Family Medicine

I am always inspired at our AMA meetings. I look around at the brilliant and talented group of residents and fellows and am filled with gratitude that you allow me the honor to represent the Residents and Fellows Section (RFS). It has been an amazing year serving as alternate delegate and I am now seeking election as delegate for this following year. I am passionate about the democratic process, and the power of a resolution to impact change when discussed in the AMA House of Delegates. This next year will be filled with challenging issues and the RFS deserves a voice in those said debates. Please allow me the opportunity to continue to serve you and represent your voice by being one of your priceless votes. Thank you for your time and consideration.
