Section.
