

CPT® Category III Codes Short Descriptors

It is important to note that further CPT Editorial Panel (Panel) or Executive Committee actions may affect these codes and/or descriptors. For this reason, code numbers and/or descriptor language in the CPT code set may differ at the time of publication. In addition, further Panel actions may result in gaps in code number sequencing.

Most recent changes to the CPT® Category III Short Descriptor Document

- Revision of 4 codes (0805T-0806T, 0882T-0883T) and the addition of 28 Category III codes (1026T-1053T) accepted by the CPT Editorial Panel at the September 2025 meeting.

The following Category III codes were accepted at the September 2025 CPT Editorial Panel meeting for the 2027 CPT production cycle. However, due to Category III code's early-release policy, these codes are effective on July 1, 2026, following the six-month implementation period, which begins January 1, 2026.

*Resequenced codes 1030T-1035T will follow code 0562T and code 1043T will follow code 0698T.
