
Women Physicians Section (AMA-WPS)

Young Physicians Section Representative to
the WPS Governing Council

Name

Siri Marie Holton

Credentials

MD

Pronouns

She/Her

Statement of interest

I have been honored over these past two years to serve as your Young Physicians Section Representative to the WPS Governing Council, and to serve as your Vice Chair of the WPS GC this current year. I am seeking re-election so I may continue to represent the women of the AMA and advocate on your behalf, with a specific focus on the issues of young physicians.

I am a full time practicing obstetrician/gynecologist and mother to a busy and wonderful 2-year-old little girl. My days are filled with managing tasks, caring for others, and striving for moments of peace amongst the chaos. Whether you call it work-life balance, harmony, integration, or something different, the primary goal is similar - we need to prioritize our well-being in all facets of our lives. It is hard to build a family, a community, a support network, while also building your career, your skills, your patient base. And it is harder as a woman. I hope to bring this focus to an additional two years representing you on the WPS GC. Thank you for your consideration.

Diversity statement

I am an obstetrician/gynecologist who practices the full spectrum of reproductive health which

includes providing abortion care and providing gender affirming care. I am grateful every day to my patients for trusting me with their most vulnerable needs and often in their most vulnerable times. My patients know what is best for them and what is right for them. I bring their stories forward to the AMA, to ACOG, and to my local, state, and federal congress members so that they may continue to have access to lifesaving healthcare.
