

Delegate or Alternate Delegate

Daniel Hulkan, MD

Residency/Fellowship Program: Texas Health Presbyterian Dallas

Expected Graduation Date: 06/30/2025

Specialty: Internal Medicine

To whom it may concern:

My name is Daniel Hulkan and I am a current Categorical PGY-2 at Texas Health Dallas Internal Medicine Residency.

I am interested in applying for the position of AMA-RFS Sectional Delegate or Alternate Delegate.

Since starting residency, I have already served with the Texas Medical Association (TMA) Council on membership, and I currently serve as the RFS Secretary.

Throughout my time with TMA and AMA, I have met many interesting, kind, and fun people; and, as a potential AMA-RFS Sectional Delegate, I look forward to meeting and working with even more great people as we pursue something we are all passionate about: advocating for better care for our patients.

I strongly believe that when we all decide to go into medicine, we do it for one main purpose: to dedicate our minds, bodies, and souls to helping our family, our friends, and other members of our community have the best healthcare outcomes possible. However, while we all do our best for our patients, I think we all realize there are areas where we fall short as individuals. I want to serve because I truly believe that just like in any healthcare situation, a team serves the patient far better than one individual trying to go it alone. I firmly believe that a team of people with different backgrounds, specialties, and ideas is typically the best path forward as it allows for iron to sharpen iron as together we will come up with the best paths forward to improve the healthcare system for our patients.

Thank you for your consideration,

Daniel Hulkan
