

[Delegate or Alternate Delegate]

[Brady Iba, D.O.]

Residency/Fellowship Program: [Griffin Memorial Psychiatry]

Expected Graduation Date: [June 2026]

Specialty: [Psychiatry]

[I am a 2nd year psychiatry resident from Oklahoma. I thoroughly enjoy creating and advocating for policy at the state and national level. I was a regional delegate in the MSS and want to continue working at the resident level, representing the RFS in the HOD.

Some of my favorite policy to create and collaborate on is improving medical education and I hope to continue growing, learning, and advocating for policy that does that. I joined the RFS Council on Medical Education to strengthen my involvement and my understanding of current policy.

Wellness and improving wellness in health care is my other passion. I was Oklahoma State's wellness chair during medical school and am the wellness chair for my residency currently. Much like wellness programming, policy-creation takes a lot of teamwork and coordination. My work in wellness has prepared me well to work as a team as well as help others create policy of their own.

Overall, my background in public speaking and political advocacy will aid me greatly. I believe I can be a very successful sectional delegate and would greatly appreciate your vote.]
