

CPT® Category III Codes Short Descriptors

It is important to note that further CPT Editorial Panel (Panel) or Executive Committee actions may affect these codes and/or descriptors. For this reason, code numbers and/or descriptor language in the CPT code set may differ at the time of publication. In addition, further Panel actions may result in gaps in code number sequencing.

Most recent changes to the CPT® Category III Short Descriptor document

- Addition of 34 Category III codes (0867T-0900T) and the revision of one Category III code (0714T) accepted by the CPT Editorial Panel at the September 2023 meeting.

The following Category III codes were accepted at the September 2023 CPT Editorial Panel meeting for the 2025 CPT production cycle. However, due to Category III code's early-release policy, these codes are effective on July 1, 2024, following the six-month implementation period, which begins January 1, 2024.
