4

### Statement of interest

I hope to continue my engagement with APS, learning more about the Section and the AMA, contributing to the decision-making for the Section, and continuing in my role on the Education Committee planning CME activities for the APS.

### Diversity statement

As a child of first-generation parents and grandchild of four Greek immigrants, I was raised with the awareness of the impact that discrimination and hate can have on a person or group. This transmission of experience between generations has sensitized me to the importance of diversity and inclusivity; has informed my conduct personally and professionally; and, has been a driver in my advocacy in my institution and in the profession for the consideration of diversity, equity and inclusion in what we do.
