

Delegate/Alternate Delegate

Oluwasegun Paul Emenogu, MD

Residency/Fellowship Program: University of Chicago

Expected Graduation Date: June 30, 2026

Specialty: Neurology

I am deeply honored to express my desire to serve as an RFS section delegate. My journey toward this moment is deeply rooted in my passion for healthcare advocacy and my active involvement in this organization.

My involvement with the AMA dates back to my time in medical school, where I eagerly became a member. During that time, I had the privilege of serving as a delegate for the MSS, as well as serving on various standing committees and reference committees where I collaborated with others on issues such as racism in healthcare and reproductive rights.

As a resident, my commitment to advocacy has grown even stronger after witnessing the challenges that affect our profession and our patients. I've remained an active member because of this, serving in various roles such as on the Public Health Standing Committee, where we worked diligently to educate others on critical issues like resident unionization and abortion access in a post-Roe v. Wade America.

These experiences, I know, have prepared me to be an advocate for both my fellow residents and patients alike, and I hope I get the opportunity to work with you all to move medicine forward. Thank you for your consideration.
